

GYNEX[®]

Fall 2021

Your Monsel's Resource

page 2

Trevor says . . .

Gynex Corporation has moved its headquarters to Texas. This relocation was an opportunity to upgrade our facility and better serve our customers. We look forward to quickly processing your orders and improving our transit time.

Our Monsel's Paste is featured on the front cover. It is pre-thickened and packaged into single-procedure vials for your convenience. The thickened formulation makes application of the popular hemostatic agent easy. The paste can be applied directly to the surgical site following excision of tissue.

Gynex president and CEO, Stephen J. Sullivan, has been a trusted provider of women's health care instruments since 1976. In 1978 Steve invented and developed the first Tischler-style biopsy punch, which went on to become the industry standard. Today, we offer a wide variety of styles and lengths which can be found on pages 7-14. If you're not sure which is the right one for you, just give us a call and our team will assist you.

We have been in operation for almost a quarter century, but our vision remains steadfast. Gynex's mission of providing you with quality and value remains unchanged. Whether you are a single office or a large hospital, we continue to make our pricing transparent.

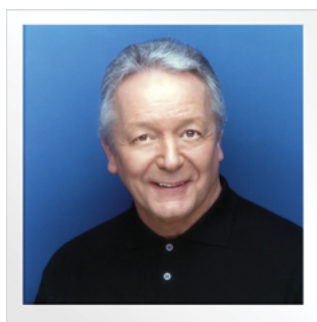

As always, thank you for making Gynex your OBGYN instrument resource.

Thank you,

A handwritten signature in cursive script that reads "Trevor Kurz".

SpecuLume® EZ

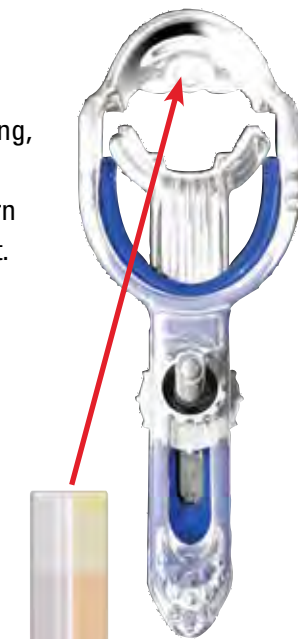

Single-Use ☒ Vaginal Speculum with Illumination Insert

Finally, a single-use vaginal speculum that provides true intravaginal lighting, greater clinician visibility, and increased patient comfort. The functionality of the sturdy, classic metal speculum combined with the benefits of modern designs make it silent to operate, disposable, and affordable to any budget.

Slides up and open just like a Graves speculum!
“No Clicking”

MADE IN THE USA

Illumination Insert

DESIGNED FOR IMPROVED PATIENT AND CLINICIAN INTERACTION

Elevates silently; holds securely; releases easily

IMPROVES CLINICAL PERFORMANCE

Provides diffused illumination positioned where needed most

COST-EFFECTIVE AND ENVIRONMENTALLY FRIENDLY

No batteries or electricity needed; no costly cleaning or sterilization chemicals

EASY-TO-USE, STURDY DESIGN

Operates like traditional metal, Graves speculum; disposable like plastic

With SpecuLume® EZ

- Unique light source generates no heat.
- Light insert ready in a “snap” without requiring electricity or batteries.
- After use, discard the entire product as clinical waste; nothing to disassemble, because there is no battery.
- Single middle bolt design allows for simple operation and securely locks in place.
- Completely recyclable and more environmentally friendly than battery-powered devices.
- Chemiluminescent insert produces optimal distributed lighting for 15 minutes, eliminating harsh illumination.

ILLUMINATED VAGINAL SPECULUM

Single-Use ☒ Vaginal Speculum with Illumination Insert

*“Finally a disposable speculum
that makes sense”*

LARGER OPENING

Large user opening
*Provides greater visual
access, 42mm x 65mm*

SILENT ADJUSTMENT

Single middle bolt silently elevates
and securely locks upper blade
*Eliminates annoying racking noise
for improved patient experience*

CHEMILUMINESCENCE

Light insert can be placed on
either upper or lower blade
*Allows flexibility for optimal
bright illumination*

PINCH GUARDS

“Pinch Guards” block the gap between the proximal
ends of upper and lower blades
Safeguards the patient when the upper blade is lowered

ANGLED HANDLE

Handles are angled away from patient
*Provides more space between
clinician’s hands and patient*

ROTATING BIOPSY PUNCHES

Stainless Steel

ROTO TIP™ Biopsy Punches

ROTO Tip™ rotating biopsy punches offer the added convenience of making a quick change in the biopsy tip size and shape without the expense of having additional complete biopsy punches. With a single handle you can have several tips available. Although the Standard Tip Tischler and the Mini-Tischler are the most popular, this design provide you a cost savings option to add angled tips. These tips easily rotate allowing you to gain better positioning for a biopsy sample.

Features

- Shaft/tip can be rotated up to 360° then locked
- Shaft/tip assembly is interchangeable
- Lower cost alternative to individual biopsy punches

ENDOCERVICAL CURETTES

Spiral Curette

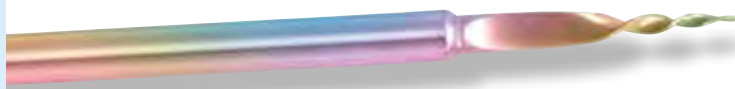

This unique endocervical spiral dual purpose curette was developed by Dr. Gordon M Lickrish, past director of the colposcopy unit at the University Health Network in Toronto.

- Supplies curettage where the endocervical canal is narrow, and a normal curette cannot sample.
- Acts as a cervical dilator allowing cervical or endometrial sampling.

Titanium Cobalt Lickrish Spiral Curette

REF TB3040 21cm Length..... \$79⁹⁵

Titanium Rainbow Lickrish Spiral Curette

REF TC3040 21cm Length..... \$79⁹⁵

Stainless Lickrish Spiral Curette

REF 3040 21cm Length..... \$79⁹⁵

This instrument is found to be most appropriate when there is complete or severe partial cervical stenosis. This allows tissue sampling when a standard curette is too large for insertion. The tip may be gently inserted through the os, advancing and rotating at the same time.

Endocervical Curettes - Six Tip Design

Basket size: 10.5mm x 2mm

Kevorkian Curette with Basket Square Tip

The basket on this curette helps hold the sample during the curettage procedure.

