

GYNEX®

Century UMI™

Uterine Manipulator / Injector

See page 41

Spring 2021

Trevor says . . .

Thank you for allowing Gynex to serve your instrument needs. It has always been our mission to bring you the latest products with transparent, affordable pricing. In keeping with this mission, we have made some updates to our catalog.

Please see The Century UMI™ on page 41 (REF 10-160). We have worked to not only lower the price of this product, but each Century UMI™ now includes a 10cc syringe for your convenience. This easy-to-use uterine manipulator with pear-shaped balloon tip exposes the patient's pelvic anatomy for better definition and optimal access. Its curved design allows for gentle insertion and its stiffer shaft enables a more effective manipulation of the uterus. With our cost savings passed to you, there is no better time to try the Century UMI™.

We are also offering, for a limited time, special pricing on our pHem-Alert®. This convenient Vaginal pH test comes securely packaged in a tray with a patented pH "key" and easy to read pH chart. Right now, you can purchase 2 boxes for the price of one. For more information see page 90 (REF pH-99).

To all our customers who have trusted us over the years, we want to thank you for your patronage and loyalty. To best serve you, we have moved locations. Our new location in Texas will allow us to get products around the country even faster. Please look to page 96 for our updated Transit map and new address.

As always, if you have any questions, thoughts, or ideas, please let us know so we can accommodate you.

Thank you,

A handwritten signature in cursive script that reads "Trevor Kurz".

SpecuLume® EZ

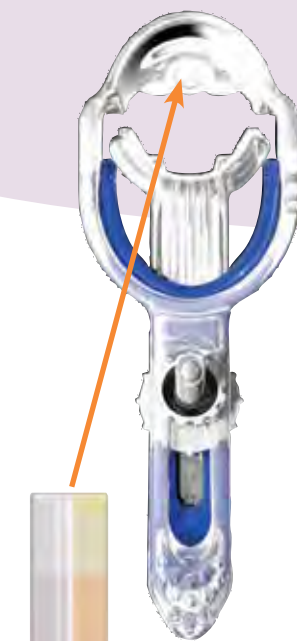

Single-Use ☒ Vaginal Speculum with Illumination Insert

Finally, a single-use vaginal speculum that provides true intra-vaginal lighting, greater clinician visibility, and increased patient comfort. The functionality of the sturdy, classic metal speculum combined with the benefits of modern designs make it silent to operate, disposable, and affordable to any budget.

***Slides up and open just like a Graves speculum!
"No Clicking"***

MADE IN THE USA

Illumination Insert

DESIGNED FOR IMPROVED PATIENT AND CLINICIAN INTERACTION

Elevates silently; holds securely; releases easily

IMPROVES CLINICAL PERFORMANCE

Provides diffused illumination positioned where needed most

COST-EFFECTIVE AND ENVIRONMENTALLY FRIENDLY

No batteries or electricity needed; no costly cleaning or sterilization chemicals

EASY-TO-USE, STURDY DESIGN

Operates like traditional metal, Graves speculum; disposable like plastic

With SpecuLume® EZ

- Unique light source generates no heat.
- Light insert ready in a "snap" without requiring electricity or batteries.
- After use, discard the entire product as clinical waste; nothing to disassemble, because there is no battery.
- Single middle bolt design allows for simple operation and securely locks in place.
- Completely recyclable and more environmentally friendly than battery-powered devices.
- Chemiluminescent insert produces optimal distributed lighting for 15 minutes, eliminating harsh illumination.

ILLUMINATED VAGINAL SPECULUM

Single-Use ☒ Vaginal Speculum with Illumination Insert

*“Finally a disposable speculum
that makes sense”*

LARGER OPENING

Large user opening
*Provides greater visual
access, 42mm x65mm*

CHEMILUMINESCENCE

Light insert can be placed on
either upper or lower blade
*Allows flexibility for optimal
bright illumination*

PINCH GUARDS

“Pinch Guards” block the gap between the proximal
ends of upper and lower blades
Safeguards the patient when the upper blade is lowered

SILENT ADJUSTMENT

Single middle bolt silently elevates
and securely locks upper blade
*Eliminates annoying racking noise
for improved patient experience*

ANGLED HANDLE

Handles are angled away from patient
*Provides more space between
clinician's hands and patient*

End view - Tip Detail

ROTATING BIOPSY PUNCHES

ROTO TIP™

Stainless Steel

ROTO Tip™ rotating biopsy punches offer the added convenience of making a quick change in the biopsy tip size and shape without the expense of having additional complete biopsy punches. With a single handle you can have several tips available. Although the Standard Tip Tischler and the Mini-Tischler are the most popular, this design provide you a cost savings option to add angled tips. These tips easily rotate allowing you to gain better positioning for a biopsy sample.

