3-Ports for maximum yield

Derek says . . .

We at Gynex are happy to introduce the Fall 2022 edition of the Gynex product catalog. Gynex has constantly been moving women's healthcare forward with the goal of bringing new, innovative products to market with both the patient and provider in mind. Two excellent examples can be found on the cover of this catalog, which showcases the SureSample® family of endometrial samplers. The SureSample® "pipette style" endometrial sampler features the original 3-port sampling system that doubles the specimen harvest of competing products. The formable memory shaft allows you to shape the sampler to meet each patient's physical requirement.

The SureSample® Select1 is a unique sampling device that offers the provider two simple, safe, and effective methods of harvesting samples. A Randall-style sharp edge facilitates scraping. The twist and lock, 10mL syringe, ensures a constant vacuum. Your patients deserve the highest quality of care, and we at Gynex are confident that the exceptional SureSample® family will be your new go-to endometrial samplers. For more information on the SureSample® family of endometrial samplers, see pages 42–45.

As many have noticed, recent events have resulted in shipping delays and supply shortages in every industry. Our team here at Gynex has been working diligently over this year to eliminate extended wait times for products. Over the past year, Gynex has been able to build long-term supplies for many of our most popular products, which will lead to significantly reduced wait times for our customers moving forward.

Thank you all so much for your continued support and trust in Gynex to provide you with the highest quality instruments and products to best support your practice. If you have any questions, thoughts, or suggestions, please let us know how we can support you.

Thank you,

A handwritten signature in cursive script that reads "Derek Mancini".

Derek Mancini, MBA
Vice President of Sales, GYNEX® Corporation

pHEM-ALERT®

VAGINAL pH TEST

NON-STERILE Single-Use
Not made with natural rubber latex

pHEM-ALERT® test measures vaginal pH, and is intended for use by women who have any of the following vaginal symptoms:

Itching, Burning, Unpleasant Odor, Unusual Discharge

KEY ADVANTAGES

- Each test securely packed in a procedure blister tray
- Convenient, unique, patented applicator “key” with attached pH paper
- Easy to read pH chart included with every test set

REF pH-99 Box of 12\$67⁹⁵

*The Original Vaginal pH Test Designed for
Accurate & Comprehensive Results!*

pH 4.5

- Normal pH
- Predominant lactobacilli
- Possible yeast overgrowth
- Normal serum estradiol

pH 5.0

- Low grade bacterial vaginitis
- Borderline serum estradiol

pH 5.5

- Bacterial vaginitis
- Low serum estradiol

pH 6.0

- Bacterial vaginitis
- Low serum estradiol

pH 6.5

- Bacterial vaginitis
- Very low serum estradiol

pH 7.0

- Low to no serum estradiol

pH 7.5

- Low to no serum estradiol

with **Galileo®**

Galileo® Colposcopes

Direct-Access™

Combining modern technology with classic aesthetics, the Galileo® Direct-Access™ Colposcopes are designed to facilitate comprehensive cervical examination, with ease and style. The offset center feature provides a direct visual and easy access. Superb German optics, LED light source, and integrated electrical cables are just a few of the features that make Galileo® Colposcopes truly outstanding.

For more details and options see our **Colposcope Section** on **pages 46-59**

Monsel's

FERRIC SUBSULFATE PASTE 20-22%

Helps control bleeding during biopsy, LLETZ and laser procedures.

Monsel's is a pre-thickened formulation of the popular hemostatic agent, apply directly to the surgical site following excision of tissue.

- Box of 12 Individual - 8ml vials
- 12 rayon-tipped applicator swabs
- Single-Patient-Use ⓘ

Vickers Hardness Test - HV/0.05 meaning a 50g load was used.

Rotating Biopsy Punches

ROTO Tip™ rotating biopsy punches offers the added convenience of changing the biopsy tip size and shape without the expense of having additional complete biopsy punches. With a single handle, you can have several tips available. Although the Standard Tip Tischler and the Mini-Tischler are the most popular, this design provides you a cost savings option to add angled tips. These tips easily rotate, allowing you to gain better positioning for a biopsy sample.

Features

- Shaft/tip can be rotated up to 360° then locked
- Shaft/tip assembly is interchangeable
- Lower cost alternative to individual biopsy punches

Length: 21cm

SPIRAL CURETTES

This unique endocervical spiral dual purpose curette was developed by Dr. Gordon M Lickrish, past director of the colposcopy unit at the University Health Network in Toronto.

- Supplies curettage where the endocervical canal is narrow, and a normal curette cannot sample
- Acts as a cervical dilator allowing cervical or endometrial sampling

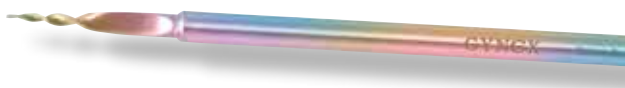

Titanium Cobalt Lickrish Spiral Curette

REF TB3040 21cm Length \$79⁹⁵

Titanium Rainbow Lickrish Spiral Curette

REF TC3040 21cm Length \$79⁹⁵

Stainless Steel Lickrish Spiral Curette

REF 3040 21cm Length \$79⁹⁵

This instrument is found to be most appropriate when there is complete or severe partial cervical stenosis. This allows tissue sampling when a standard curette is too large for insertion. The tip may be gently inserted through the Os, advancing and rotating at the same time.

ASCONA™ IUD STRING SNARE

Allows gentle removal of IUD

The rotating handle provides a way to the string in the hook tip. Pulling back on the handle secures the string at the tip. Once secured, the Ascona™ allows the user to gently pull out and remove the IUD. The Ascona™ is easily disassembled for cleaning and sterilization. The locking tab can be loosened to remove the hook and flexible shaft.

REF 29-350 \$79⁹⁵

GYNEX® IUD INSERTION KIT

STERILE, Single-Use

- Decreases the risk of transmission infectious agents
- Eliminates costly instrument sterilization

REF 29-500 Box of 12..... \$185⁹⁵

EACH KIT TRAY CONTAINS:

- (1) Tenaculum Forcep
- (1) IUD String Scissor
- (2) Rayon Swabs
- (1) ACCU-SOUND® Uterine Sound
- (1) Folded Drape

Everything you need to perform an IUD insertion quickly and safely.

Uterine Sounds

ACCU-SOUND® UTERINE SOUND

There's no reason to rely on guesswork when you measure with a sound. The simple yet ingenious design of the ACCU-SOUND® Uterine Sound eliminates the guesswork involved with a standard uterine sound. When inserting the ACCU-SOUND® Uterine Sound into the uterus, the ring rest against the outside of the Os. When the device is withdrawn from the uterus and vagina, the ring stays in place, clearly indicating the uterine measurement.

STERILE, Single-Use

Length: 24cm

Shaft Diameter: 3mm

REF 4950 Box of 25 \$69⁹⁵

Not Shown at Actual Size

1

Gently insert ACCU-SOUND® uterine sound's dilating tip into the cervical Os.

2

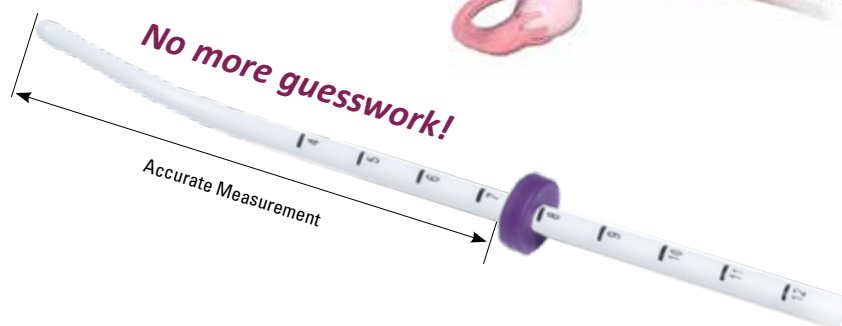

Gently advance the ACCU-SOUND® Uterine Sound until the back of the uterus is felt.