REF 3005 32cm Length..... \$76⁹⁵

Basket size: 11.5mm x 2mm

Kevorkian Curette with Basket Round Tip

The basket on this curette helps hold the sample, and the rounded tip allows easier insertion.

REF 3015 32cm Length..... \$76⁹⁵

Basket size: 12mm x 2mm

Kevorkian Curette no Basket Square Tip

The curette is designed with no basket which allows for easier removal of sample after the curettage procedure.

REF 3010 32cm Length..... \$76⁹⁵

Basket size: 7mm x 1.3mm

Townsend Curette Small Tip

This curette has the benefit of a small pointed tip that allows easier penetration of the os.

REF 3020 32cm Length..... \$76⁹⁵

Dublin Curette Round Tip

This curette provides samples when aggressive scraping is necessary from hard to sample tissue.

REF 3025 30cm Length..... \$76⁹⁵

EndoCurette ECC

This curette is inserted into the canal and rotated to scrap samples from the cervix. Blades on two sides.

Curette Sharpening File

A small tapered diamond-coated sharpening stone, which will help keep your curette sharp.

REF CSF3900 **\$31⁹⁵**

Kevorkian Curette

Kevorkian Curette Single-Use eliminates cross-contamination concerns. The tip is always sharp, and is modeled after the extremely popular Curette with Basket, and Round Tip. The handle is specifically designed to remain firm under pressure, providing better maneuverability, and is angled to provide better leverage during curettage.

STERILE **EO** **Single-Use**

BUILD YOUR OWN COLPOSCOPY SET

SET OF 5 INSTRUMENTS

for **ONLY \$675⁰⁰**

Each **GYNEX Colposcopy Set** consists of five (5) instruments essential for colposcopy procedures

To order, choose one item from each section:

- Biopsy Punch
- Endocervical Speculum
- Vaginal Speculum
- Endocervical Curette
- Tissue Hook

Priced at \$675, the GYNEX Five Instrument Colposcopy Set saves you a bundle!

Since all GYNEX instruments are already priced lower than comparable instruments available at industry standard prices, you save substantially with a **GYNEX Colposcopy Set**.

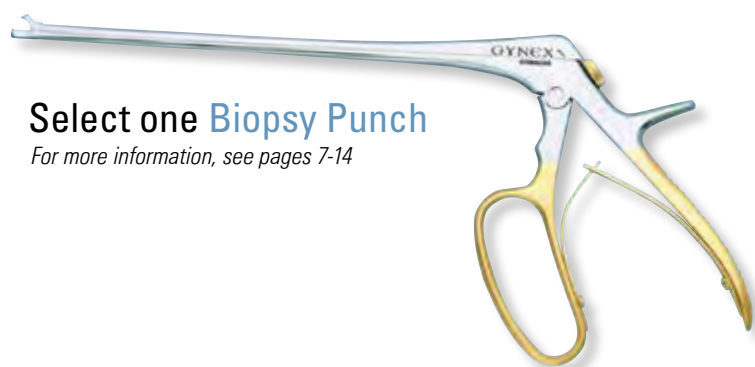

GYNEX[®] Colposcopy Set

Note: All sets **MUST** consist of one item from each of the five lists of instruments shown. No substitutions allowed.
This discount cannot be combined with any other discount offers such as 5% prepaid discounts, etc...

IUD SPECIALTY SECTION

see the following pages 26-29

Serpentine Grasper IUD Remover

The Serpentine Grasper has a flexible shaft that can be shaped into the most convenient, comfortable and advantageous position for entering the uterine cavity. The shaft can be bent greater than 360° without the loss of function, it will remain in any desired angle until reshaped as needed. The small tip allows easy entry into the endocervical canal while the grasping teeth provide a secure grip, especially useful for grasping IUD's.

Features

- Flexible shaft offers over 360° of mobility
- Shaft holds desired position until reshaped
- Small tip provides easy access
- High quality Stainless steel
- Tip in closed position 4.5mm

Length: 20cm

REF 29-010

\$295⁰⁰

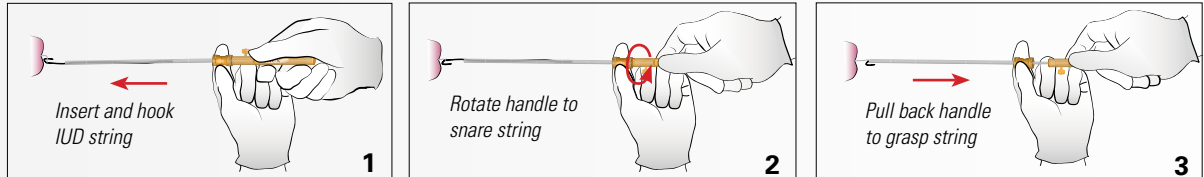

GYNEX is your key source for all your IUD instruments

ASCONA™ IUD String Snare

Allows gentle removal of IUD

The rotating handle provides a way to snag the string in the hook tip. Pulling back on the handle secures the string at the tip. Once secured, the Ascona™ allows the user to gently pull out and remove the IUD. The Ascona™ is easily disassembled for cleaning and sterilization. The locking tab can be loosened to remove the hook and flexible shaft.

Dilating Tip

ACCU-SOUND® Uterine Sound

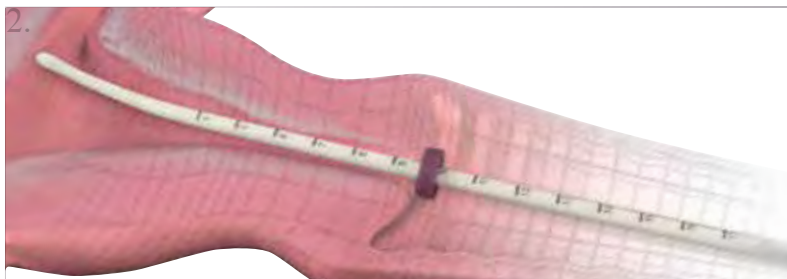

There's no reason to rely on guesswork when you measure with a sound. The simple yet ingenious design of the ACCU-SOUND® Uterine Sound eliminates the guesswork involved with a standard uterine sound. When the ACCU-SOUND® Uterine Sound is inserted into the uterus, a ring comes to rest against the outside of the Os. The ring stays in place on the ACCU-SOUND® when the device is withdrawn from the uterus and vagina, clearly indicating the uterine measurement. There has never been a uterine sound more accurate and easy to use.