Features

- Shaft/tip can be rotated up to 360° then locked
- Shaft/tip assembly is interchangeable
- Lower cost alternative to individual biopsy punches
- Working length 21cm

ENDOCERVICAL CURETTES

Spiral Curette

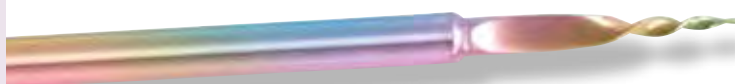

This unique endocervical spiral dual purpose curette was developed by Dr. Gordon M Lickrish, past director of the colposcopy unit at the University Health Network in Toronto.

- Supplies curettage where the endocervical canal is narrow, and a normal curette cannot sample.
- Acts as a cervical dilator allowing cervical or endometrial sampling.

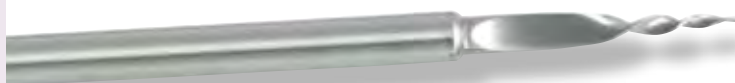

Titanium Cobalt Lickrish Spiral Curette

REF TB3040 21cm Length..... \$79⁹⁵

Titanium Rainbow Lickrish Spiral Curette

REF TC3040 21cm Length..... \$79⁹⁵

Stainless Lickrish Spiral Curette

REF 3040 21cm Length..... \$79⁹⁵

This instrument is found to be most appropriate when there is complete or severe partial cervical stenosis. This allows tissue sampling when a standard curette is too large for insertion. The tip may be gently inserted through the os, advancing and rotating at the same time.

Endocervical Curettes - Six Tip Design

Basket size: 10.5mm x 2mm

Kevorkian Curette with Basket Square Tip

The basket on this curette helps hold the sample during the curettage procedure.

REF 3005 32cm Length..... \$76⁹⁵

Basket size: 11.5mm x 2mm

Kevorkian Curette with Basket Round Tip

The basket on this curette helps hold the sample, and the rounded tip allows easier insertion.

REF 3015 32cm Length..... \$76⁹⁵

Basket size 12mm x 2mm

Kevorkian Curette no Basket Square Tip

The curette is designed with no basket which allows for easier removal of sample after the curettage procedure.

REF 3010 32cm Length..... \$76⁹⁵

Basket size: 7mm x 1.3mm

Townsend Curette Small Tip

This curette has the benefit of a small pointed tip that allows easier penetration of the os.

REF 3020 32cm Length..... \$76⁹⁵

Dublin Curette Round Tip

This curette provides samples when aggressive scraping is necessary from hard to sample tissue.

REF 3025 30cm Length..... \$76⁹⁵

EndoCurette ECC

This curette is inserted into the canal and rotated to scrap samples from the cervix. Blades on two sides.

REF 3050 32cm Length..... \$79⁹⁵

Curette Sharpening File

A small tapered diamond-coated sharpening stone, which will help keep your curette sharp.

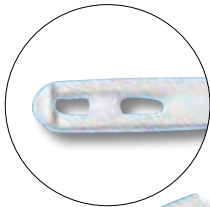

[REF] CSF3900 **\$31⁹⁵**

Kevorkian Curette

Kevorkian Curette eliminate cross-contamination concerns with the Single-Use[®]. The tip is always sharp, and is modeled after the extremely popular Curette with Basket, and Round Tip. The handle is specifically designed to remain firm under pressure, providing better maneuverability, and is angled to provide better leverage during curettage.

IUD SPECIALTY SECTION

see the following pages 26-29

Serpentine Grasper IUD Remover

The Serpentine Grasper has a flexible shaft that can be shaped into the most convenient, comfortable and advantageous position for entering the uterine cavity. The shaft can be bent greater than 360° without the loss of function, it will remain in any desired angle until reshaped as needed. The small tip allows easy entry into the endocervical canal while the grasping teeth provide a secure grip, especially useful for grasping IUD's.

Features

- Flexible shaft offers over 360° of mobility
- Shaft holds desired position until reshaped
- Small tip provides easy access
- High quality Stainless steel
- Tip in closed position 4.5mm
- Working length 20cm