ACCU-SOUND® Uterine Sound ring will rest against the outside of the cervical Os.

3

Withdraw ACCU-SOUND® Uterine Sound from the uterus and vagina. The ring will remain in place on the uterine sound indicating the uterus measurement.

An accurate measurement is indicated by the location of the ring on the ACCU-SOUND® Uterine Sound

Century UMI™

UTERINE MANIPULATOR/INJECTOR

The Century UMI™ Uterine Manipulator is designed for patient safety, easy-to-use, disposable convenience. Optimized to support a broad procedural versatility: Laparoscopic Tubal Occlusion, Diagnostic Laparoscopy, Minilaparotomy, Salpingoplasty and Fertility Exams.

Specifications

- **Cannula length:** 33cm
- OD 4.5mm
- Luer Lock Syringe 10cc

Not made with natural rubber latex.

Features

- Pear-shaped balloon for optimal hold
- Incorporated cervical stop (no spring!)
- Reduced cannula to allow easy insertion
- Balloon forms an excellent seal at internal Os

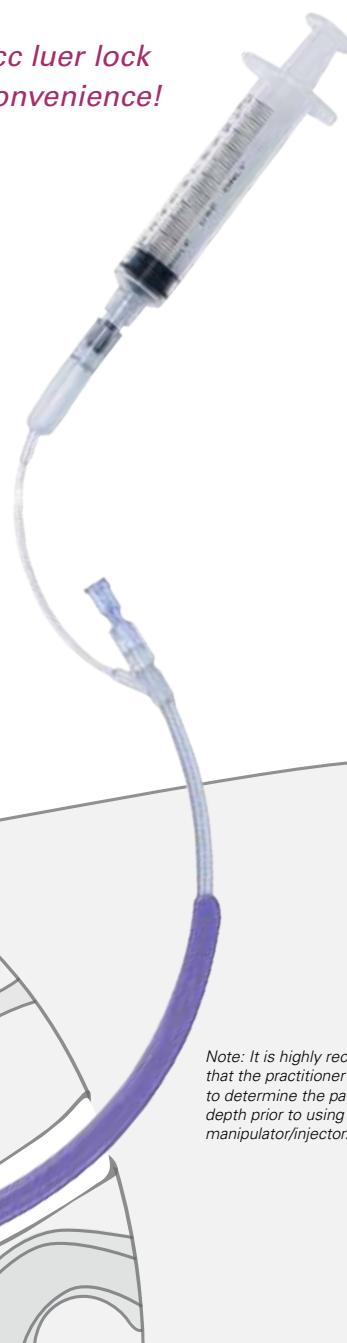

Now including a 10cc luer lock syringe for your convenience!

Passing Savings To You!

NEW LOW PRICE!

Low unit price, \$18.33 each

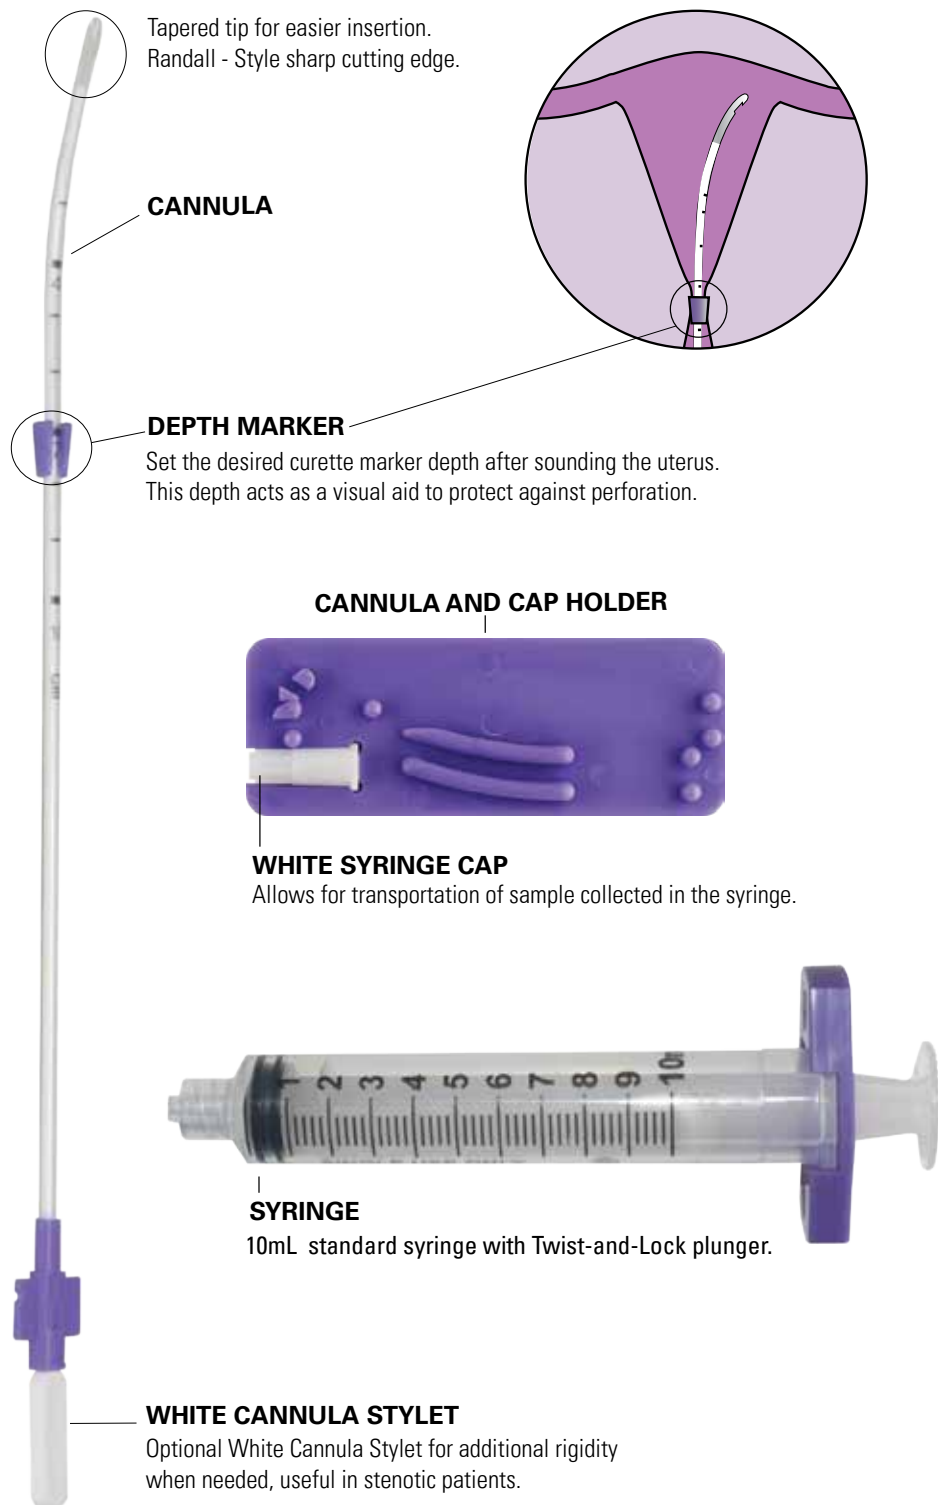

REF 10-160 Box of 12 **\$219⁹⁵**

Note: It is highly recommended that the practitioner utilize a sound to determine the patient's uterine depth prior to using any uterine manipulator/injector.

sure@sample® • *Select 1*

Endometrial Curette

sure@sample® • Select1

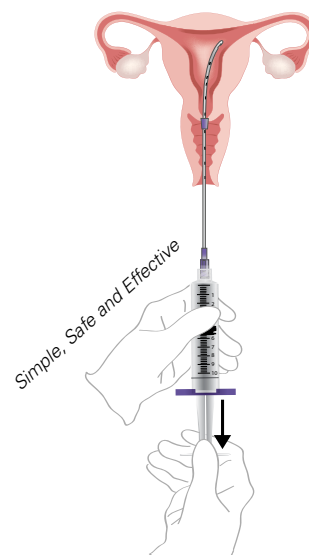

Endometrial Curette

STERILE EO Single-Use 
Not made with natural rubber latex.