An accurate measurement as easy as 1,2,3 !

1.

Gently insert ACCU-SOUND® uterine sound's dilating tip into the cervical Os.

2.

Gently advance the ACCU-SOUND® Uterine Sound until the back of the uterus is felt.

ACCU-SOUND® Uterine Sound ring will rest against the outside of the cervical Os.

3.

Withdraw ACCU-SOUND® Uterine Sound from the uterus and vagina. The ring will remain in place on the uterine sound indicating the uterus measurement.

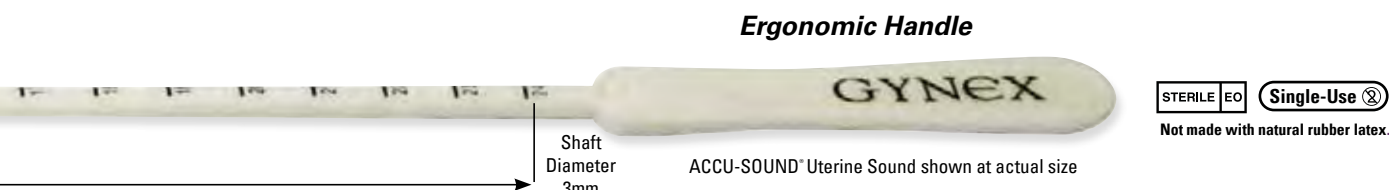

An accurate measurement is indicated by the location of the ring on the ACCU-SOUND® Uterine Sound

NO MORE GUESSWORK!

Same Day Shipping for All In-Stock Orders Received by 2PM CDT

www.gynex.com • 1.888.486.4644

ACCU-SOUND® Uterine Sound is useful for surgical and non-surgical procedures:

- Diagnosis of uterine position (anteflexed, retroflexed, mid-position)
- Laparoscopic tubal occlusion
- Dilatation and Curettage
- Tubal patency studies
- IUD insertion

Note: It is highly recommended that the practitioner utilize a sound to determine the patient's uterine depth prior to using any uterine manipulator/injector.

sure@sample® • Select 1

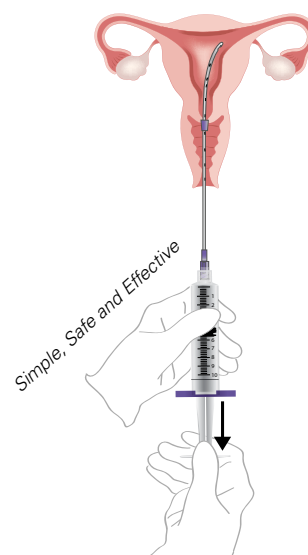

Endometrial Curette

SURESAMPLE® Select1 is a unique design curette for sampling the uterine endometrium. Ideal for obtaining samples from the uterus and mucosal lining by scraping or vacuum suction. Collected samples are for the purpose of biopsy, pre-cancer screening or menstrual extraction.

Specifications

- Randall-Style sharp cutting-edge curette
- Semi flexible curette with a slight curve
- Highly visible 1cm markings on cannula
- **Cannula length:** 8-1/8" (20.5cm)
- White Cannula Stylet insert for additional rigidity
- Depth Marker acts as a visual aid to protect against perforation
- OD 3mm
- 10mL standard syringe with Twist-and-Lock plunger
- Not made with natural rubber latex
- Luer Lock fitting with winged flanges
- STERILE, Single-Use

Features

- White Cannula Stylet insert for whenever additional rigidity is needed, useful in stenotic patients
- Depth Marker acts as a visual aid to protect against perforation of the uterine wall
- Twist-and-Lock plunger on syringe makes it easier to dispense collected specimen
- White Syringe Cap allows transportation of sample collected in the syringe

sure@sample®

Endometrial Sampler

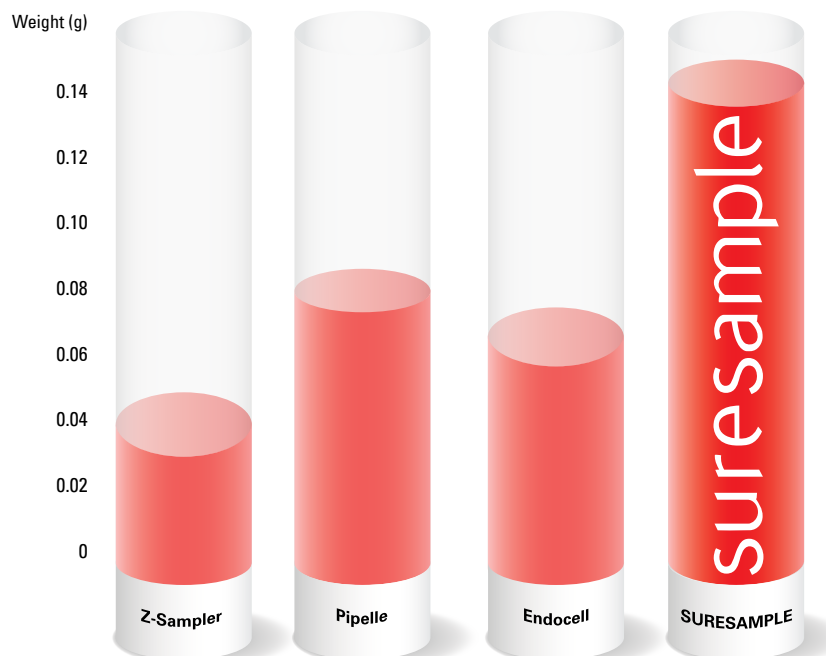

SURESAMPLE Endometrial Sampler *is one of the finest endometrial samplers available today!*

Here are just a few reasons why:

- The SURESAMPLE Endometrial Sampler's **3-port sampling system doubles the harvested samples of other sampler devices**
- The 3-port sampling system allows **easy sample retrieval with reduced cell damage**

BETTER PERFORMANCE THAN OTHER BRANDS

SURESAMPLE Endometrial Sampler retrieves more than TWICE the harvest of its competition!

sure@sample®

Endometrial Sampler

STERILE EO Single-Use ®
Not made with natural rubber latex.

