

# GYNEX®

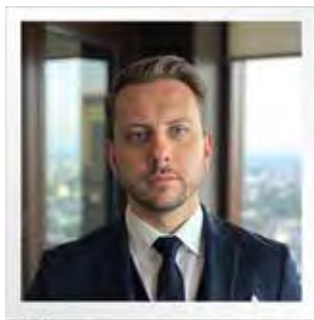

*Our Solutions for*  
**Complete Cervical Care!**

*Spring 2026*

**QUALITY**

## Trevor says . . .

Thank you for continuing to place your trust in us as your provider of solutions for cervical care. Your partnership and confidence in our products drive us to continually improve and expand our offerings to better serve your needs.

This Spring, we are excited to reintroduce Lugol's – Iodine Contrast Medium. This has been one of the most frequently requested products over the years, and we are proud to once again make it available as part of

our cervical care portfolio. Lugol's complements our existing Acetic Acid and Monsel's Paste, creating a comprehensive, reliable solution line for your practice. You can find detailed information on Lugol's, Acetic Acid, and Monsel's Paste on pages 2–3 of this catalog.

We are honored to support the important work you do every day and the women you care for. It is a responsibility we take seriously, and one that continues to inspire our commitment to quality, reliability, and innovation.

Thank you,

*Trevor*

# Lugol's Strong Iodine Solution

Lugol's Solution is an aqueous iodine and potassium iodide preparation commonly used as a topical diagnostic aid in medical procedures. It enhances visualization of epithelial tissue by temporarily staining glycogen-rich areas, helping clinicians identify abnormal or suspicious regions during examinations.

- Box of 12 Individual - 8ml vials
- 12 rayon-tipped applicator swabs
- Single-Patient-Use Ⓢ

Reliable, effective, and easy to apply.

*Lugol's Solution is an essential adjunct for accurate tissue assessment in clinical settings.*

NOTE: This product may only be purchased and used by individuals with an active DEA registration in accordance with applicable federal regulations.

REF 5056

Box of 12 ..... **\$137<sup>95</sup>**

# Monse's Ferric Subsulfate Paste 20-22%

Monse's is a pre-thickened formulation of the popular hemostatic agent. Apply directly to the surgical site following excision of tissue.

- Box of 12 Individual - 8ml vials
- 12 rayon-tipped applicator swabs
- Single-Patient-Use 

**REF 5055** Box of 12 ..... **\$214<sup>95</sup>**

Controls bleeding after biopsy, LLETZ and laser procedures.

# Acetic Acid 5%

- Box of 12 Individual - 12ml vials
- 12 rayon-tipped applicator swabs
- Single-Patient-Use 

**REF AA312** Box of 12 ..... **\$98<sup>95</sup>**

Helps enhance the appearance of abnormal areas.

## 4-Way Expander Vaginal Speculum

*New*

The 4-Way Expander Vaginal Speculum provides a superior view with one instrument as compared to a standard speculum and lateral retractor. The built-in side blades are erected to enhance the view of the cervix as needed.

LARGE

REF S4LEX 125mm ..... **\$114<sup>95</sup>**

MEDIUM

REF S4MEX 115mm ..... **\$109<sup>95</sup>**

### Features

- Built-in lateral retractor blades
- Side blades lock firmly into place
- Pederson size blades

## Why Choose GYNEX® LLETZ Electrodes

Engineered for precision, control, and reliability, GYNEX® LLETZ Electrodes are designed to support consistent performance in every procedure. From secure handling to finely crafted loop wires and protective packaging.

# Tischler Biopsy Punches

Invented by GYNEX President Stephen J. Sullivan, the modern Tischler Biopsy Punch is the #1 Selling Design Worldwide!

The Tischler and Mini-Tischler  
are available in two working lengths:

Standard 20cm  
Extra-Long 25cm

## BIOPSY PUNCHES SECTION

see pages 7-16

**Not sure which biopsy punch you need?**

Call GYNEX today at **1(888) 486-4644** and one of our sales associates will gladly assist you.

# CERAMIX™ Biopsy Punches

Our sharpest, longest lasting biopsy punch

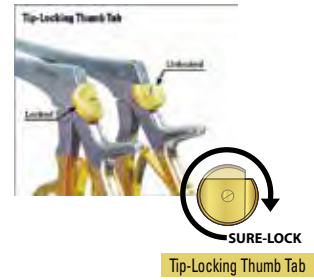

CERAMIX™ coated biopsy punches offer increased resistance to corrosion and resilience against impact and low friction coefficient results on the market. **Sharper up to 10 times longer** than ordinary stainless steel with incomparable cutting-edge hardness.

See Hardness Comparison Chart below.

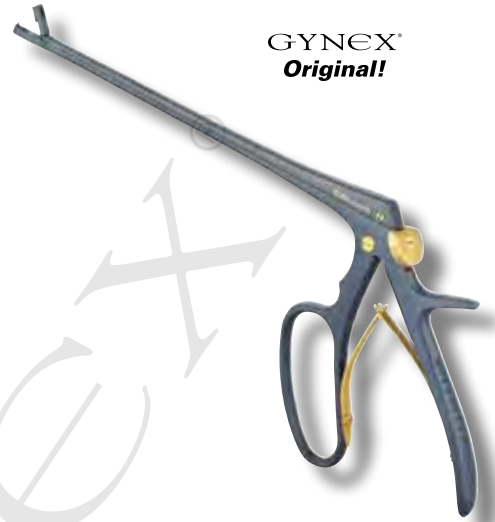

## Hardness Comparison Chart

METAL	(HV 0.05)	COATED METAL	(HV 0.05)
Stainless Steel	550	Titanium Nitride	2900
Tungsten Carbide	650	CERAMIX Coating	4500

Vickers Hardness Test - HV/0.05 meaning a 50g load was used.

# RotoTIP™ Biopsy Punch, STAINLESS

**RotoTIP™** rotating biopsy punches offers the added convenience of changing the biopsy tip size and shape without the expense of having additional complete biopsy punches. With a single handle, you can have several tips available. Although the Standard Tip Tischler and the Mini-Tischler are the most popular, this design provides you a cost savings option to add angled tips. These tips easily rotate, allowing you to gain better positioning for a biopsy sample.

## Features

- Shaft/tip can be rotated 360°
- Shaft/tip assembly is interchangeable
- Lower cost alternative to individual biopsy punches

Length: 21cm

# Lickrish Spiral Curettes

*Dilator • Curette*

The innovative Endocervical Lickrish Spiral Dual-Purpose Curette was developed by Dr. Gordon M Lickrish, former director of the colposcopy unit at University Health Network in Toronto. The spiral design is ideal for addressing cases of severe cervical stenosis and narrow endocervical canals, allowing for gentle insertion, dilation, and precise tissue sampling when standard curettes are inadequate. The tip can be gently guided through the Os while simultaneously advancing and rotating.

# Word Bartholin Catheter Kit

STERILE EO Single-Use

Not made with natural rubber latex.

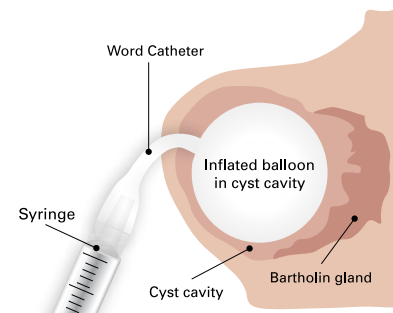

The Word Bartholin Catheter Kit contains everything you need for an effective office treatment of Bartholin gland abscesses and cysts providing patients with immediate relief.