SURESAMPLE® Select1 is a unique design curette for sampling the uterine endometrium. Ideal for obtaining samples from the uterus and mucosal lining by scraping or vacuum suction. Collected samples are for the purpose of biopsy, pre-cancer screening or menstrual extraction.

Specifications

- Randall-Style sharp cutting-edge curette
- Semi flexible curette with a slight curve
- Highly visible 1cm markings on cannula
- **Cannula length:** 8-1/8" (20.5cm)
- White Cannula Stylet insert for additional rigidity
- Depth Marker acts as a visual aid to protect against perforation
- OD 3mm
- 10mL standard syringe with Twist-and-Lock plunger
- Not made with natural rubber latex
- Luer Lock fitting with winged flanges
- STERILE, Single-Use

Features

- White Cannula Stylet insert for whenever additional rigidity is needed, useful in stenotic patients
- Depth Marker acts as a visual aid to protect against perforation of the uterine wall
- The twist-and-lock plunger on the syringe allows the provider to maintain a constant vacuum pressure while collecting the specimen
- White Syringe Cap allows transportation of sample collected in the syringe

REF 3130	Box of 5	\$32 ⁹⁵
REF 3135	Box of 24	\$134 ⁷⁵

The unique design and special features allow for better accuracy and a more reliable sample.

sure@sample® Endometrial Sampler

The world's most effective and easy-to-use endometrial sampler!

SURESAMPLE® Endometrial Sampler outperforms any other sampler on the market today!

Our **patented 3-port sampling system** **doubles the harvested samples** and allows **easy retrieval** with **reduced cell damage**.

A much **greater histological adequacy and integrity** than any other samplers. 12 to 1 ratio of histological adequacy and 8 to 3 for histological integrity, SURESAMPLE® is the finest endometrial sampler.

SURESAMPLE® formable shaft memory allows physicians to **pre-shape shaft** to meet each patient unique physical requirements. Its tensile strength and rigidity make it malleable enough to conform to the direction of the cervix and lower segment, but strong enough to go through a tight canal. The formable 3mm shaft diameter enhances ease of use and minimizing patient discomfort.

3-Ports for maximum yield

Better performance than other brands

SURESAMPLE® Endometrial Sampler

retrieves more than twice the harvest of its competition!

sure®sample[®]

Endometrial Sampler

STERILE EO Single-Use 
Not made with natural rubber latex.

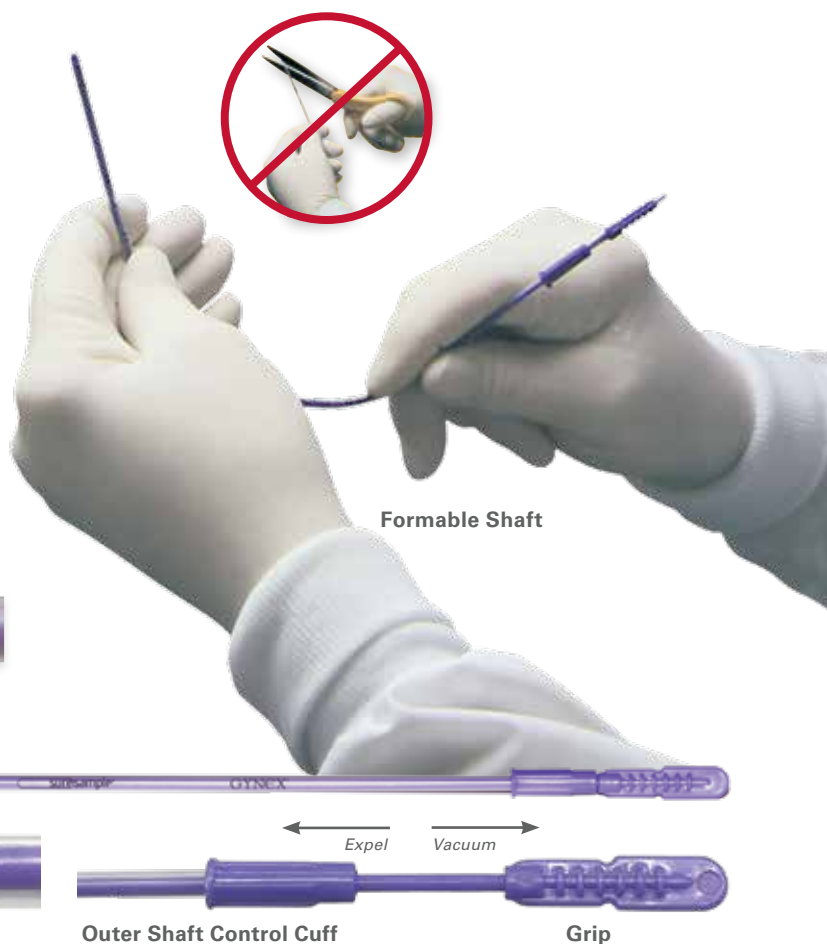

Features and Benefits

- **3-Port Sampling System** - one port on each side of the distal end of the shaft and one on the tip end.
- **Grip retraction** creates a strong internal vacuum.
- **Two phase action** between the ports and grip produces a higher yield of tissue sample in an amazingly controlled manner.
- **Formable memory** shaft allows you to shape the sampler to meet each patient's physical requirements.
- **Tensile strength and rigidity** allow conformity but also provide enough strength to fit through a smaller canal.
- **No cutting or splitting of tip** (a tedious process required by other widely used samplers that leads to damaged specimen).
- **Quick retrieval process** - simply push the SURESAMPLE Endometrial Sampler grip back, forcing the specimen out of the open sampler tip and sides.

Specifications

- STERILE, Single-Use
- 3mm shaft diameter
- 24cm shaft length
- Not made with natural rubber latex

Galileo® Colposcope Direct-Access™ 530VCDA

Three-Step Magnification with Integrated LED Light and HD Video Camera

Galileo® Colposcope Direct-Access™ 530VCDA features a three-step magnification with integrated LED light and HD video camera for optional connection to a monitor. The offset center feature provides a direct visual and easy access. Combining modern technology with classic aesthetics, the Galileo® Colposcope Direct-Access™ 530VCDA is a piece of art designed to facilitate comprehensive cervical examination, with ease and style.