Features and Benefits

- **3-Port Sampling System** - one port on each side of the distal end of the shaft and one on the tip end.
- **Grip retraction** creates a strong internal vacuum.
- **Two phase action** between the ports and grip produces a higher yield of tissue sample in an amazingly controlled manner.
- **Formable "memory"** shaft allows you to shape the sampler to meet each patient's physical requirements.
- **Tensile strength and rigidity** allow conformity but also provide enough strength to fit through a smaller canal.
- **No cutting or splitting of tip** (a tedious process required by other widely used samplers that leads to damaged specimen).
- **Quick retrieval process** - simply push the SURESAMPLE Endometrial Sampler grip back, forcing the specimen out of the open sampler tip and sides.

Specifications

- STERILE, Single-Use
- 3mm shaft diameter
- 24cm shaft length
- Not made with natural rubber latex

Galileo® Colposcope Direct-Access™ 400DA

Three-Step Magnification with Integrated LED Light

Galileo® Colposcope Direct-Access™ 400DA features a three-step magnification with integrated LED light. The offset center feature provides a direct visual and easy access. Combining modern technology with classic aesthetics, the Galileo® Colposcope Direct-Access™ 400DA is a piece of art designed to facilitate comprehensive cervical examination, with ease and style.

Features

- Offset Center Post for Direct Access
(Eliminates an obscured view and provides a direct visual and easy access)
- Multi-Coated, Hand-Polished Apochromatic Lens
(Minimizes secondary color and corrects chromatic abrasion)
- Enclosed Power Source
(Hidden in stand base for a clean and clutter free look)
- Enclosed Electrical Cables
(Hidden inside post for a clean and clutter free look)
- LED Illumination System
(More accurate color balance, cool to the touch and long bulb life)
- Three-Step Magnification
- Optical Measurement Rings
- Individual Eye-Shields
- Integrated Green Filter

Options

- 360° Tilt Stand Base / 5-Wheel Rolling Stand Base
- Right-Handed / Left-Handed Models
- Additional Extended Warranty

Specifications

- Focal Length: ± 300mm
- Magnification: 3.75X, 7.5X, 15X
- Field Of View: 79mm, 39mm, 19mm
- Depth Of Field: 4.5mm, 1.13mm, 0.76mm
- Light Intensity: > 30,000 LUX
- Working Height: 975mm to 1135mm
- Power Supply: 100V to 240V
- Warranty: 1- Parts and Labor (excludes shipping charges)

CO4100 Colposcope

Three-Step Magnification, 45° Angle with Integrated LED Light

CO4100 Colposcope features a three-step magnification, 45° angle with integrated LED light. The 45° angle lenses feature allow inclined viewing for a natural sitting position, reducing the need to bend over. CO4100 Colposcope is a high quality colposcope that offers excellent optics designed to facilitate comprehensive cervical examination, with ease and style.

Features

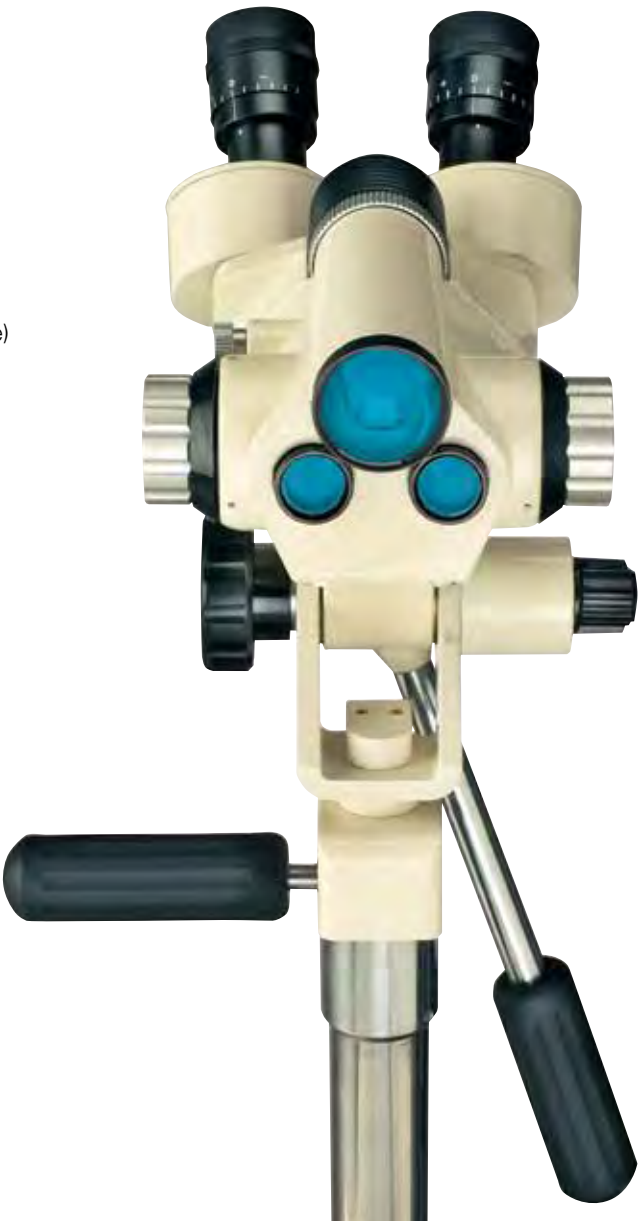

- Multi-Coated, Hand-Polished Apochromatic Lens
(Minimizes secondary color and corrects chromatic abrasion)

GYNEX LLETZ Electrodes - STERILE / Single-Use ②

We believe that our LLETZ Electrodes are the best on the market!

Here are just a few reasons why:

- Our molded handles provide security.
- Our loop wires are 0.20 mm thick to help reduce backward drag.
- Our HexLoc™ anti-rotation system at the bottom of the shaft keeps the handle from rotating.
- We package each electrode in a molded blister tray which keeps the tip true to shape and protects it from breakage.