### Each Kit Contains:

- (1) Silicone inflatable catheter
- (1) Scalpel
- (1) 3cc Syringe w/24 GA Needle

REF 10-200 Box of 2 kits ..... \$69<sup>95</sup>

*Outpatient Treatment for Bartholin gland cysts and abscesses.*

*Insertion of an inflatable balloon is a non-surgical procedure that can be performed as an outpatient using a local anaesthetic injection to numb the area. It involves making a passage from the cyst or abscess through which the pus can drain over 4 weeks.*

# Corson Myoma Polyp Grasping Forceps

Experience precision and reliability with our Polyp Grasping Forceps, designed for superior performance in polyp removal procedures. Engineered with high-quality stainless steel, these forceps ensure exceptional durability and longevity.

### Key Features:

- Precision Grip: Fine-tipped design for secure and accurate grasping of polyps.
- Ergonomic Handle: Comfortable, non-slip grip reduces hand fatigue during extended use.
- Enhanced Control: Smooth operation for seamless maneuverability in delicate procedures.

VILLA™

New

## Hormonal Implant Dissecting Forceps

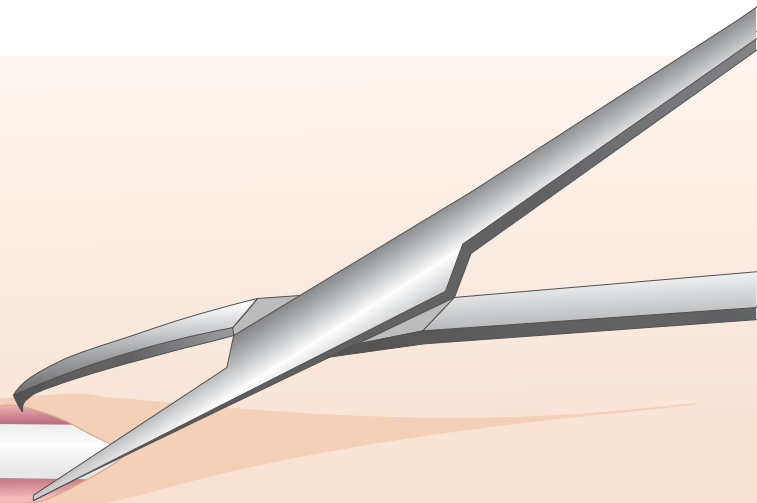

The Villa™ Hormonal Implant Dissecting Forceps and Implant Remover make the perfect pair in the event that an implant is not visible upon incision. After making an incision, some implants remain difficult or impossible to view. If this is the case, the dissecting forceps, with pointed tip, can be opened and closed to separate the tissue encapsulating the implant. This will allow the remover to grasp, hold, and retract the implant.

### Villa™ Hormonal Implant Dissecting Forceps

REF 29-700 ..... \$59<sup>95</sup>

*Designed to aid with dissection of a contraceptive implant prior to removal.*

VILLA™

## Hormonal Implant Remover

New

The Villa™ Hormonal Implant Remover is a clamp specially designed to grasp, hold, and retract a contraceptive implant located in the arm, such as Nexplanon®. A small, ring tip secures around the mid-point of the implant for modified "U" technique.

### Villa™ Hormonal Implant Remover, Straight

- Shaft holds desired position until reshaped
- Small tip provides easy access

**Length:** 20cm

**Tip in closed position:** 4.5mm

REF 29-010

\$329<sup>95</sup>

# Uterine Sounds

## ACCU-SOUND® Uterine Sound, Single-Use

STERILE EO Single-Use®

Not made with natural rubber latex.

The ACCU-SOUND® Uterine Sound features a simple yet innovative design that eliminates the guesswork associated with traditional uterine sounds. During insertion, the adjustable ring rests against the external cervical Os. Upon withdrawal, the ring remains in place to clearly indicate uterine depth for accurate measurement.

**Length:** 24cm

**Shaft Diameter:** 3mm

REF 4950 Box of 25 ..... \$82<sup>95</sup>

**ACCU-SOUND®**  
uterine sound w/measure ring

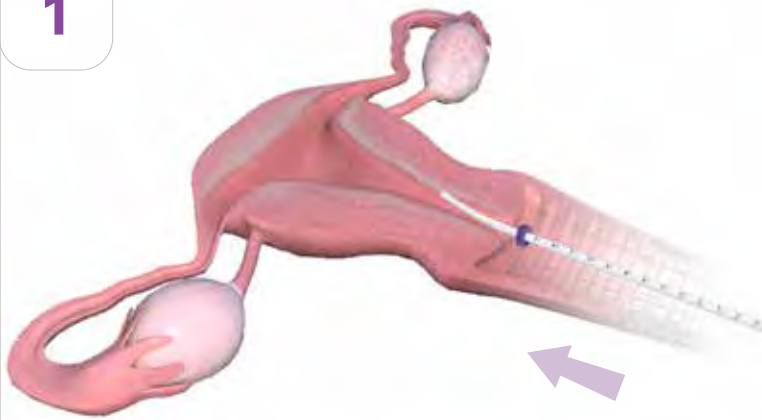

**No more guesswork!**

*An accurate measurement is indicated by the location of the ring on the ACCU-SOUND® Uterine Sound.*

**Indicated for use in both surgical and non-surgical procedures, including:**

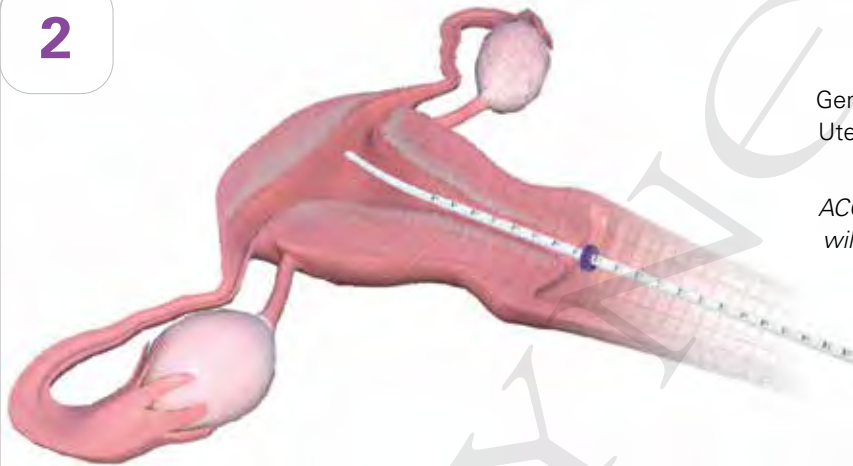

- Assessment of uterine position (anteflexed, retroflexed, or mid-position)
- Laparoscopic tubal occlusion
- Dilatation and curettage (D&C)
- Tubal patency studies
- IUD insertion

1

Gently insert ACCU-SOUND®  
uterine sound's dilating tip into  
the cervical Os.