Features

- Offset Center Post for Direct Access
(Eliminates an obscured view and provides a direct visual and easy access)
- Multi-Coated, Hand-Polished Apochromatic Lens
(Minimizes secondary color and corrects chromatic abrasion)
- Enclosed Power Source
(Hidden in stand base for a clean and clutter free look)
- Enclosed Electrical Cables
(Hidden inside post for a clean and clutter free look)
- LED Illumination System
(More accurate color balance, cool to the touch and long bulb life)
- Three-Step Magnification
- Optical Measurement Rings
- Individual Eye-Shields
- Integrated Green Filter
- HDMI Video Feed

Options

- 360° Tilt Stand Base / 5-Wheel Rolling Stand Base
- Additional Extended Warranty

Three-Step Magnification with Integrated LED Light

Galileo® Colposcope Direct-Access™ 400DA features a three-step magnification with integrated LED light. The offset center feature provides a direct visual and easy access. Combining modern technology with classic aesthetics, the Galileo® Colposcope Direct-Access™ 400DA is a piece of art designed to facilitate comprehensive cervical examination, with ease and style.

Features

- Offset Center Post for Direct Access
(Eliminates an obscured view and provides a direct visual and easy access)
- Multi-Coated, Hand-Polished Apochromatic Lens
(Minimizes secondary color and corrects chromatic abrasion)
- Enclosed Power Source
(Hidden in stand base for a clean and clutter free look)
- Enclosed Electrical Cables
(Hidden inside post for a clean and clutter free look)
- LED Illumination System
(More accurate color balance, cool to the touch and long bulb life)
- Three-Step Magnification
- Optical Measurement Rings
- Individual Eye-Shields
- Integrated Green Filter

Options

- 360° Tilt Stand Base / 5-Wheel Rolling Stand Base
- Additional Extended Warranty

Specifications

- Focal Length: ± 300mm
- Magnification: 3.75X, 7.5X, 15X
- Field Of View: 79mm, 39mm, 19mm
- Depth Of Field: 4.5mm, 1.13mm, 0.76mm
- Light Intensity: > 30,000 LUX
- Working Height: 975mm to 1135mm
- Power Supply: 100V to 240V
- Warranty: 1- Parts and Labor (excludes shipping charges)

CO4100 Colposcope

Three-Step Magnification, 45° Angle with Integrated LED Light

CO4100 Colposcope features a three-step magnification, 45° angle with integrated LED light. The 45° angle lenses feature allow inclined viewing for a natural sitting position, reducing the need to bend over. CO4100 Colposcope is a high quality colposcope that offers excellent optics designed to facilitate comprehensive cervical examination, with ease and style.

Features

- Multi-Coated, Hand-Polished Apochromatic Lens
(Minimizes secondary color and corrects chromatic abrasion)

GYNEX LLETZ Electrodes

We believe that our LLETZ Electrodes are the best on the market!

- Easy Grip Ribbed Handle
- Loop wires are 0.20mm thick to help reduce backward drag
- HexLoc™ anti-rotation system at the bottom of the shaft keeps the handle from rotating
- Each electrode is packaged in a molded blister tray which keeps the tip true to shape and protects it from breakage

GYNEX® Cone Electrodes

The Cone Electrode is a LLETZ excisor for precise cone biopsy specimens

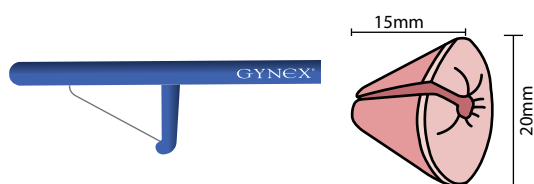

The cone biopsy electrodes allow for smooth rotation facilitating the removal of precise, cone-shaped specimens. The tungsten linear wires are 0.20mm thick to help reduce backward drag. Molded shaft and stop arm are completely insulated to protect the endocervical canal and underlying vaginal structures.

Each electrode is packaged in a molded blister tray which keeps the tip true to shape and protects from breakage.

STERILIZATION NOTICE

Please read before ordering Gynex LLETZ coated instruments

We find that most autoclaves are default set at **270°**. Gynex LLETZ coating must be autoclaved at **250°**. Please lower autoclave setting to this temperature to avoid damage to the coating. Bubbling can occur at a higher temperature. This also voids the warranty on these coated instruments.

Please use the following instructions:

- Use only distilled water in the autoclave.
- Assure that any towels the instruments are laid out on are free of residual soap, and are essentially pH neutral.
- Autoclave instruments constructed of like materials at the same time. E.g., autoclave only GYNEX LLETZ-Coated instruments together.
- The recommended sterilization cycle is **saturated steam** at **250°** for **25–30 minutes**. Use of this cycle will produce a Sterility Assurance Level (SAL) of at least 10⁻⁶.
- Do not allow instruments to touch each other during the autoclaving process, and assure that all instruments are **completely dry** when removed from the autoclave.

Sterrad Sterilization Systems, can be used for Gynex LLETZ coated instruments.

Sterrad 100NX system has been established by Advanced Sterilization Products as the testing model for material functionality, representing all Sterrad System models. This can be applied to Sterrad NX, 100S, 50 and 200 systems and will be at least equivalent. Follow the manufacturer's instructions for operation and loading of sterilized items. Coating is compatible with at least 30 sterilization cycles with the 100NX System being the most challenging system on material functionality, although 60 cycles is the average compatibility. After 30 cycles, surface bubbling may be visible, but this will not impact the functionality of the product. If cracking of the coating is observed, do not use the instrument.

4-WAY EXPANDER VAGINAL SPECULUM

for LLETZ Procedures

The 4-Way Expander Vaginal Speculum designed for LLETZ procedures with Gynex's autoclavable lavender coating. It provides a superior view with one instrument as compared to a standard speculum and the lateral retractor. The built-in side blades are erected on demand to enhance the view of the cervix as needed.