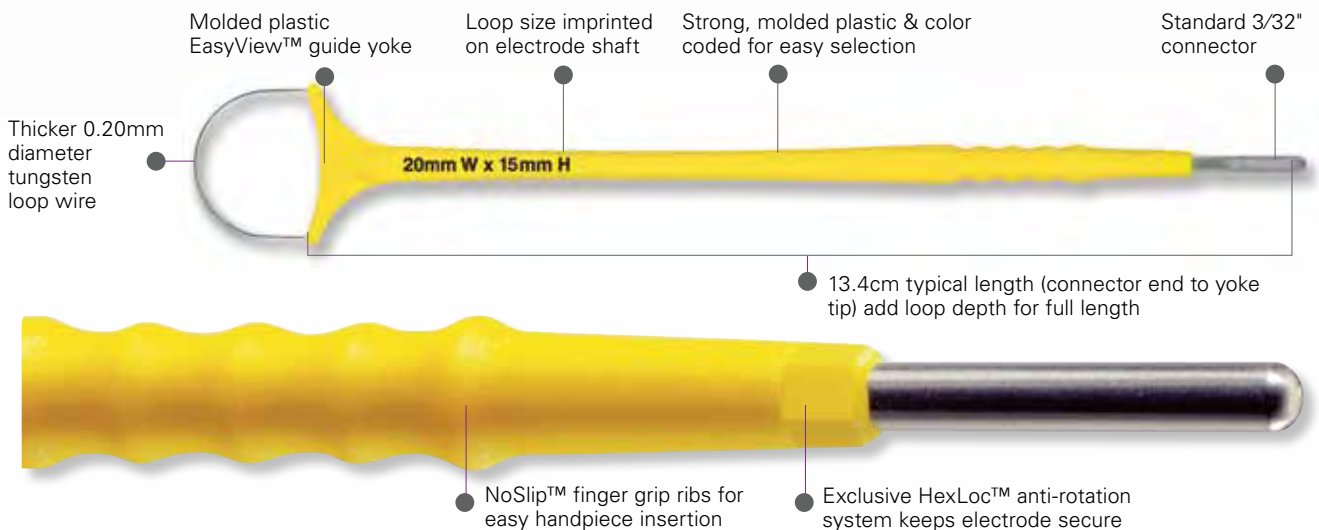

Procedure Blister Trays

- Keeps tips true to shape
- Every electrode is sterilized
- Easy to open cover
- Procedure ready

STERILE EO Single-Use ②
Not made with natural rubber latex.

STERILIZATION NOTICE

Please read before ordering Gynex LLETZ coated instruments

We find that most autoclaves are default set at **270°**. Gynex LLETZ coating must be autoclaved at **250°**. Please lower autoclave setting to this temperature to avoid damage to the coating. Bubbling can occur at a higher temperature. This also voids the warranty on these coated instruments.

Please use the following instructions:

- Use only distilled water in the autoclave.
- Assure that any towels the instruments are laid out on are free of residual soap, and are essentially pH neutral.
- Autoclave instruments constructed of like materials at the same time. E.g., autoclave only GYNEX LLETZ-Coated instruments together.
- The recommended sterilization cycle is **saturated steam at 250° for 25–30 minutes**. Use of this cycle will produce a Sterility Assurance Level (SAL) of at least 10^{-6} .
- Do not allow instruments to touch each other during the autoclaving process, and assure that all instruments are **completely dry** when removed from the autoclave.

Sterrad Sterilization Systems, can be used for Gynex LLETZ coated instruments.

Sterrad 100NX system has been established by Advanced Sterilization Products as the testing model for material functionality, representing all Sterrad System models. This can be applied to Sterrad NX, 100S, 50 and 200 systems and will be at least equivalent. Follow the manufacturer's instructions for operation and loading of sterilized items. Coating is compatible with at least 30 sterilization cycles with the 100NX System being the most challenging system on material functionality, although 60 cycles is the average compatibility. After 30 cycles, surface bubbling may be visible, but this will not impact the functionality of the product. If cracking of the coating is observed, do not use the instrument.

4-Way Expander Vaginal Speculum for LLETZ procedures!

The 4-Way Expander Vaginal Speculum is designed for LLETZ procedures with Gynex's autoclavable lavender coating. It provides a superior view with one instrument as compared to a standard speculum and the lateral retractor. The built-in side blades are erected on demand to enhance the view of the cervix as needed.

Features

- Built-in smoke evacuation tube holder
- Built-in lateral retractor blades
- Side blades lock firmly into place
- Pederson size blades
- Autoclavable & Sterilizable

Large

REF 2312 Top Separator: 92mm.....\$62⁹⁵

Greenberg Hysteroscopy Speculum

The Greenberg Hysteroscopy Speculum is a modified traditional open-sided Graves speculum with shorter blades and an open side allowing removal of instruments while they are still in the vagina. This speculum brings the patient's cervix closer to the provider and reduces the length of unsupported hysteroscope shaft entering the cervical canal.

REF 2801\$51⁹⁵

“The shorter blades bring the external os about 30% closer to the introitus and make access to the cervix dramatically easier in almost every facet of surgical cases in which a speculum is used.”