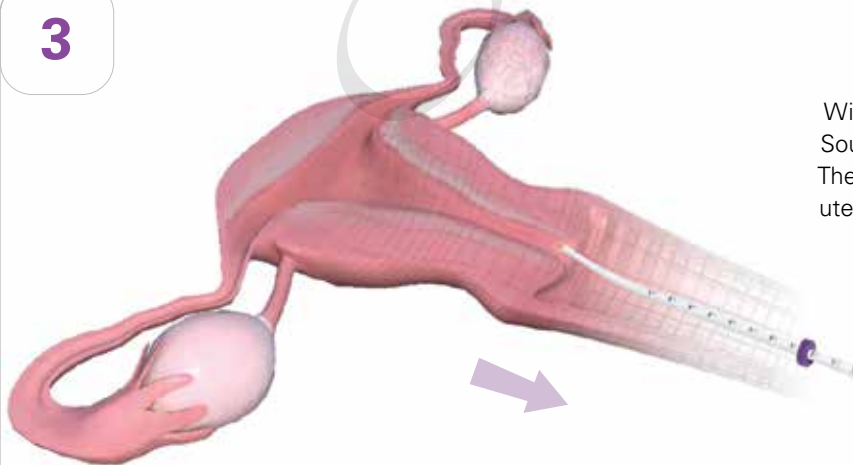

2

Gently advance the ACCU-SOUND®  
Uterine Sound until the back of the  
uterus is felt.

*ACCU-SOUND® Uterine Sound ring  
will rest against the outside of the  
cervical Os.*

3

Withdraw ACCU-SOUND® Uterine  
Sound from the uterus and vagina.  
The ring will remain in place on the  
uterine sound indicating the uterus  
measurement.

## Sims Sound • flex, Single-Use

STERILE EO **Single-Use**

The Suresample<sup>®</sup> Endometrial Sampler has been trusted by doctors for over **25 years**

Our **patented 3-port sampling system** doubles the harvested samples of tested competitors and allows **easy retrieval** with **reduced cell damage**. A much **greater histological adequacy and integrity** than any other samplers. 12 to 1 ratio of histological adequacy and 8 to 3 for histological integrity, Suresample<sup>®</sup> is the finest endometrial sampler.

Suresample<sup>®</sup> formable shaft memory allows the physicians to **pre-shape shaft** to meet each patient's unique physical requirements. Its tensile strength and rigidity make it malleable enough to conform to the direction of the cervix and lower segment, strong enough to access a tight canal. The formable 3mm shaft diameter enhances ease of use and minimizes patient discomfort.

### AMOUNT OF BIOPSY TISSUE

Better performance than other brands

*Suresample<sup>®</sup> Endometrial Sampler retrieves more than twice the harvest of its competition!*

# sure@sample®

## Endometrial Sampler

STERILE EO Single-Use®

Not made with natural rubber latex.

### Features and Benefits

- **3-Port Sampling System** - one port on each side of the distal end of the shaft and one on the tip end.
- **Grip retraction** creates a strong internal vacuum.
- **Two phase action** between the ports and grip produce a higher yield of tissue sample in an amazingly controlled manner.
- **Formable memory shaft** allows physician to shape the sampler to meet each patient's physical requirements.
- **Tensile strength and rigidity** allow conformity but also provide enough strength to access through a smaller canal.
- **No cutting or splitting of tip** (a tedious process required by other widely used samplers that leads to damaged specimen).
- **Quick retrieval process** - simply push the SURESAMPLE® Endometrial Sampler grip back, forcing the specimen out of the open sampler tip and sides.

**Shaft Diameter:** 3mm

**Shaft Length:** 24cm

# Galileo® Colposcope Series

Precision. Access. Performance.

## Reimagining Colposcopy with Direct-Access™ Ergonomics

The Galileo® Colposcope line is built around a patented **Direct-Access™ offset center post**, providing clinicians with unobstructed access to the examination site. Each model integrates German-engineered apochromatic optics, advanced LED illumination, and a sleek cable-free design, delivering exceptional clarity, comfort, and workflow efficiency.

### KEY OPTICAL & PERFORMANCE FEATURES

#### Apochromatic German Optics

- Multi-coated, hand-polished lenses
- High resolution with wide field of view
- Excellent contrast & 3-D image reproduction
- Corrects chromatic aberration and secondary color

#### LED Illumination System

- Accurate, natural color balance
- Cool to the touch
- Long-life LED source
- Light intensity up to >30,000 LUX

#### Integrated Power System

- Low-voltage DC-no fuse replacement
- Fully enclosed cabling for a clean, modern appearance

#### Clinical Visualization Enhancements

- Integrated green filter
- Individual eye-shields
- Observation measurement rings
- Fine & gross height adjustment
- Fine focus and diopter controls

#### Mobility & Base Options

360° Tilt Base

- Smooth, effortless maneuverability
- Ideal for dynamic clinical positioning

5-Wheel Rolling Base

- Locking wheels for stability
- Portable, industry-standard mobility

## Specifications

- Focal Length:  $\pm 300$  mm
- Magnification: 3.75X, 7.5X, 15X

200DA: 7.5X Only

- Field of View: 39 mm
- Depth of Field: 1.13 mm
- Working Height: 975–1135 mm
- Power: 100–240V
- Warranty: 1-year parts & labor

Options (All Models)

- 360° Tilt Base or 5-Wheel Rolling Base
- Extended Warranty Packages

## The Galileo® Design Distinction

- Patented Direct-Access™ center-post engineering
- Multiple international design recognitions
- Recipient of the German Red Dot Concept Design Award

# CO Series Colposcopes

CO4100 • CO3100 • CO1100

Designed to facilitate comprehensive cervical examination with precision, clarity, and ease of use. All CO Series colposcopes feature advanced optics, integrated LED illumination, and a clean, streamlined design for modern clinical environments.

## STANDARD FEATURES (ALL CO SERIES MODELS)

- Multi-Coated, Hand-Polished Apochromatic Lens  
*(Minimizes secondary color and corrects chromatic aberration)*
- Integrated Power Source and Cables  
*(Enclosed in base and post for a clean, clutter-free design)*
- Low Voltage DC Power  
*(Eliminates the need to replace fuses)*
- LED Illumination System  
*(Accurate color balance, cool to the touch, long bulb life)*
- Optical Measurement Rings
- Individual Eye-Shields
- Integrated Green Filter

## MODEL-SPECIFIC FEATURES

### CO4100:

- Three-Step Magnification
- 45° Inclined Optical Viewing Angle

### CO3100:

- Three-Step Magnification

### CO1100:

- Single Magnification (9X)

# Galileo® Medical Exam Light

Experience the ultimate convenience and functionality of the Galileo® Medical Exam Light. Its **flexible neck** and adjustable design allow you to position the light exactly where you need it, providing optimal sharp illumination. Its **durable and aesthetically pleasing** design makes it a smart investment for any medical facility.

With **energy-efficient** LED bulb, the Galileo® Medical Exam Light is not only cost-effective but also long-lasting.

Ideal for hospitals, clinics, and private practices, the Galileo® Medical Exam Light is the perfect addition to any medical setting.