Features

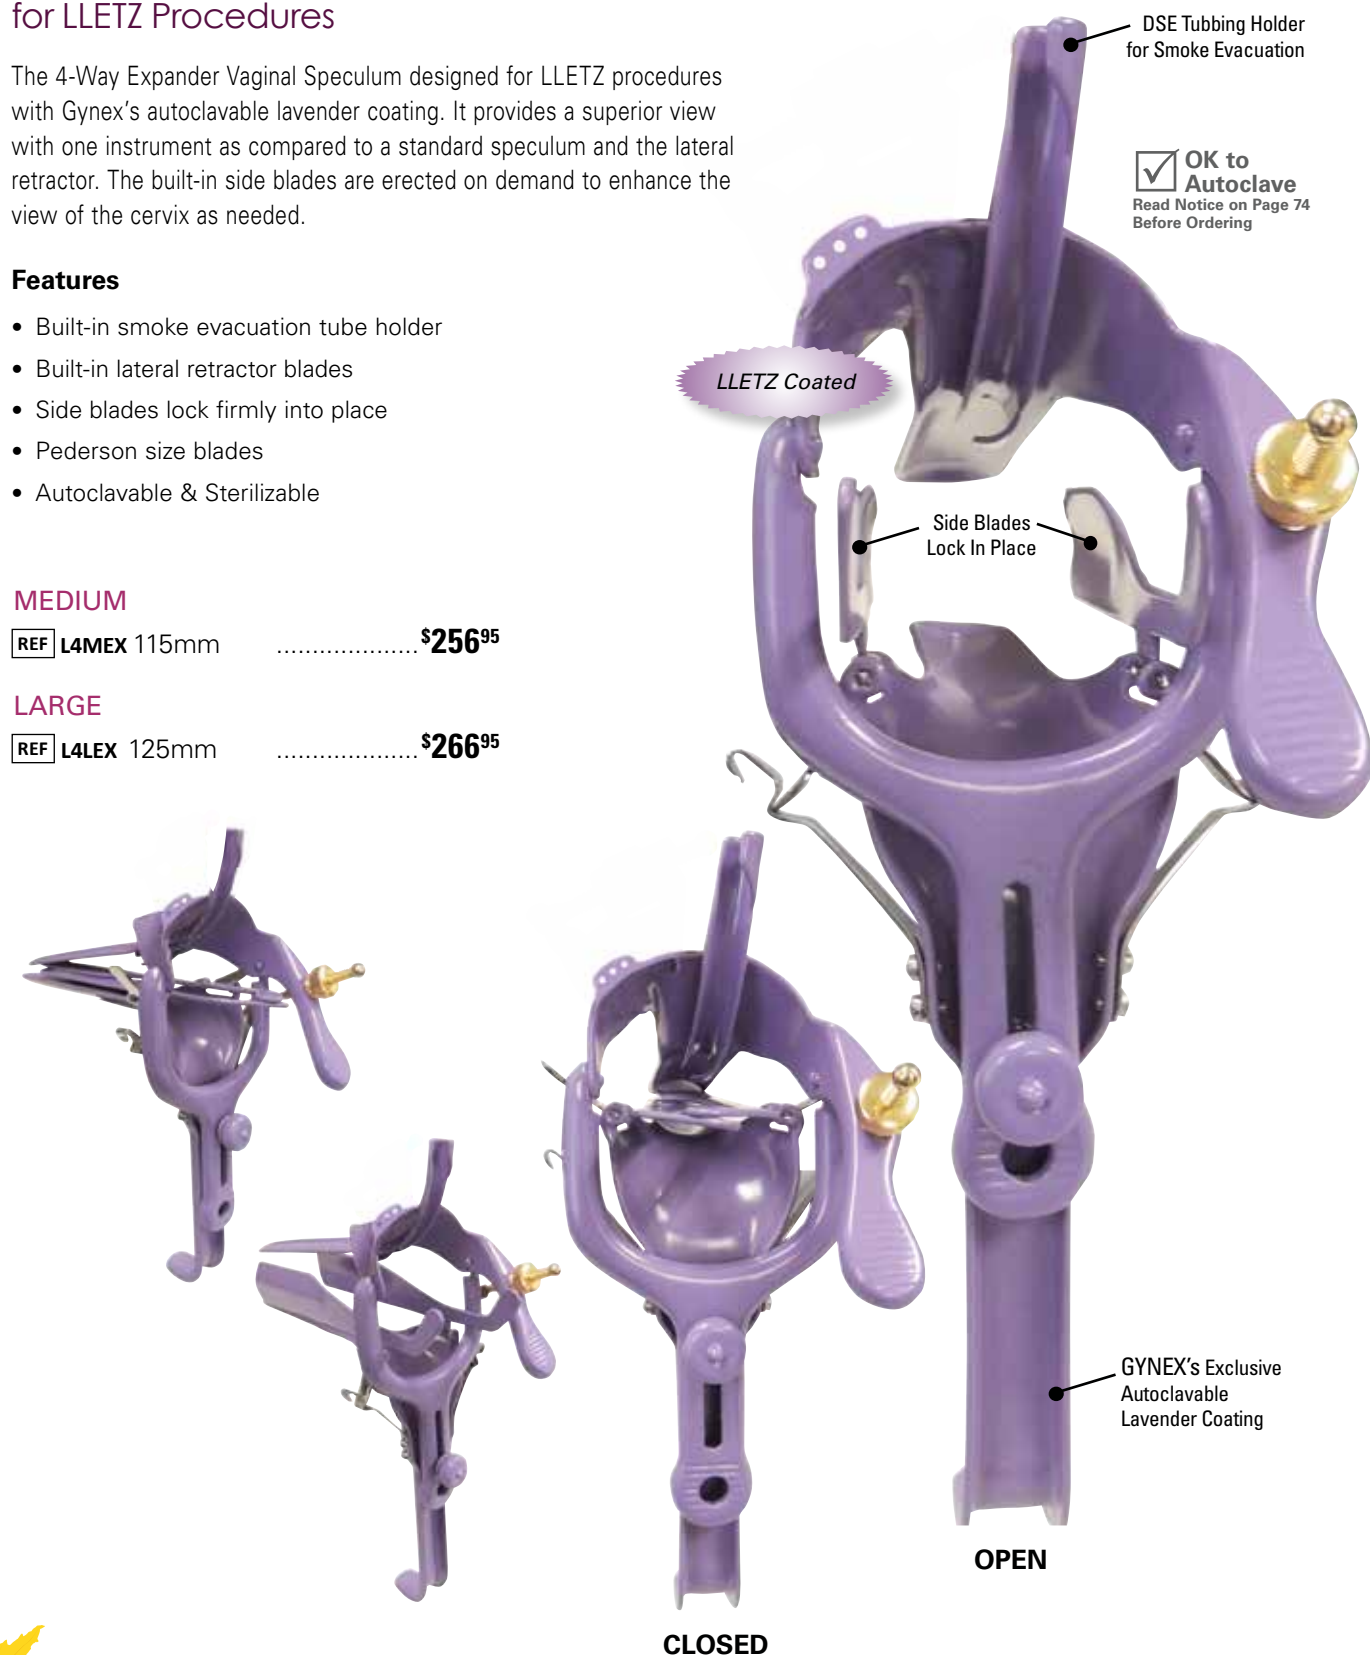

- Built-in smoke evacuation tube holder
- Built-in lateral retractor blades
- Side blades lock firmly into place
- Pederson size blades
- Autoclavable & Sterilizable