James Greenberg, MD,
Boston, MA

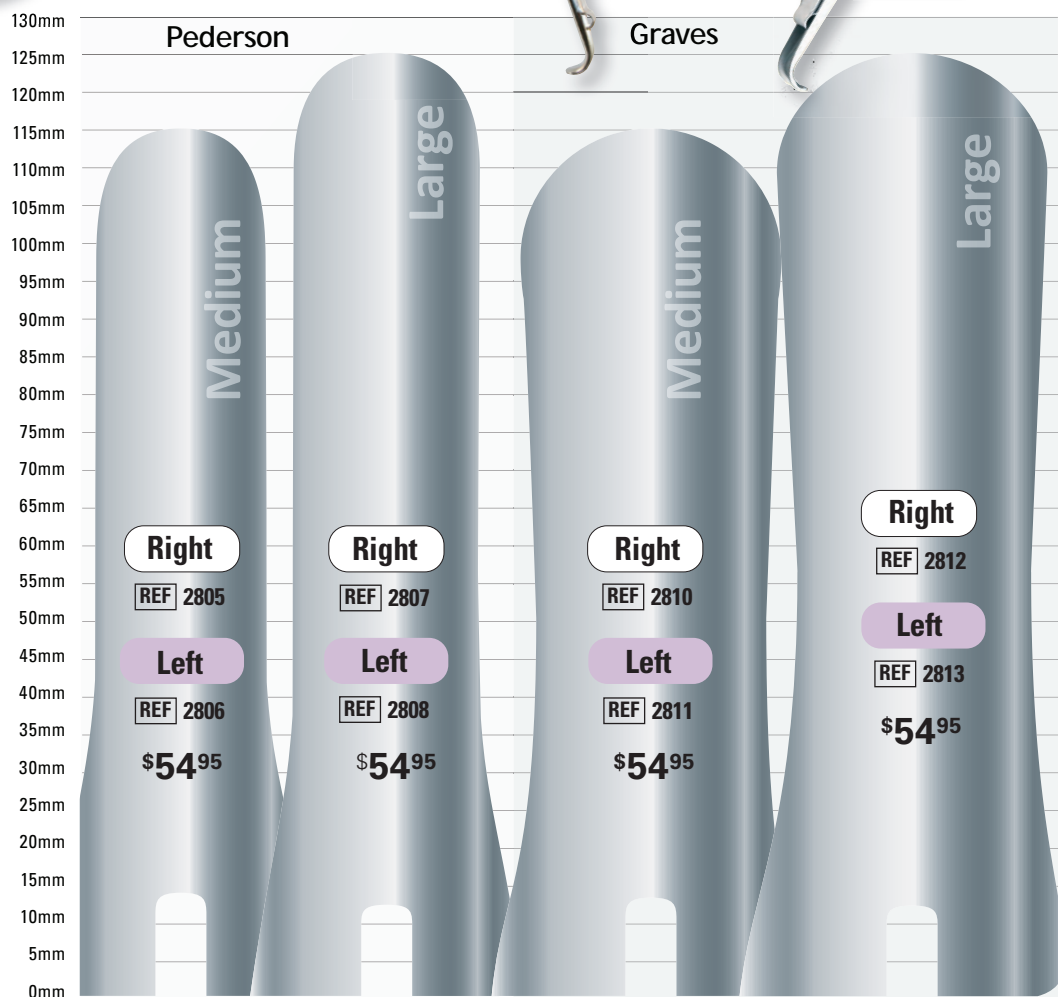

Blade Reference Chart: Shown Actual Size, Scale 1:1

Open-Sided Speculum

Left and Right Opening

Stainless Steel

Note: Blade length is measured from top center of back of blade to end of distal tip. In most cases, the bottom speculum blade will protrude and appear to be longer. Mechanical assembly of a speculum simply places the bottom blade in a more forward position. Although the two blades are normally similar in length, they may vary a few millimeters from lot to lot.

Laminaria Insertion Forceps

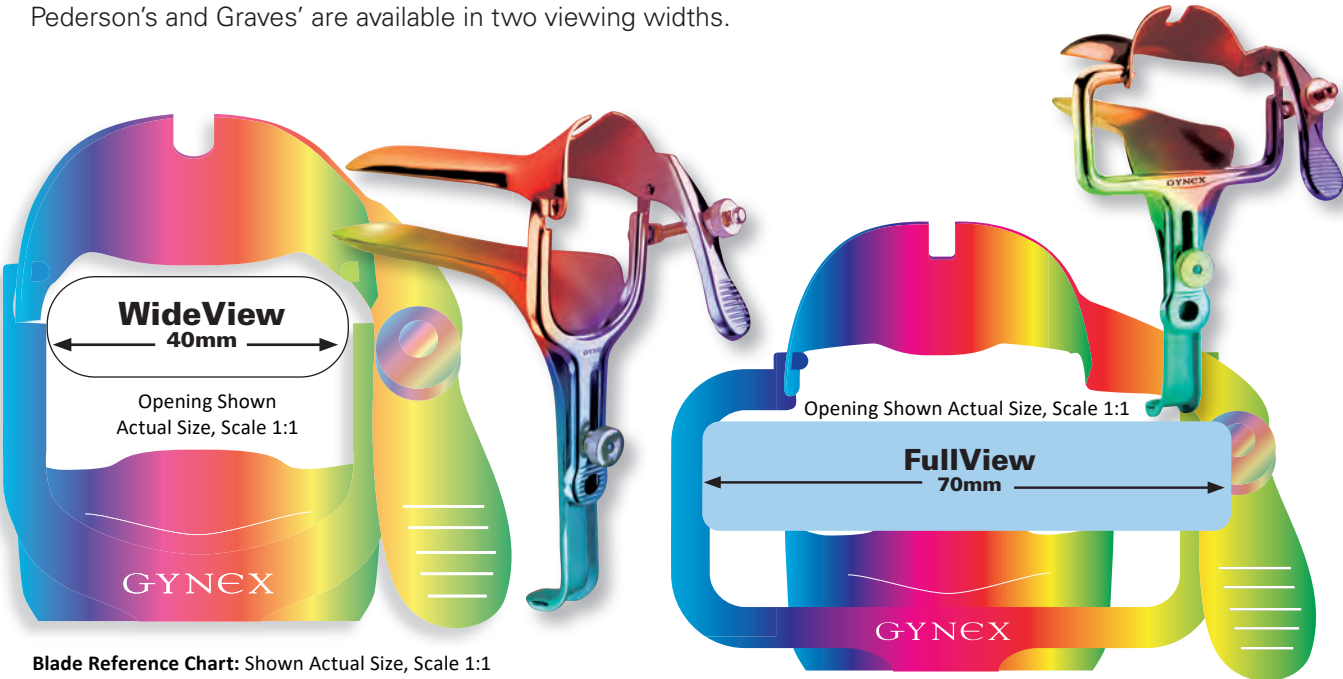

Specifically designed for insertion of laminaria.