## Brighter and Cost Effective

- Features 1 white 3W LED for precise, high-output lighting
- Boasts a long lifetime of up to 50,000 hours and provides high illuminance of 70,000 Lux at a 200mm working distance
- Consumes less energy than traditional lighting options
- Eliminate the need for frequent bulb replacement

## True-to-Life Color Reproduction

- The lighting is easy on the eyes, providing a comfortable visual experience
- Delivers exceptional color rendering capabilities, ensuring that the illuminated area looks natural and highly contrasted

## Adjustable Spot Size

- Offers adjustable spot size with a diameter ranging from 15mm to 220mm, making it suitable for a wide range of situations and working distances, from 200mm to 1000mm
- Easy to clean, ensuring hassle-free maintenance

## Flexible Goose Neck

- An extremely flexible goose neck can be securely fixed in any position
- Features a two-segment design that allows for bending at any angle and any directions

## Medical Exam Light Accessories

# GYNEX LLETZ ELECTRODES

STERILE EO Single-Use  
Not made with natural rubber latex.

## Why Clinics Choose Gynex LLETZ Electrodes

### Secure Molded Handles

Provide a comfortable, stable grip for improved control.

### Precision Loop Wires

0.20 mm thick loop wire to help reduce backward drag and support smooth, controlled excision.

### HexLoc™ Anti-Rotation System

Prevents handle rotation during procedure.

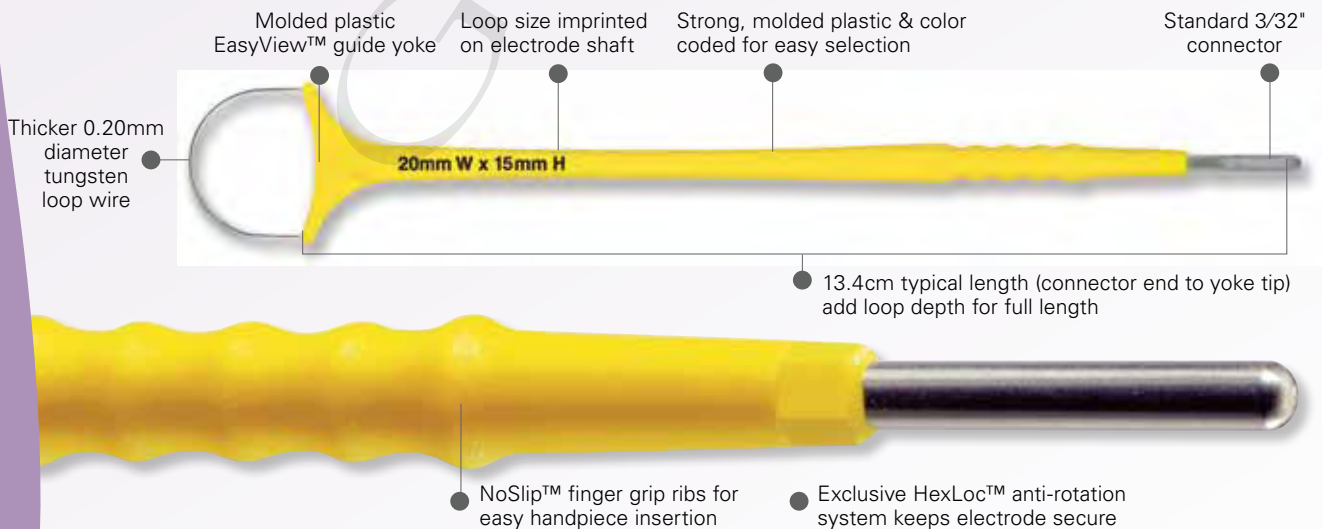

### Protective Packaging

Molded blister tray that maintains the loop's true shape and protects the tip from damage or breakage.

### System Compatibility

Designed to be compatible with commonly used electrosurgical systems.

*Designed for consistent performance and compatibility with common used electrosurgical systems.*

**The Cone Electrode is a LLETZ excisor for precise cone biopsy specimens**

Cone biopsy electrodes allow for smooth rotation, facilitating the removal of precise, cone-shaped specimens. The tungsten linear wires are 0.20mm thick to help reduce backward drag. Molded shaft and stop arm are completely insulated to protect the endocervical canal and underlying vaginal structures.

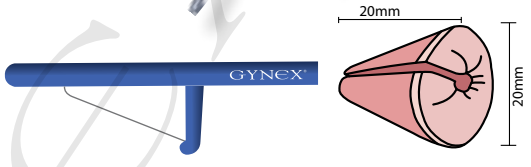

Each electrode is packaged in a molded blister tray which keeps the tip true to shape and protects from breakage.

# Filter, Prefilter and Reducer

for Smoke Evacuation Systems

## Sterile Vacuum Tubing Sets, Single-Use

STERILE EO Single-Use

Not made with natural rubber latex.

Fits most smoke evacuation systems that use 1/2" OD.

The 9'+ tubing is connected to DSE tubing which connects to the speculum as shown in the illustration above.

REF 8200 12 Sets..... **\$219<sup>95</sup>**

## Prefilter Reducer, Single-Use

NON-STERILE Single-Use

Not made with natural rubber latex.

Fits into top of Prefilter (REF 8210), and adapts to .375" ID tubing (REF 8200 Tubing Set)

- Bottom opening is 1.33" OD
- Top opening is .375" OD
- Fits CooperSurgical 6080 Smoke Evacuator, with 8210 Prefilter

REF 8230 Qty 10 ..... **\$57<sup>95</sup>**

## Prefilter, Single-Use

NON-STERILE Single-Use

Not made with natural rubber latex.

- Fits CooperSurgical 6080 Smoke Evacuator
- Top opening is 1.33" ID
- Non-combustible

REF 8210 Qty 10 ..... **\$199<sup>95</sup>**

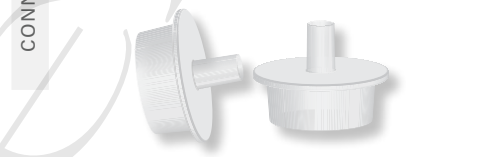

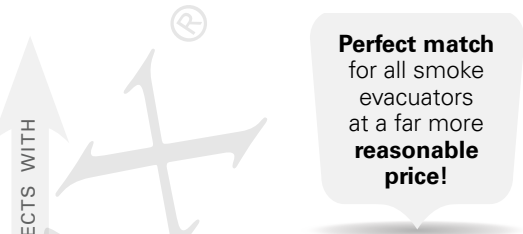

## ULPA Filter, Single-Use

NON-STERILE Single-Use

Not made with natural rubber latex.

- Maximum Life 90 Days
- Fits CooperSurgical 6080 Smoke Evacuator

REF 8215 ..... **\$214<sup>95</sup>** each

# Tubing and Connectors

for LLETZ Procedures

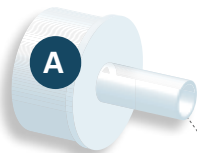

## Tubing Connector

NON-STERILE Single-Use

Not made with natural rubber latex.

Connects Clear-Flue™ to Flexible-S Tubing. 1/4" to 7/8"

REF 8100 Box of 12.... \$27<sup>95</sup>

## Flexible-S Tubing

NON-STERILE Single-Use

Not made with natural rubber latex.

Connects to DSE Tubing. 1/4" ID, 3/8" OD x 2'

REF 8024 Box of 6..... \$49<sup>95</sup>

## DSE Tubing

NON-STERILE Single-Use

Not made with natural rubber latex.

Attaches to specula with smoke evacuation clip.