LATERAL VAGINAL RETRACTOR

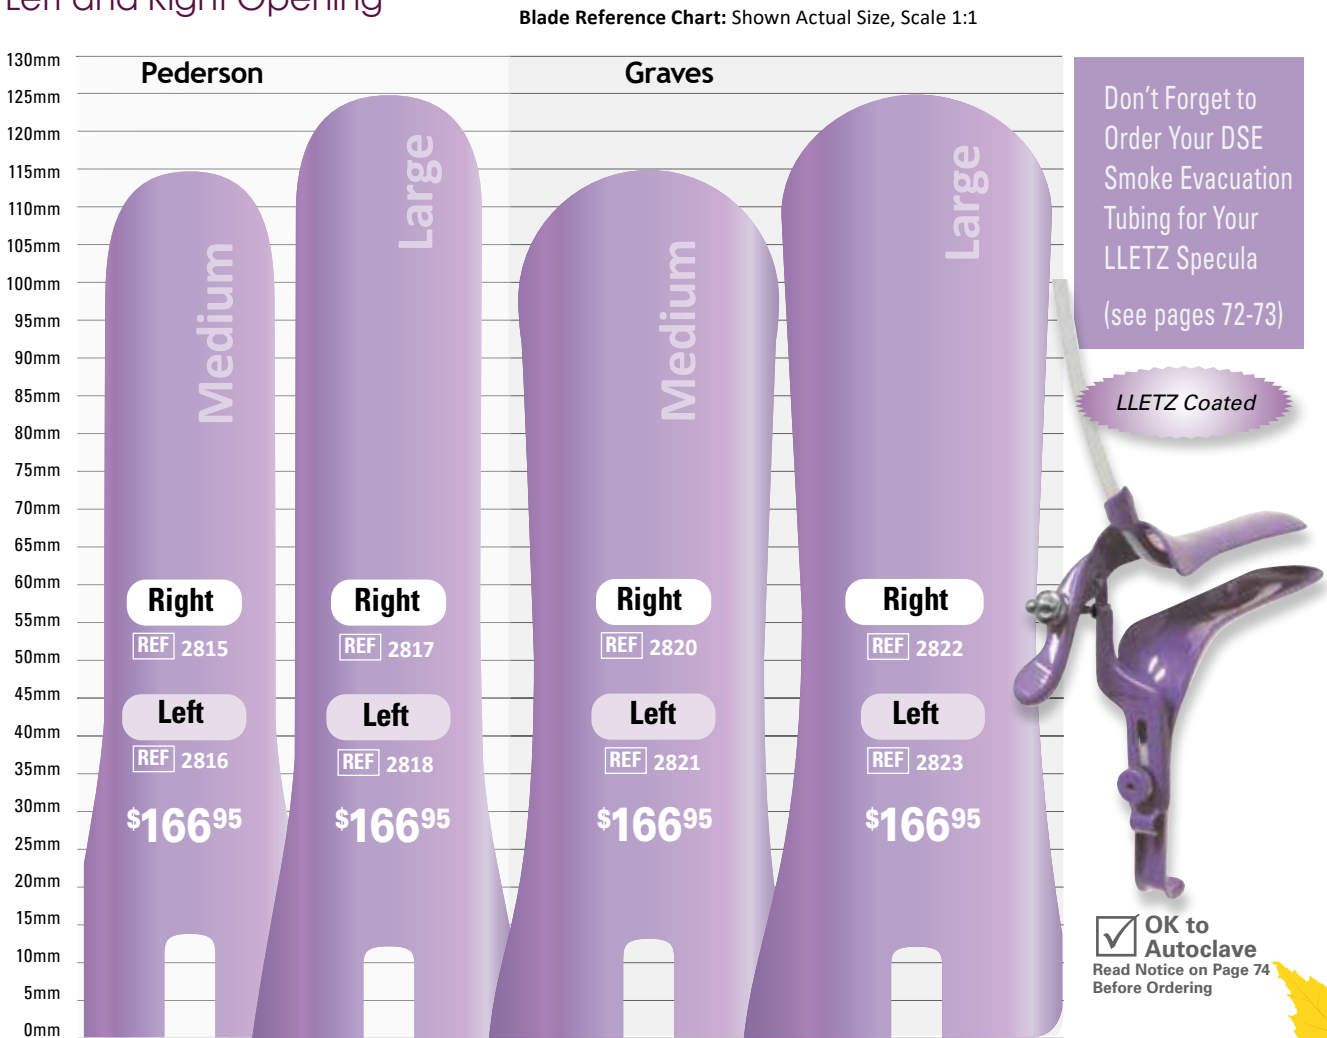

for LLETZ Procedures

Control side wall collapse during electrosurgery with a GYNEX LLETZ-Coated Lateral Vaginal Retractor. It provides the extra access and visibility needed during electrosurgery procedures of the cervix. This instrument features GYNEX's exclusive autoclavable lavender coating, providing extra durability and safety.

LLETZ OPEN-SIDED SPECULUM

LARGE

REF 2312 Top Separator: 92mm..... \$67⁹⁵

GREENBERG HYSTEROSCOPY SPECULUM

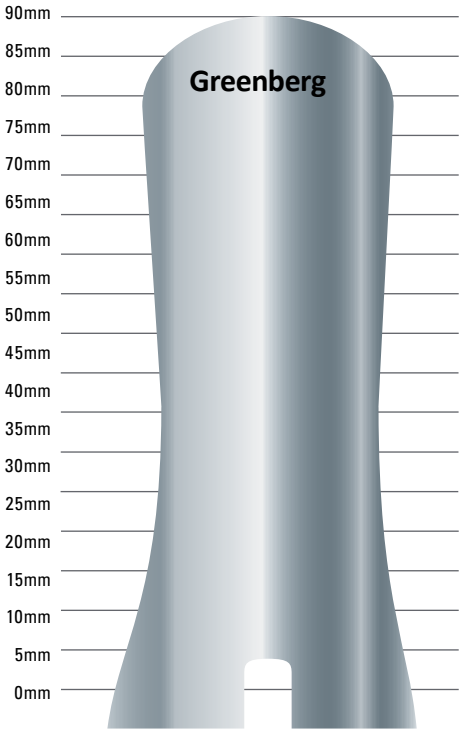

The Greenberg Hysteroscopy Speculum is a modified traditional open-sided Graves speculum with shorter blades and an open side allowing removal of instruments while they are still in the vagina. This speculum brings the patient’s cervix closer to the provider and reduces the length of unsupported hysteroscope shaft entering the cervical canal.

REF 2801 \$52⁹⁵

“The shorter blades bring the external os about 30% closer to the introitus and make access to the cervix dramatically easier in almost every facet of surgical cases in which a speculum is used.”