REF 29-010\$295⁰⁰

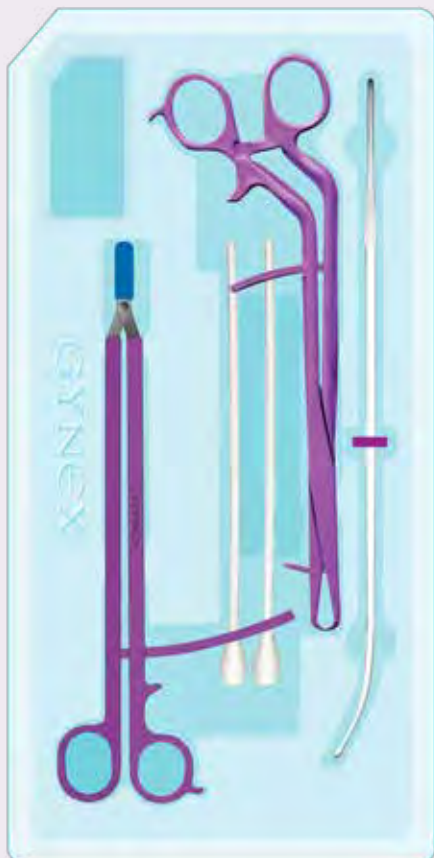

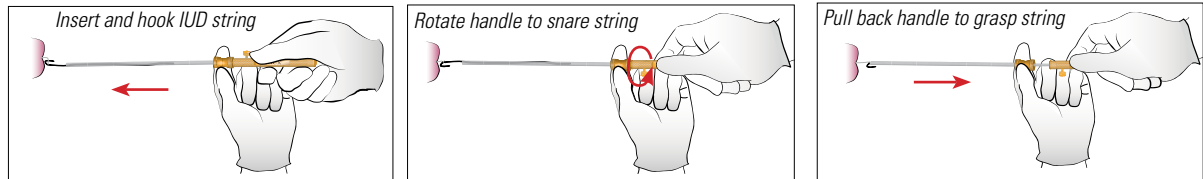

GYNEX is your key source for all your IUD instruments

ASCONA™ IUD String Snare

Allows gentle removal of IUD

The rotating handle provides a way to snag the string in the hook tip. Pulling back on the handle secures the string at the tip. Once secured, the Ascona™ allows the user to gently pull out and remove the IUD. The Ascona™ is easily disassembled for cleaning and sterilization. The locking tab can be loosened to remove the hook and flexible shaft.

Dilating Tip

There's no reason to rely on guesswork when you measure with a sound. The simple yet ingenious design of the ACCU-SOUND® Uterine Sound eliminates the guesswork involved with a standard uterine sound. When the ACCU-SOUND® Uterine Sound is inserted into the uterus, a ring comes to rest against the outside of the Os. The ring stays in place on the ACCU-SOUND® when the device is withdrawn from the uterus and vagina, clearly indicating the uterine measurement. There has never been a uterine sound more accurate and easy to use.

An accurate measurement as easy as 1,2,3 !

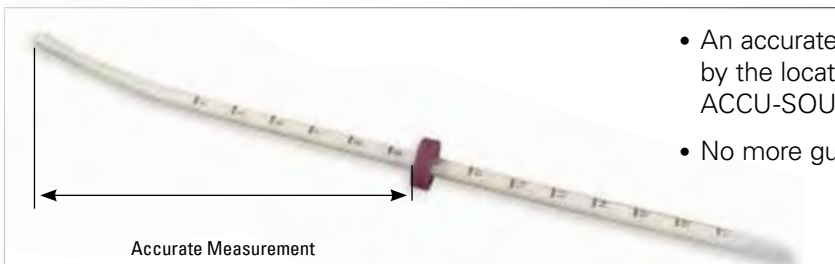

- Gently insert ACCU-SOUND® uterine sound's dilating tip into the cervical Os.

- Gently advance the ACCU-SOUND® Uterine Sound until the back of the uterus is felt.
- ACCU-SOUND® Uterine Sound ring will rest against the outside of the cervical Os.

- Withdraw ACCU-SOUND® Uterine Sound from the uterus and vagina. The ring will remain in place on the uterine sound indicating the uterus measurement.

- An accurate measurement is indicated by the location of the ring on the ACCU-SOUND® Uterine Sound
- No more guesswork!

Ergonomic Handle

ACCU-SOUND® Uterine Sound shown at actual size

The ACCU-SOUND® Uterine Sound is useful for both surgical and non-surgical procedures:

- Dilatation and Curettage
- Tubal patency studies
- Laparoscopic tubal occlusion
- Diagnosis of uterine position (anteflexed, retroflexed, mid-position)
- IUD insertion

Note: It is highly recommended that the practitioner utilize a sound to determine the patient's uterine depth prior to using any uterine manipulator/injector.

NEW

sure@sample® • *Select 1*

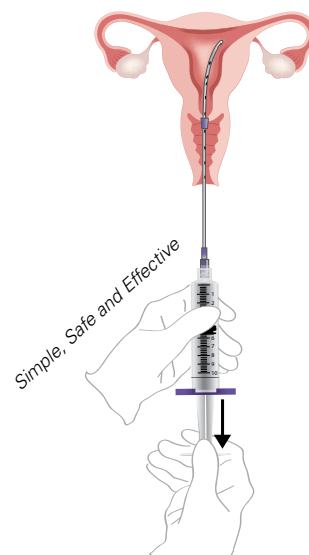

Endometrial Curette

SURESAMPLE® Select1 is a unique design curette for sampling the uterine endometrium. Ideal for obtaining samples from the uterus and mucosal lining by scraping or vacuum suction. Collected samples are for the purpose of biopsy, pre-cancer screening or menstrual extraction.