Non-combustible, No PVC. 1/4" OD x 9"

REF 8009 Box of 50..... \$97<sup>95</sup>

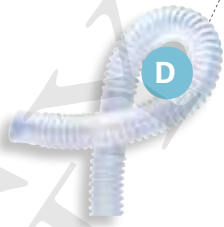

## Clear-Flue™ Tubing

NON-STERILE Single-Use

Not made with natural rubber latex.

Attaches to either Flexible-S Tubing or to Sterile Vacuum Tubing. 7/8" OD x 66"

REF 8072 Qty 24..... \$77<sup>95</sup>

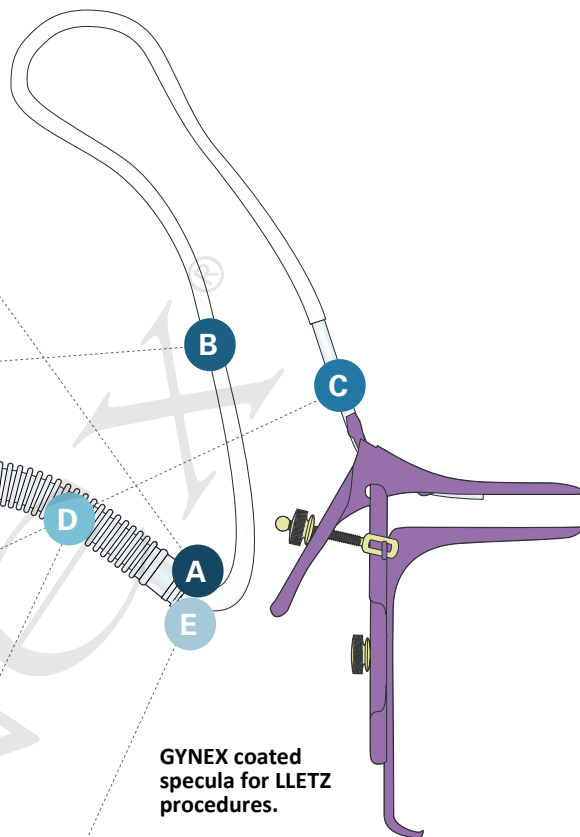

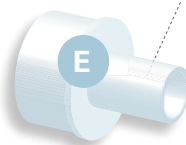

## Tubing Connector

NON-STERILE Single-Use

Not made with natural rubber latex.

Connects Clear-Flue™ to Sterile Vacuum Tubing. 3/8" to 7/8"

REF 8103 Box of 12.... \$29<sup>95</sup>

GYNEX coated specula for LLETZ procedures.

## Sterile Vacuum Tubing Sets, Single-Use

STERILE EO Single-Use

Not made with natural rubber latex.

Fits many popular smoke evacuation systems that use 1/2" OD. The 9'+ tube is connected to DSE tubing which connects to the speculum as shown in the illustration above.

# Vaginal Speculum, LLETZ COATED

## 4-Way Expander Vaginal Speculum

The 4-Way Expander Vaginal Speculum is designed for LLETZ procedures with Gynex's lavender non-conductive coating. It provides a superior view with one instrument as compared to a standard speculum and lateral retractor. The built-in side blades are erected to enhance the view of the cervix as needed.

### Features

- Built-in smoke evacuation tube holder
- Built-in lateral retractor blades
- Side blades lock firmly into place
- Pederson size blades

### Medium

VAGINAL SPECULUM

## Features

- Unique C-Arm maximizes your view
- Easy one handed open and release
- Locks firmly into place