REF 1600 \$74⁹⁵

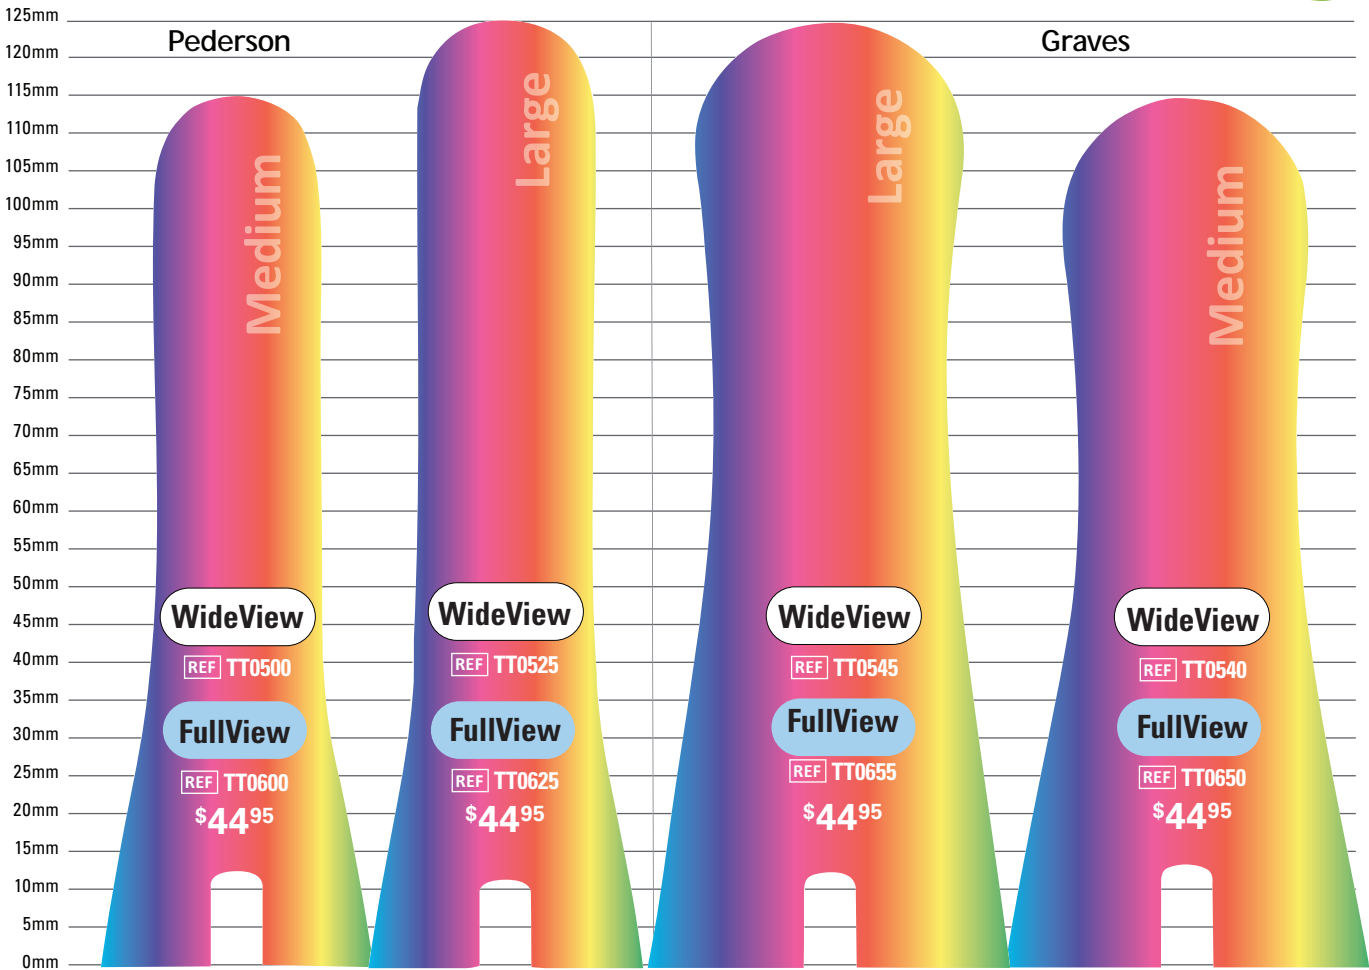

Titanium Rainbow™ Speculum

This exclusive Titanium Rainbow™ TiO coating is harder than ordinary stainless steel. Pederson's and Graves' are available in two viewing widths.

Blade Reference Chart: Shown Actual Size, Scale 1:1

5% Discount on Prepaid or Credit Card Orders (offer excludes microscopes, colposcopes and/or extended warranties).

Vaginal pH Test

pHEM-ALERT®

STERILE EO Single-Use ®
Not made with natural rubber latex.

The Original Vaginal pH Test
Designed for Accurate & Comprehensive Results!

The pHEM-ALERT® test measures vaginal pH, and is intended for use by women who have any of the following vaginal symptoms: Itching, Burning, Unpleasant Odor, Unusual Discharge

This test may help decide if these symptoms are caused by an infection that may require follow-up by your healthcare provider. This test is only intended for women who have normal menstrual periods (periodic vaginal bleeding) or who may currently be pregnant.

- Each test securely packed in a procedure blister tray
- Convenient, unique, patented applicator “key” with attached pH paper
- Easy to read pH chart included with every test set
- CPT codes: 83986 and 83986QW

INSTRUMENTS CARE AND CLEANING

GYNEX® Hot Beads

Sterilization Beads

GYNEX Hot Beads provide a safe, effective and convenient method for sterilizing your surgical instruments. Without using potentially dangerous gases, flames or chemicals, you can ensure that your instruments will be free of pathogens and microbial contaminants. Simply plunge metal instruments into hot glass beads for instant sterilization. These specially cast “no-lead” glass beads transmit heat properly and do not break down at the high temperatures used in glass bead sterilizers. GYNEX Hot Beads come in simple pre-measured containers.

REF 7112	12-Pack (1-year supply)	\$240 ⁹⁵

Stain-Ex™

Biological & Chemical Stain Remover

Stain-Ex™ is a fast and effective biological and chemical stain remover that removes Iodine-based stains, Lugol's stain and most medical and histological stains from hands, glassware, stainless steel, plastic, counters, floors, lab coats, laboratory equipment and hospital linen.

Works great on all your LLETZ-coated instruments!

It is easy to apply—simply apply Stain-Ex™ and the stain is removed in a matter of seconds.

REF SS10	1 Gallon	\$85 ⁹⁵

Touch-Guard® Low Suds

Liquid Instrument Detergent Concentrate

Touch-Guard® Low Suds Liquid Instrument Detergent Concentrate is used for effectively and safely cleaning all surgical instruments, plastic, glassware, and rubber tubing. Formulated for use on automatic washers, ultrasonics, washer-sterilizers, and manual cleaning.

- Neutral pH detergent with powerful sequestering and emulsifying agents
- Fast wetting, odorless, non-sudsing, maintains high detergency
- Removes protein, blood, tissue, fat and any organic soils
- No residue - no pyrogens; leaves a surgically clean surface
- Exceptional cleaning in hard, soft, cold or hot water
- Biodegradable; contains no phosphates or NTA
- Free rinsing, non-enzymatic formulation
- Safe for ophthalmic cleaning

INSTRUMENT

Repair and Sharpening

Gynex® allows you to extend the life of your instruments, deliver optimal performance and better manage your surgical asset investment to improve financial savings. All sharpening and repairs also include rust/stain removal, cleaning, minor polishing and lubrication.