James Greenberg, MD,
Boston, MA

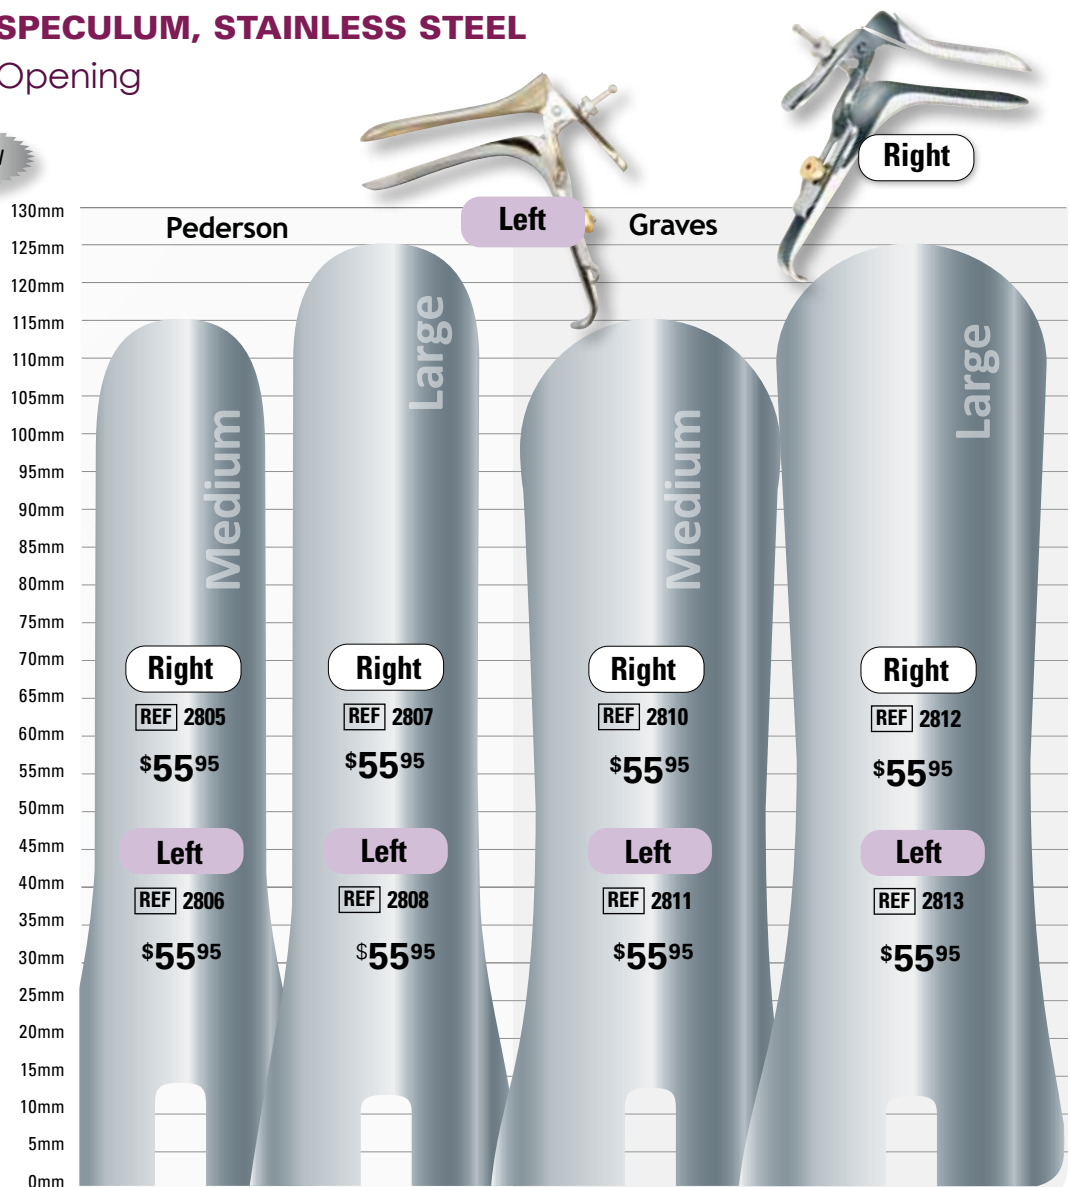

OPEN-SIDED SPECULUM, STAINLESS STEEL

Left and Right Opening

Stainless Steel

Note: Blade length is measured from top center of back of blade to end of distal tip. In most cases, the bottom speculum blade will protrude and appear to be longer. Mechanical assembly of a speculum simply places the bottom blade in a more forward position. Although the two blades are normally similar in length, they may vary a few millimeters from lot to lot.

LAMINARIA INSERTION FORCEPS

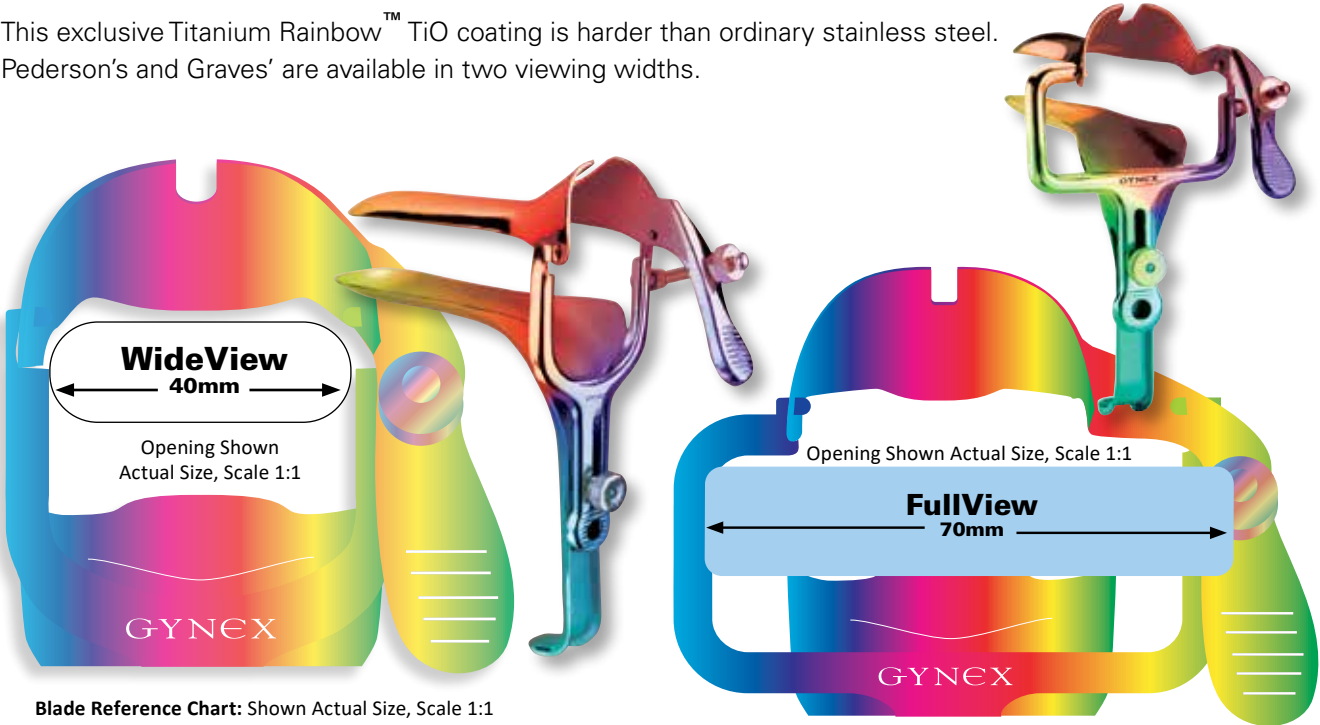

Specifically designed for insertion of laminaria.