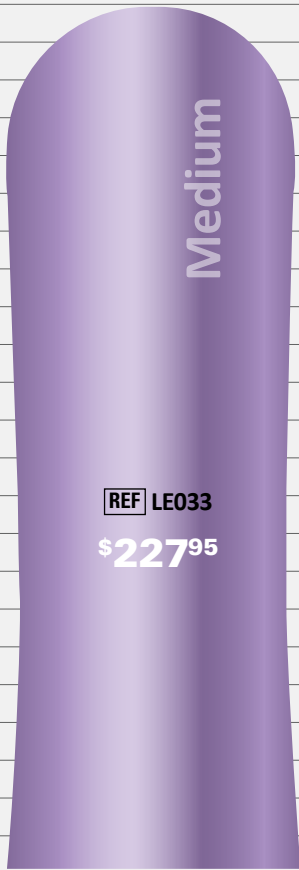

Ideal for bariatric patients

Stainless Steel

Blade Reference Chart: Shown Actual Size, Scale 1:1

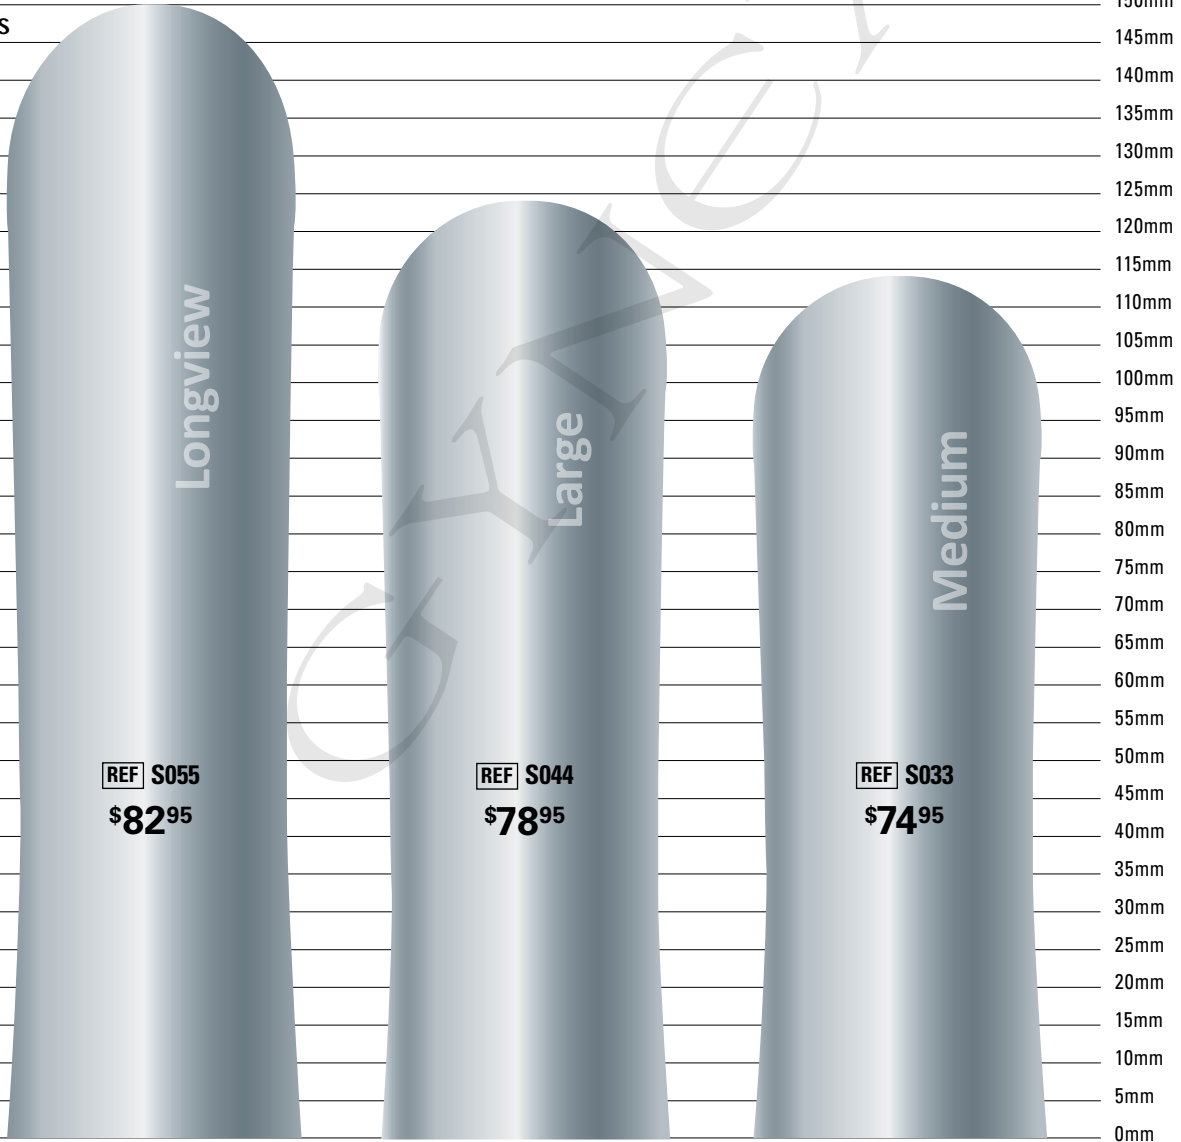

C-Arm is designed to parallel the contour of the patient's leg

No side obstruction like most specula

Graves

5% Discount on Prepaid Orders by Check or ACH payment (offer excludes microscopes, colposcopes and/or extended warranties).

## Lateral Vaginal Retractor

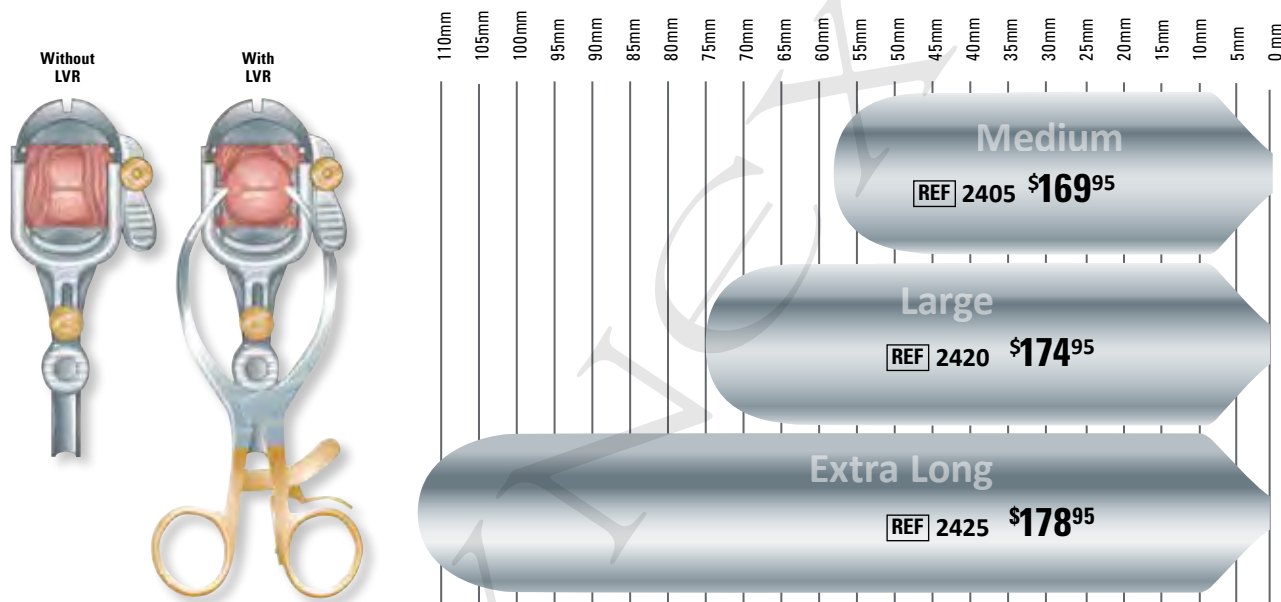

Enhance cervical access and effectively control lateral vaginal wall collapse with the GYNEX® Stainless Lateral Vaginal Retractor. Designed for ease of use and available in a range of practical sizes, it delivers reliable performance during gynecological procedures.

### Features & Benefits

- Compatible with GYNEX® Wide-View™ and FullView™ Specula
- Fits securely within the speculum to improve visualization
- Provides greater access to the cervix
- Durable stainless steel construction for long-lasting use

*Stainless Steel*

Blade Reference Chart: Shown Actual Size, Scale 1:1

## Auvard Weighted Speculum

The Auvard Weighted Speculum is a single-ended vaginal instrument designed for use during procedures such as hysterectomy and dilation and curettage with the patient in the lithotomy position. Its integrated weight maintains stable retraction, allowing for a consistently open surgical field without the need for manual support.

### Features & Specifications

- Single-ended design for optimal surgical access
- Weighted construction ensures hands-free retraction
- Provides a clear, unobstructed view of the operative field
- Fixed weight: 1.4 kg
- Size: 105 mm (L) x 38 mm (W)

REF SA2200 ..... \$299<sup>95</sup>

## Guttman Speculum with Special Blades

An indispensable instrument designed to provide complete visualization of the cervix and vaginal canal. The Guttman Speculum features a unique blade configuration without upper blades, allowing for unobstructed access and enhanced visibility during examination and procedures.

### Features & Benefits

- Innovative design without upper blades for full visualization
- Provides clear access to the cervix and vaginal walls
- Dual separators assist in opening and stabilizing the vaginal canal
- Ideal for enhanced control and precision during procedures

### Medium

REF 2310 Top Separator: 82mm ..... **\$72<sup>95</sup>**

### Large

REF 2312 Top Separator: 92mm..... **\$72<sup>95</sup>**

## Greenberg Hysteroscopy Speculum

The Greenberg Hysteroscopy Speculum is a modified, open-sided Graves-style speculum designed to enhance efficiency during hysteroscopic procedures. Its shorter blades and open-side design allow instruments to be removed while still within the vaginal canal, minimizing disruption during use.

Engineered to bring the cervix closer to the provider, this speculum reduces the length of unsupported hysteroscope shaft entering the cervical canal, improving control and procedural precision.