Specifications

- Randall-Style sharp cutting-edge curette
- Semi flexible curette with a slight curve
- Highly visible 1cm markings on cannula
- Cannula length 8-1/8" (20.5cm)
- White Cannula Stylet insert for additional rigidity
- Depth Marker acts as a visual aid to protect against perforation
- OD 3mm
- 10mL standard syringe with Twist-and-Lock plunger
- Not made with natural rubber latex
- Luer Lock fitting with winged flanges
- Sterile, Single-Use ⓧ

Features

- White Cannula Stylet insert for whenever additional rigidity is needed, useful in stenotic patients
- Depth Marker acts as a visual aid to protect against perforation of the uterine wall
- Twist-and-Lock plunger on syringe makes it easier to dispense collected specimen
- White Syringe Cap allows transportation of sample collected in the syringe

Endometrial Sampler

An easy to use endometrial sampler-for less.
Less time and less money.

SURESAMPLE Endometrial Sampler
is one of the finest endometrial samplers available today!

Here are just a few reasons why:

- The SURESAMPLE Endometrial Sampler's **3-port sampling system** **doubles the harvested samples of other sampler devices**
- The 3-port sampling system allows **easy sample retrieval with reduced cell damage**

sure@sample®

Endometrial Sampler

STERILE EO Single-Use
Not made with natural rubber latex.

Key Features

- **3-Port Sampling System** - one port on each side of the distal end of the shaft and one on the tip end.
- **Grip retraction** creates a strong internal vacuum.
- **Two phase action** between the ports and grip produces a higher yield of tissue sample in an amazingly controlled manner.
- **Formable "memory"** shaft allows you to shape the sampler to meet each patient's physical requirements.
- **Tensile strength and rigidity** allow conformity but also provide enough strength to fit through a smaller canal.
- **Small 3mm shaft diameter**
- **No cutting or splitting of tip** (a tedious process required by other widely used samplers that leads to damaged specimen).
- **Quick retrieval process** - simply push the SURESAMPLE Endometrial Sampler grip back, forcing the specimen out of the open sampler tip.

Better performance than other brands

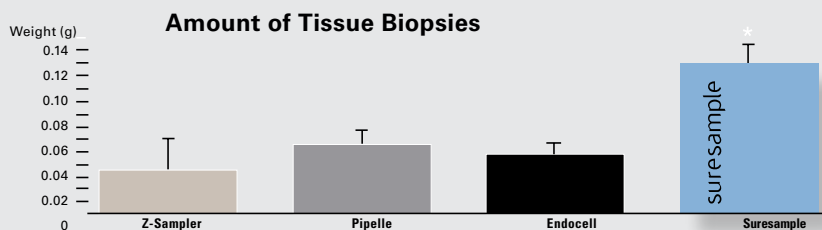

Figure 1. Mean amount of tissue biopsied by each endometrial biopsy device. (*=p,0.0001)

SURESAMPLE Endometrial Sampler retrieves more than TWICE the harvest of its competition!

Galileo® Colposcope Direct-Access™ 530VCDA

Three-Step Magnification with Integrated LED Light and HD Video Camera

Galileo® Colposcope Direct-Access™ 530VCDA features a three-step magnification with integrated LED light and HD video camera for optional connection to a monitor. The offset center feature provides a direct visual and easy access. Combining modern technology with classic aesthetics, the Galileo® Colposcope Direct-Access™ 530VCDA is a piece of art designed to facilitate comprehensive cervical examination, with ease and style.

Features

- Offset Center Post for Direct Access
(Eliminates an obscured view and provides a direct visual and easy access)
- Multi-Coated, Hand-Polished Apochromatic Lens
(Minimizes secondary color and corrects chromatic abrasion)
- Enclosed Power Source
(Hidden in stand base for a clean and clutter free look)
- Enclosed Electrical Cables
(Hidden inside post for a clean and clutter free look)
- LED Illumination System
(More accurate color balance, cool to the touch and long bulb life)
- Three-Step Magnification
- Optical Measurement Rings
- Individual Eye-Shields
- Integrated Green Filter
- HDMI Video Feed

Options

- 360° Tilt Stand Base / 5-Wheel Rolling Stand Base
- Right-Handed / Left-Handed Models
- Additional Extended Warranty

Galileo® Colposcope Direct-Access™ 400DA

Three-Step Magnification with Integrated LED Light

Galileo® Colposcope Direct-Access™ 400DA features a three-step magnification with integrated LED light. The offset center feature provides a direct visual and easy access. Combining modern technology with classic aesthetics, the Galileo® Colposcope Direct-Access™ 400DA is a piece of art designed to facilitate comprehensive cervical examination, with ease and style.