REF 1600\$76⁹⁵

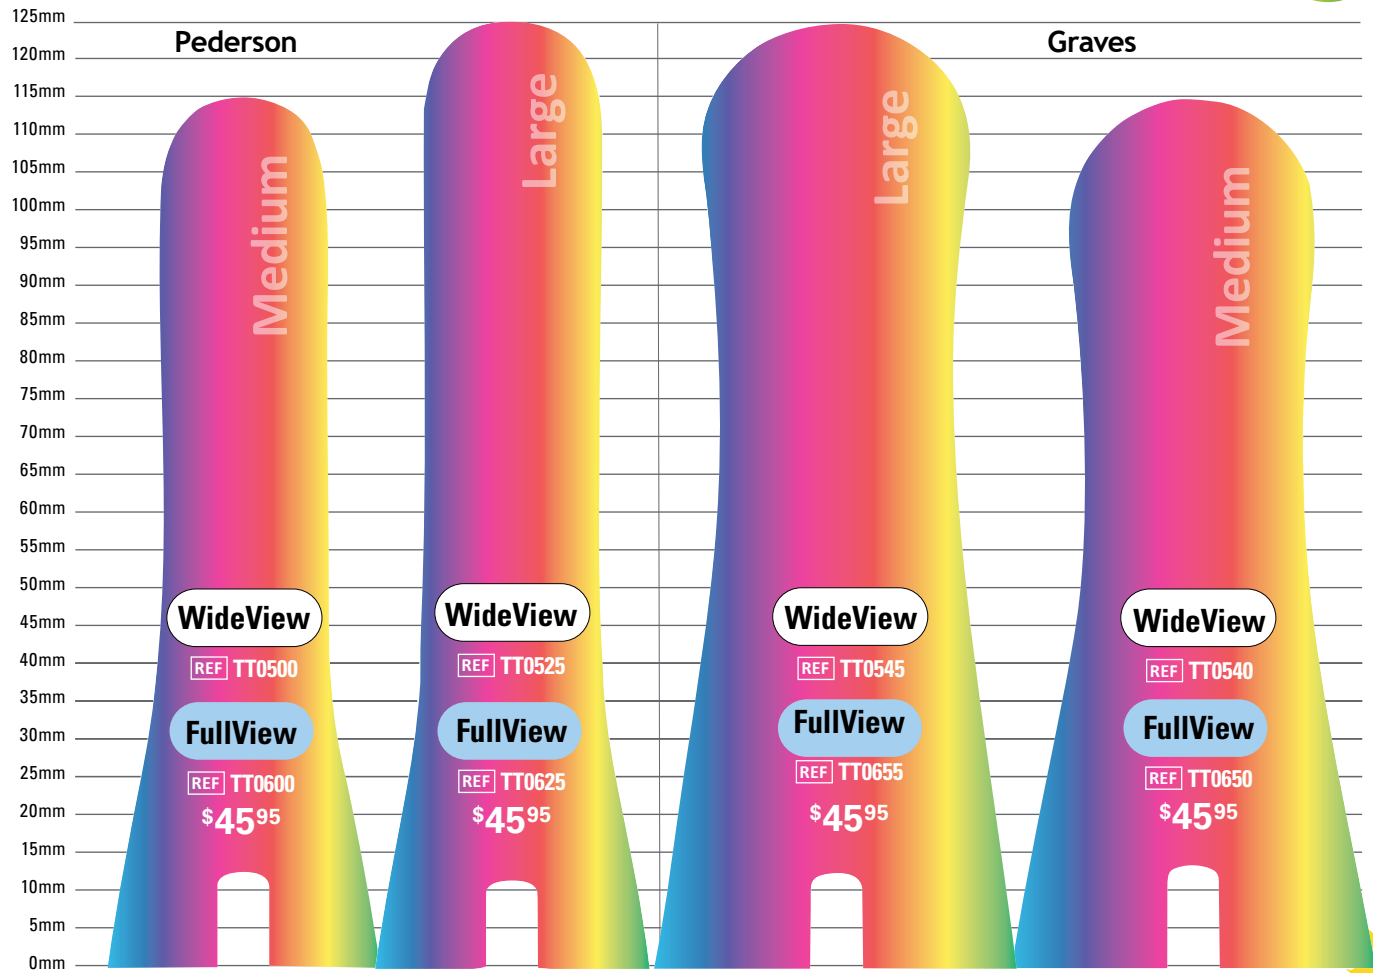

TITANIUM RAINBOW™ SPECULUM

This exclusive Titanium Rainbow™ TiO coating is harder than ordinary stainless steel. Pederson's and Graves' are available in two viewing widths.

5% Discount on Prepaid or Credit Card Orders (offer excludes microscopes, colposcopes and/or extended warranties).

Instruments Care and Cleaning

TOUCH-GUARD® HOT BEADS

Sterilization Beads

Touch-Guard® Hot Beads provide a safe, effective and convenient method for sterilizing your surgical instruments. Without using potentially dangerous gases, flames or chemicals, you can ensure that your instruments will be free of pathogens and microbial contaminants. Simply plunge metal instruments into hot glass beads for instant sterilization. These specially cast “no-lead” glass beads transmit heat properly and do not break down at the high temperatures used in glass bead sterilizers. Touch-Guard® Hot Beads come in simple pre-measured containers.

REF 7106	6-Pack (6-month supply)	\$134 ⁹⁵
REF 7112	12-Pack (1-year supply)	\$247 ⁹⁵

TOUCH-GUARD® STAIN-EX™

Biological & Chemical Stain Remover

Touch-Guard® Stain-Ex™ is a fast and effective biological and chemical stain remover that removes Iodine-based stains, Lugol's stain and most medical and histological stains from hands, glassware, stainless steel, plastic, counters, floors, lab coats, laboratory equipment and hospital linen. Works great on all your LLETZ-coated instruments!

It is easy to apply Touch-Guard® Stain-Ex™ and the stain is removed in a matter of seconds.

REF SS10	1 Gallon	\$89 ⁹⁵
----------	----------------	--------------------

TOUCH-GUARD® LOW SUDS

Liquid Instrument Detergent Concentrate

Touch-Guard® Low Suds Liquid Instrument Detergent Concentrate is used for effectively and safely cleaning all surgical instruments, plastic, glassware, and rubber tubing. Formulated for use on automatic washers, ultrasonics, washer-sterilizers, and manual cleaning.

- Neutral pH detergent with powerful sequestering and emulsifying agents
- Fast wetting, odorless, non-sudsing, maintains high detergency
- Removes protein, blood, tissue, fat and any organic soils
- No residue - no pyrogens; leaves a surgically clean surface
- Exceptional cleaning in hard, soft, cold or hot water
- Biodegradable; contains no phosphates or NTA
- Free rinsing, non-enzymatic formulation
- Safe for ophthalmic cleaning

Gynex brand curette	\$40⁰⁰
Other brand curette	\$50⁰⁰

Selling Notice:

All products are limited to purchase by licensed medical practitioners, physician and medical facilities. In most cases, we do not sell to the general public.

Warranty:

All hand-held instruments in this catalog are warranted to be free of defects in manufacturing materials and workmanship for two years from date of purchase. Customers who feel an instrument is defective must return it to GYNEX for evaluation. Products found to be defective will either be repaired or replaced with the same or comparable product, at the discretion of GYNEX Customer Service. Warranty on any hand-held GYNEX instrument is voided if instrument is repaired or sharpened by anyone other than GYNEX. All GYNEX biopsy punches in this catalog will be sharpened free of charge for one year from date of purchase (if enough metal is remaining on tip to allow sharpening). Warranties do not cover general maintenance, cleaning or sharpening needs that result from normal use, except as noted above regarding biopsy punch sharpening. Damages caused by misuse, improper care, cleaning, chemicals, or loss and theft are not covered by this warranty. Shipping charges are not covered for free sharpening warranty nor extended equipment warranty.

Return Policy:

Customer must obtain a Returned Merchandise Authorization (RMA) number from GYNEX customer service at (425) 882-1179. An itemized list of returned products must accompany all returns. Include the Returned Merchandise Authorization (RMA) number and explanation of why the product is being returned. Returned goods MUST be packaged in a shipping container equivalent to that in which it was received. Returned goods MUST be shipped at customer's expense by Parcel Post, Airborne, FedEx or UPS, and must be insured for the purchase price of the contents. Returned goods received by GYNEX in any form less than that described above will be refused by GYNEX and return shipped to the customer.

The following items may be returned:

- Product with RMA number
 - All returns must be made within 30 days of the item receipt (except for warranty).
 - Product with unbroken seals, with labels intact, in original container and packaging
 - Unused instruments which have not been cleaned or sterilized
 - Single-Use[®] product (sterile) in original, unopened package
 - Product damaged in shipment*
 - Product that has at least 12 months remaining shelf life as determined by the expiration date
 - Instruments damaged, broken or not working properly due to defects in material or workmanship
- *Note: Product returned due to error or damage in shipping must be re-reported to customer service within 72 hours of receipt. Damaged product must be accompanied by a written explanation noting damage.*

The following items may not be returned:

- Product without RMA number
- Product that has been improperly handled or stored
- Product that is marked, coded, dated, damaged, soiled or adulterated in any way (except standard cleaning and sterilization procedures for reusable instruments)
- Product damaged by or exposed to heat, fire, smoke, high humidity or water (except standard cleaning and sterilization procedures for reusable instruments)

Restocking Charge:

A 15% restocking charge applies to all returned product, unless the return is due to error in shipment, product damaged in shipment, or product returned for repair or replacement due to defect in material or workmanship.

Disclaimer:

All prices in this catalog are subject to change without notice. All sizes indicated may vary slightly, due to differences between manufacturers. In order to carry sufficient inventory, it is necessary for GYNEX to purchase from different manufacturers. As a result, final

products may not be the exact sizes as shown in charts, drawings or photos. The advertisements and information in this catalog may contain typographical errors or inaccuracies and may not be complete or current. GYNEX therefore reserves the right to correct any errors, inaccuracies, or omissions and change or update information at any time without prior notice. Please note that such errors, inaccuracies, or omissions may relate to pricing or availability. We reserve the right to refuse to honor offers or terms, which contain error or inaccuracies.