### Features & Benefits

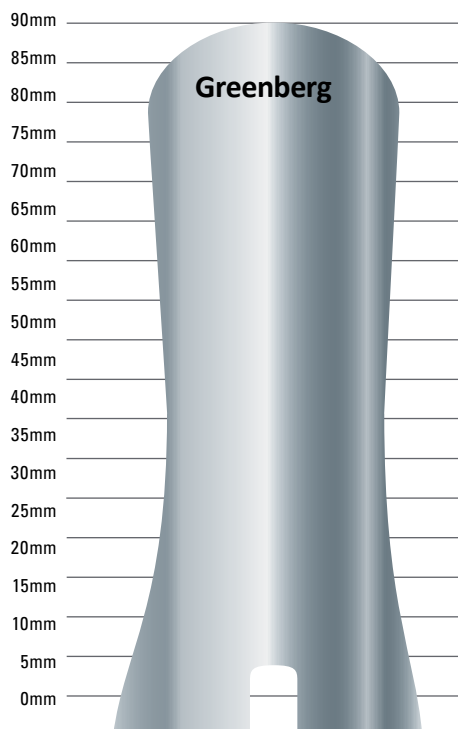

- Modified open-sided Graves design for improved access
- Shorter blades for enhanced maneuverability
- Allows instrument removal without full withdrawal
- Positions the cervix closer to the provider
- Improves stability and control of the hysteroscope

REF 2801 ..... **\$62<sup>95</sup>**

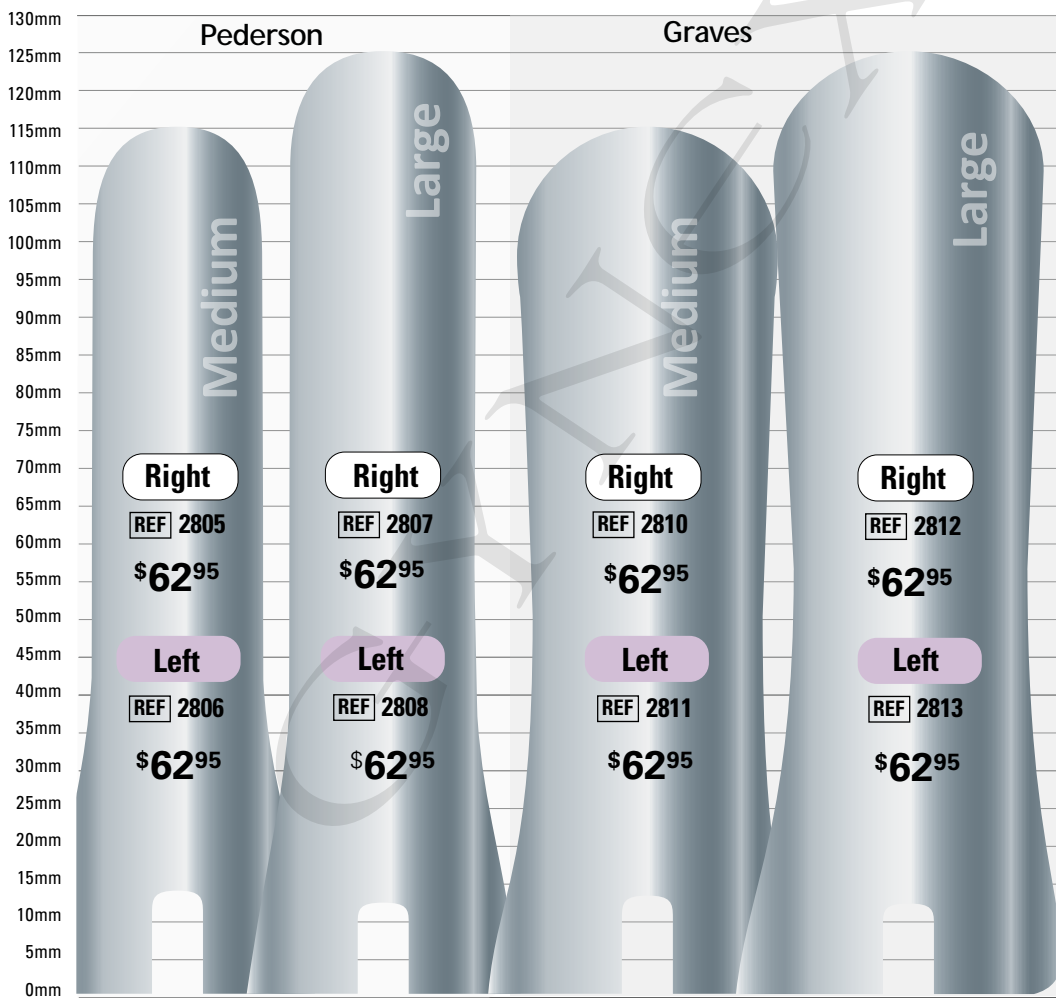

*"The shorter blades bring the external os about 30% closer to the introitus and make access to the cervix dramatically easier in almost every facet of surgical cases in which a speculum is used."*