Features

- Offset Center Post for Direct Access
(Eliminates an obscured view and provides a direct visual and easy access)
- Multi-Coated, Hand-Polished Apochromatic Lens
(Minimizes secondary color and corrects chromatic aberration)
- Enclosed Power Source
(Hidden in stand base for a clean and clutter free look)
- Enclosed Electrical Cables
(Hidden inside post for a clean and clutter free look)
- LED Illumination System
(More accurate color balance, cool to the touch and long bulb life)
- Three-Step Magnification
- Optical Measurement Rings
- Individual Eye-Shields
- Integrated Green Filter

Options

- 360° Tilt Stand Base / 5-Wheel Rolling Stand Base
- Right-Handed / Left-Handed Models
- Additional Extended Warranty

Specifications

- Focal Length: ± 300mm
- Magnification: 3.75X, 7.5X, 15X
- Field Of View: 79mm, 39mm, 19mm
- Depth Of Field: 4.5mm, 1.13mm, 0.76mm
- Light Intensity: > 30,000 LUX
- Working Height: 975mm to 1135mm
- Power Supply: 100V to 240V
- Warranty: 1- Parts and Labor (excludes shipping charges)

GYNEX LLETZ ELECTRODES ALL SIZES

Box of 5 ONLY \$59⁹⁵

GYNEX LLETZ Electrodes - STERILE / Single-Use ②

We believe that our LLETZ Electrodes are the best on the market!

Here are just a few reasons why:

- Our molded handles provide security.
- Our loop wires are 0.20 mm thick to help reduce backward drag.
- Our HexLoc™ anti-rotation system at the bottom of the shaft keeps the handle from rotating.
- We package each electrode in a molded blister tray which keeps the tip true to shape and protects it from breakage.

Procedure Blister Trays

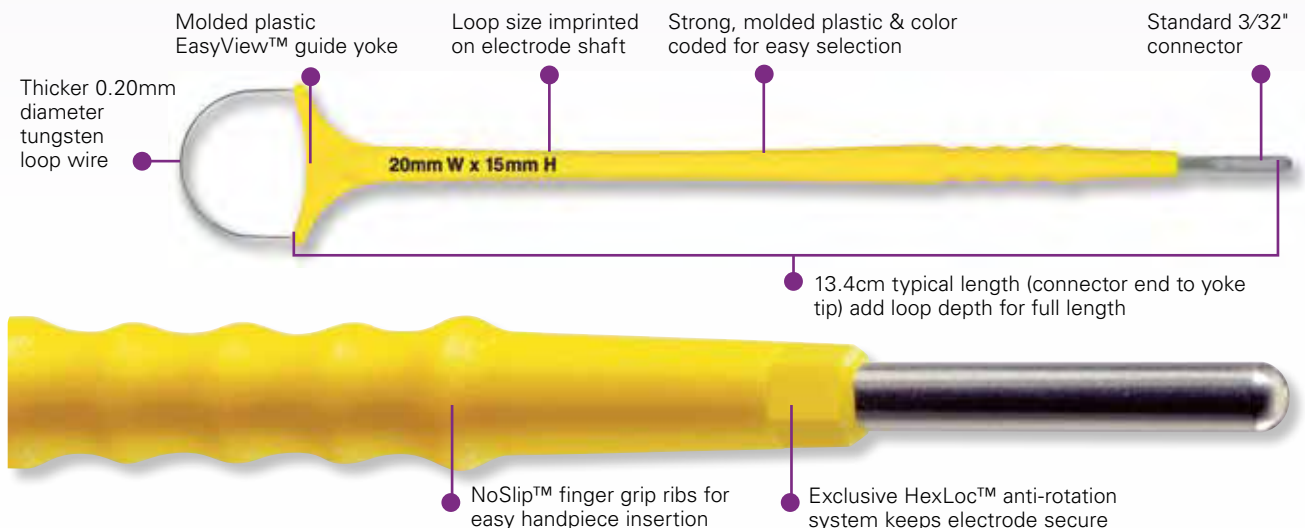

- Keeps tips true to shape
- Every electrode is sterilized
- Easy to open cover
- Procedure ready

STERILE EO Single-Use ②

Not made with natural rubber latex.

STERILIZATION NOTICE

Please read before ordering Gynex LLETZ coated instruments

We find that most autoclaves are default set at **270°**. Gynex LLETZ coating must be autoclaved at **250°**. Please lower autoclave setting to this temperature to avoid damage to the coating. Bubbling can occur at a higher temperature. This also voids the warranty on these coated instruments.

Please use the following instructions:

- Use only distilled water in the autoclave.
- Assure that any towels the instruments are laid out on are free of residual soap, and are essentially pH neutral.
- Autoclave instruments constructed of like materials at the same time. E.g., autoclave only GYNEX LLETZ-Coated instruments together.
- The recommended sterilization cycle is **saturated steam at 250° for 25-30 minutes**. Use of this cycle will produce a Sterility Assurance Level (SAL) of at least 10⁻⁶.
- Do not allow instruments to touch each other during the autoclaving process, and assure that all instruments are **completely dry** when removed from the autoclave.

Sterrad Sterilization Systems, can be used for Gynex LLETZ coated instruments.

Sterrad 100NX system has been established by Advanced Sterilization Products as the testing model for material functionality, representing all Sterrad System models. This can be applied to Sterrad NX, 100S, 50 and 200 systems and will be at least equivalent. Follow the manufacturer's instructions for operation and loading of sterilized items. Coating is compatible with at least 30 sterilization cycles with the 100NX System being the most challenging system on material functionality, although 60 cycles is the average compatibility. After 30 cycles, surface bubbling may be visible, but this will not impact the functionality of the product. If cracking of the coating is observed, do not use the instrument.