Gynex® sharpens and repairs most medical instruments. If the instrument that you would like to have sharpened or repaired is not listed here, or you have any questions, please contact us for more information.

Toll Free: (888) 486-4644
(8:00AM–4:30PM CDT)

Pricing is as follows:

Gynex brand biopsy punch	\$65 ⁰⁰
Other brands biopsy punch	\$75 ⁰⁰
Gynex brand curette	\$40 ⁰⁰
Other brand curette	\$50 ⁰⁰

Please note that due to metal, age and condition, some instruments may not be repairable or sharpened.

Selling Notice:

All products are limited to purchase by licensed medical practitioners, physician and medical facilities. In most cases, we do not sell to the general public.

Warranty:

All hand-held instruments in this catalog are warranted to be free of defects in manufacturing materials and workmanship for two years from date of purchase. Customers who feel an instrument is defective must return it to GYNEX for evaluation. Products found to be defective will either be repaired or replaced with the same or comparable product, at the discretion of GYNEX Customer Service. Warranty on any hand-held GYNEX instrument is voided if instrument is repaired or sharpened by anyone other than GYNEX. All GYNEX biopsy punches in this catalog will be sharpened free of charge for one year from date of purchase (if enough metal is remaining on tip to allow sharpening). Warranties do not cover general maintenance, cleaning or sharpening needs that result from normal use, except as noted above regarding biopsy punch sharpening. Damages caused by misuse, improper care, cleaning, chemicals, or loss and theft are not covered by this warranty. Shipping charges are not covered for free sharpening warranty nor extended equipment warranty.

Return Policy:

Customer must obtain a Returned Merchandise Authorization (RMA) number from GYNEX customer service at (425) 882-1179. An itemized list of returned products must accompany all returns. Include the Returned Merchandise Authorization (RMA) number and explanation of why the product is being returned. Returned goods MUST be packaged in a shipping container equivalent to that in which it was received. Returned goods MUST be shipped at customer's expense by Parcel Post, Airborne, FedEx or UPS, and must be insured for the purchase price of the contents. Returned goods received by GYNEX in any form less than that described above will be refused by GYNEX and return shipped to the customer.

The following items may be returned:

- Product with RMA number
- All returns must be made within 30 days of the item receipt (except for warranty).
- Product with unbroken seals, with labels intact, in original container and packaging
- Unused instruments which have not been cleaned or sterilized
- Single-Use[®] product (sterile) in original, unopened package
- Product damaged in shipment*
- Product that has at least 12 months remaining shelf life as determined by the expiration date
- Instruments damaged, broken or not working properly due to defects in material or workmanship

**Note: Product returned due to error or damage in shipping must be reported to customer service within 72 hours of receipt. Damaged product must be accompanied by a written explanation noting damage.*

The following items may not be returned:

- Product without RMA number
- Product that has been improperly handled or stored
- Product that is marked, coded, dated, damaged, soiled or adulterated in any way (except standard cleaning and sterilization procedures for reusable instruments)
- Product damaged by or exposed to heat, fire, smoke, high humidity or water (except standard cleaning and sterilization procedures for reusable instruments)

Restocking Charge:

A 15% restocking charge applies to all returned product, unless the return is due to error in shipment, product damaged in shipment, or product returned for repair or replacement due to defect in material or workmanship.

Disclaimer:

All prices in this catalog are subject to change without notice. All sizes indicated may vary slightly, due to differences between manufacturers. In order to carry sufficient inventory, it is necessary for GYNEX to purchase from different manufacturers. As a result, final

products may not be the exact sizes as shown in charts, drawings or photos. The advertisements and information in this catalog may contain typographical errors or inaccuracies and may not be complete or current. GYNEX therefore reserves the right to correct any errors, inaccuracies, or omissions and change or update information at any time without prior notice. Please note that such errors, inaccuracies, or omissions may relate to pricing or availability. We reserve the right to refuse to honor offers or terms, which contain error or inaccuracies.

Force Majeure:

Neither party shall be liable for any failure or delay in delivery of goods, or in otherwise fulfilling its obligations with respect to the sale of goods to the other which results from any cause beyond its reasonable control, including disruption or delays in a common carrier's transportation schedule, compliance with any regulations, orders, acts, instructions, or priority requests of any national, state or municipal government, or any department or agency thereof, or any civil or military authority, or from acts of God, fires, or other casualty of accidents, strikes, lockouts, factory shutdowns, embargoes, riots, or other disorders, delays or shortages in transportation, or inability to obtain in sufficient quantity fuel, power, labor, manufacturing facilities or materials or other supplies from the usual sources of GYNEX. Notwithstanding the foregoing, in the event a party is unable to perform as a result of such force majeure event for a period exceeding sixty (60) days, the other party may, at its option, terminate its purchase order or commitment to sell the goods and neither party shall have any further liability hereunder other than for past services rendered and goods sold.

5% Discount
on Prepaid or Credit Card Orders
(offer excludes microscopes, colposcopes and/or extended warranties).

Terms: Net 30 Days on open approved accounts. 1.0% finance charge per month shall apply on all past due accounts. International accounts require prepayment. New accounts may require prepayment with first order.

Shipping: FOB North Richland Hills, Texas. Normal shipping via UPS or FedEx Ground, and charges for shipping and handling are added to the order total. Expedited delivery (Next Day, 2nd Day, 3rd Day) available for additional charge.

Note:

Pre-paid shipping charges of \$14.50, do not apply to Alaska, Hawaii, Puerto Rico, the Virgin Islands and other U.S. Islands, and international orders. An additional custom fee may apply for the Virgin Islands and other U.S. Islands, and international orders. A handling fee will apply to orders that use customer's own shipping account.

Partial Shipments: We reserve the right to make partial shipments against orders and the amounts for such partial shipments will become due and payable upon receipt unless otherwise agreed to in writing by GYNEX.

5% Discounts: Customers may deduct an additional 5% off their total order when payment is made at the time of purchase. This is applicable to orders that are mailed in with a check for payment of the entire order and for credit card orders. COD orders do not qualify for this discount. This discount does not apply to Microscopes, Colposcopes and/or extended warranties and some specials were products are already discounted.

Warranties Returns and Disclaimers: All information concerning these GYNEX policies are detailed on page 94 of this catalog.