4-Way Expander Vaginal Speculum for LLETZ procedures!

The 4-Way Expander Vaginal Speculum is designed for LLETZ procedures with Gynex's autoclavable lavender coating. It provides a superior view with one instrument as compared to a standard speculum and the lateral retractor. The built-in side blades are erected on demand to enhance the view of the cervix as needed.

Features

- Built-in smoke evacuation tube holder
- Built-in lateral retractor blades
- Side blades lock firmly into place
- Pederson size blades
- Autoclavable & Sterilizable

Large

REF 2312 Top Separator: 92mm.....\$62⁹⁵

Greenberg Hysteroscopy Speculum

The Greenberg Hysteroscopy Speculum is a modified traditional open-sided Graves speculum with shorter blades and an open side allowing removal of instruments while they are still in the vagina. This speculum brings the patient’s cervix closer to the provider and reduces the length of unsupported hysteroscope shaft entering the cervical canal.

REF 2801\$51⁹⁵

“The shorter blades bring the external os about 30% closer to the introitus and make access to the cervix dramatically easier in almost every facet of surgical cases in which a speculum is used.”

James Greenberg, MD,
Boston, MA

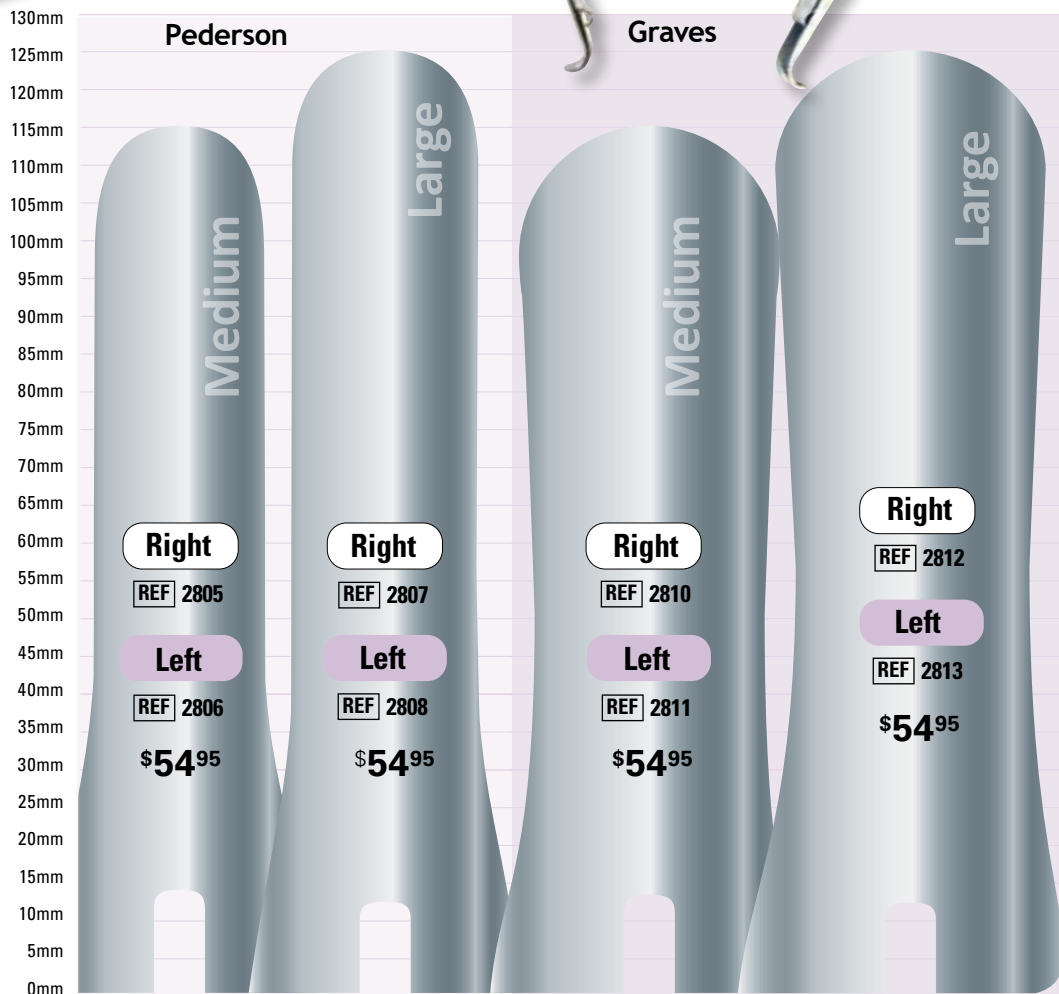

Blade Reference Chart: Shown Actual Size, Scale 1:1

Open-Sided Speculum

Left and Right Opening

Stainless Steel

Note: Blade length is measured from top center of back of blade to end of distal tip. In most cases, the bottom speculum blade will protrude and appear to be longer. Mechanical assembly of a speculum simply places the bottom blade in a more forward position. Although the two blades are normally similar in length, they may vary a few millimeters from lot to lot.

Laminaria Insertion Forceps

Specifically designed for insertion of laminaria.

REF 1600 \$74.95

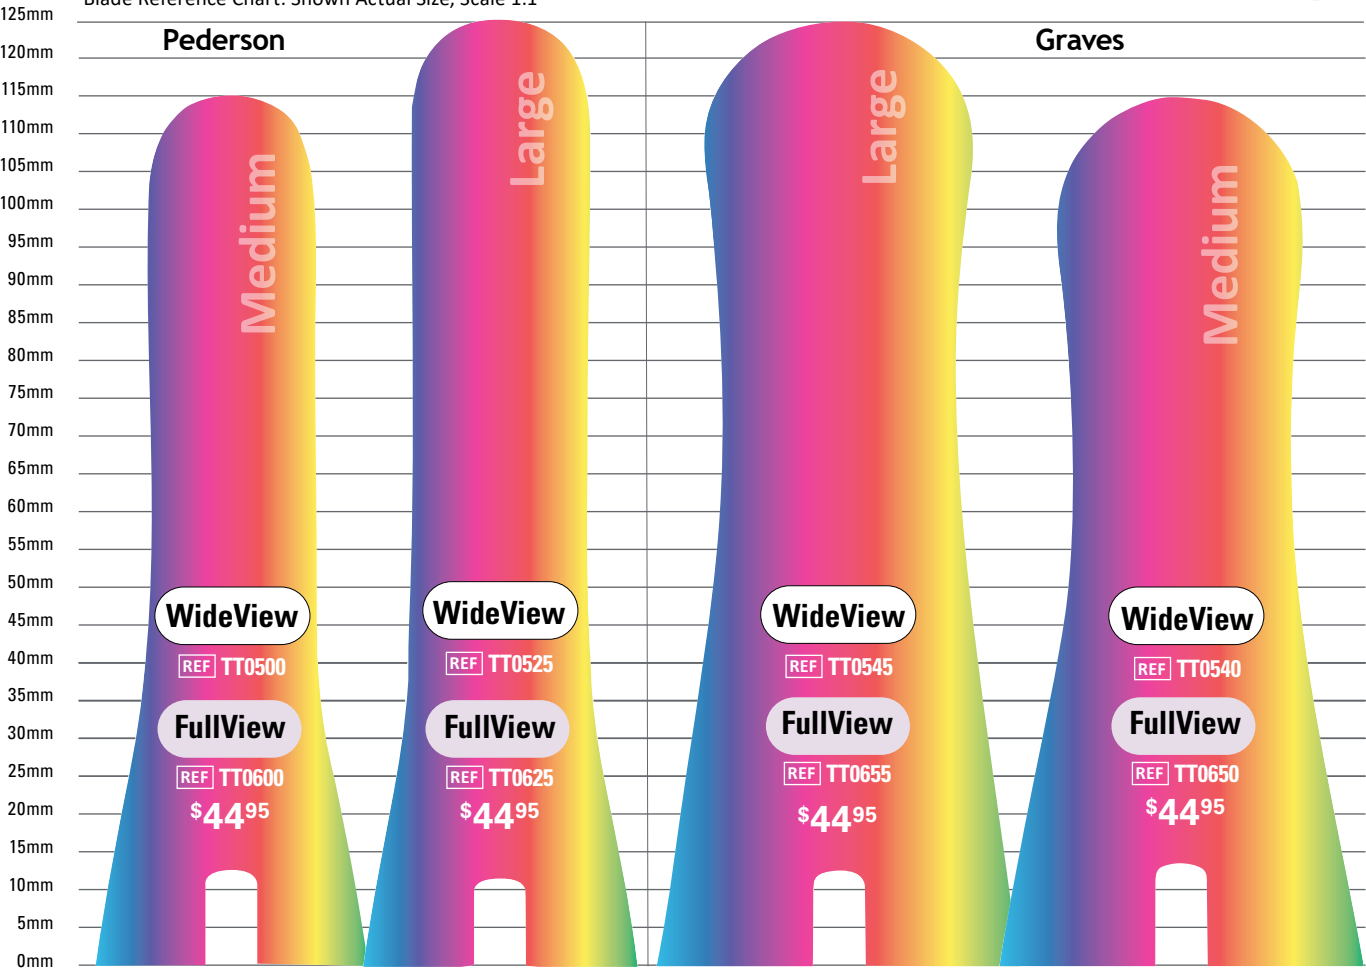

Titanium Rainbow™ Speculum

This exclusive Titanium Rainbow™ TiO coating is harder than ordinary stainless steel. Pederson's and Graves' are available in two viewing widths.

Other brand curette.....	\$50.00

All sharpening and repairs also include rust/stain removal, cleaning, minor polishing and lubrication.

If the instrument that you would like to have sharpened or repaired is not listed here, or you have any questions, please contact us for more information.

Please note that due to metal, age and condition, some instruments may not be repairable or sharpened.

Selling Notice:

All products are limited to purchase by licensed medical practitioners, physician and medical facilities. In most cases, we do not sell to the general public.

Warranty:

All hand-held instruments in this catalog are warranted to be free of defects in manufacturing materials and workmanship for two years from date of purchase. Customers who feel an instrument is defective must return it to GYNEX for evaluation. Products found to be defective will either be repaired or replaced with the same or comparable product, at the discretion of GYNEX Customer Service. Warranty on any hand-held GYNEX instrument is voided if instrument is repaired or sharpened by anyone other than GYNEX. All GYNEX biopsy punches in this catalog will be sharpened free of charge for one year from date of purchase (if enough metal is remaining on tip to allow sharpening). Warranties do not cover general maintenance, cleaning or sharpening needs that result from normal use, except as noted above regarding biopsy punch sharpening. Damages caused by misuse, improper care, cleaning, chemicals, or loss and theft are not covered by this warranty. Shipping charges are not covered for free sharpening warranty nor extended equipment warranty.

Return Policy:

Customer must obtain a Returned Merchandise Authorization (RMA) number from GYNEX customer service at (425) 882-1179. An itemized list of returned products must accompany all returns. Include the Returned Merchandise Authorization (RMA) number and explanation of why the product is being returned. Returned goods MUST be packaged in a shipping container equivalent to that in which it was received. Returned goods MUST be shipped at customer's expense by Parcel Post, Airborne, FedEx or UPS, and must be insured for the purchase price of the contents. Returned goods received by GYNEX in any form less than that described above will be refused by GYNEX and return shipped to the customer.

The following items may be returned:

- Product with RMA number
 - All returns must be made within 30 days of the item receipt (except for warranty).
 - Product with unbroken seals, with labels intact, in original container and packaging
 - Unused instruments which have not been cleaned or sterilized
 - Single-Use[®] product (sterile) in original, unopened package
 - Product damaged in shipment*
 - Product that has at least 12 months remaining shelf life as determined by the expiration date
 - Instruments damaged, broken or not working properly due to defects in material or workmanship
- *Note: Product returned due to error or damage in shipping must be re-reported to customer service within 72 hours of receipt. Damaged product must be accompanied by a written explanation noting damage.*

The following items may not be returned:

- Product without RMA number
- Product that has been improperly handled or stored
- Product that is marked, coded, dated, damaged, soiled or adulterated in any way (except standard cleaning and sterilization procedures for reusable instruments)
- Product damaged by or exposed to heat, fire, smoke, high humidity or water (except standard cleaning and sterilization procedures for reusable instruments)

Restocking Charge:

A 15% restocking charge applies to all returned product, unless the return is due to error in shipment, product damaged in shipment, or product returned for repair or replacement due to defect in material or workmanship.

Disclaimer:

All prices in this catalog are subject to change without notice. All sizes indicated may vary slightly, due to differences between manufacturers. In order to carry sufficient inventory, it is necessary for GYNEX to purchase from different manufacturers. As a result, final

products may not be the exact sizes as shown in charts, drawings or photos. The advertisements and information in this catalog may contain typographical errors or inaccuracies and may not be complete or current. GYNEX therefore reserves the right to correct any errors, inaccuracies, or omissions and change or update information at any time without prior notice. Please note that such errors, inaccuracies, or omissions may relate to pricing or availability. We reserve the right to refuse to honor offers or terms, which contain error or inaccuracies.

5% Discount
on Prepaid or Credit Card Orders
(offer excludes microscopes, colposcopes and/or extended warranties).

WE ACCEPT

Terms: Net 30 Days on open approved accounts. 1.0% finance charge per month shall apply on all past due accounts. International accounts require prepayment. New accounts may require prepayment with first order.

Shipping: FOB North Richland Hills, Texas. Normal shipping via UPS or FedEx Ground, and charges for shipping and handling are added to the order total. Expedited delivery (Next Day, 2nd Day, 3rd Day) available for additional charge.

Note:

Pre-paid shipping charges of \$14.50, do not apply to Alaska, Hawaii, Puerto Rico, the Virgin Islands and other U.S. Islands, and international orders. An additional custom fee may apply for the Virgin Islands and other U.S. Islands, and international orders. A handling fee will apply to orders that use customer's own shipping account.

Partial Shipments: We reserve the right to make partial shipments against orders and the amounts for such partial shipments will become due and payable upon receipt unless otherwise agreed to in writing by GYNEX.

5% Discounts: Customers may deduct an additional 5% off their total order when payment is made at the time of purchase. This is applicable to orders that are mailed in with a check for payment of the entire order and for credit card orders. COD orders do not qualify for this discount. This discount does not apply to Microscopes, Colposcopes and/or extended warranties and some specials were products are already discounted.

Warranties Returns and Disclaimers: All information concerning these GYNEX policies are detailed on page 95 of this catalog.