**James Greenberg, MD, - Boston, MA**

# Open-Sided Stainless Steel Speculum

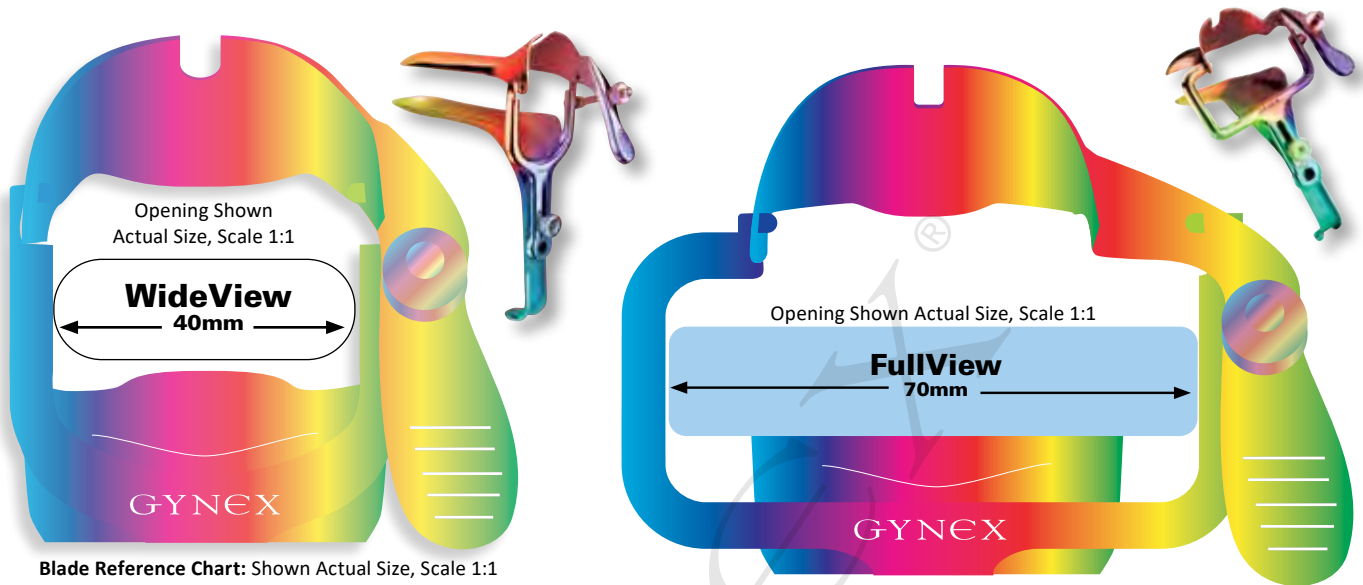

Left and Right Opening

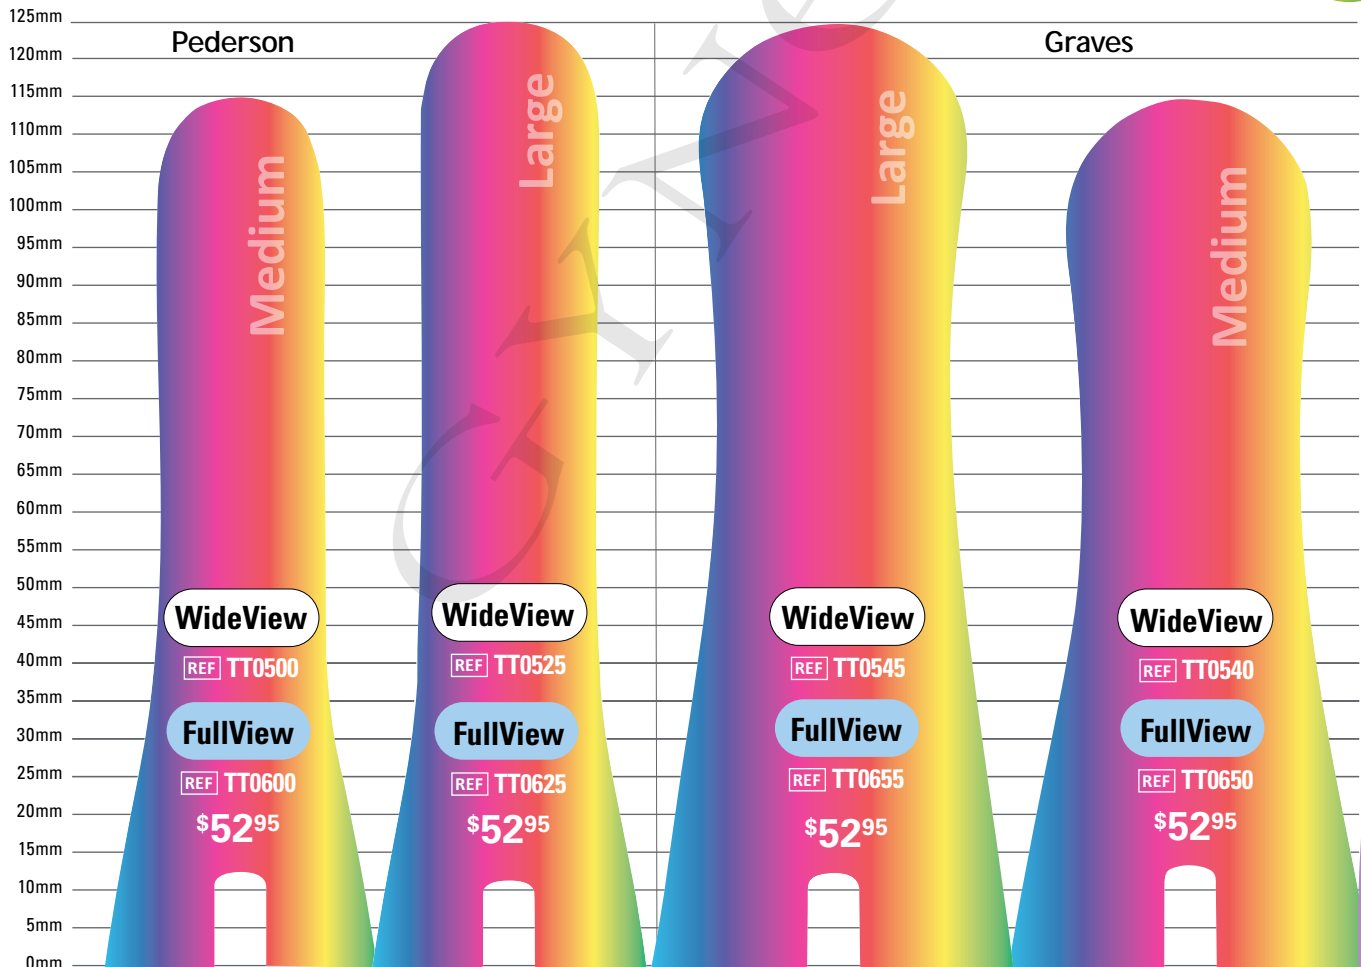

**Note:** Blade length is measured from top center of back of blade to end of distal tip. In most cases, the bottom speculum blade will protrude and appear to be longer. Mechanical assembly of a speculum simply places the bottom blade in a more forward position. Although the two blades are normally similar in length, they may vary a few millimeters from lot to lot.

# Titanium Rainbow™ Speculum

Exclusive Titanium Rainbow™ coating extends the life of instruments over traditional stainless-steel. The titanium coated speculum offers increased resistance to corrosion, resilience against impact and low friction coefficient. Titanium Rainbow™ is available in two viewing widths for Pederson and Graves.

Blade Reference Chart: Shown Actual Size, Scale 1:1

5% Discount on Prepaid Orders by Check or ACH payment (offer excludes microscopes, colposcopes and/or extended warranties).

### pH 7.5

- Low to no serum estradiol

# Instrument Care and Cleaning

## Touch-Guard® Hot Beads

### Sterilization Beads

- Touch-Guard® Hot Beads provide a safe, effective and convenient way to sterilize surgical instruments.
- No need for potentially dangerous gases, flames, or chemicals to achieve sterilization.
- The specially cast “no-lead” glass beads transmit heat properly and remain intact at high temperatures.
- Simply plunge metal instruments into the hot glass beads for instant sterilization.
- Touch-Guard® Hot Beads are free of pathogens and microbial contaminants.
- Pre-measured containers make it easy to use the right amount of beads for each sterilization cycle.

## Touch-Guard® Stain-Ex™

### Biological & Chemical Stain Remover

- Touch-Guard® Stain-Ex™ is a fast and effective biological and chemical stain remover.
- It removes a variety of stains, including Iodine-based stains, Lugol's stain, and medical/histological stains.
- It can be used on a range of surfaces, including hands, glassware, stainless steel, plastic, counters, floors, lab coats, laboratory equipment, and hospital linen.
- Touch-Guard® Stain-Ex™ works great on LLETZ-coated instruments.
- Application is easy, and stains are removed quickly (in a matter of seconds).

## Touch-Guard® Low Suds

### Liquid Instrument Detergent Concentrate

Touch-Guard® Low Suds Liquid Instrument Detergent Concentrate is used for effectively and safely cleaning all surgical instruments, plastic, glassware, and rubber tubing. Formulated for use in automatic washers, ultrasonics, washer-sterilizers, and manual cleaning.

- Neutral pH detergent with powerful sequestering and emulsifying agents
- Fast wetting, odorless, non-sudsing, maintains high detergency
- Removes protein, blood, tissue, fat and any organic soils
- No residue - no pyrogens; leaves a surgically clean surface
- Exceptional cleaning in hard, soft, cold or hot water
- Biodegradable; contains no phosphates or NTA
- Free rinsing, non-enzymatic formulation
- Safe for ophthalmic cleaning

# Touch-Guard® Lubricant

## Instrument Lubricant and Rust Inhibitor

Touch-Guard® Instrument Lubricant and Rust Inhibitor protects and extends the life of all your surgical instruments. Clinically tested to be thoroughly steam penetrable, steam sterilizable and ETO sterilizable. When used daily as a rinse after cleaning, it will keep your instruments moving parts operating smoothly and remain effective even after autoclaving, without any oily residue.

- Reduces repair and replacement cost
- Prevents rust, spots, stains and corrosion
- Restores articulation to sticky box-locks and joints
- Withstands high temperatures ad autoclaving
- Steam penetrable, sterizable and ETO sterilizable
- Non-oily, non sticky, non-toxic, water-soluable and silicone free

**Toll Free: (888) 486-4644**  
(8:00AM–5:30PM CDT)

**Selling Notice:**

All products are limited to purchase by licensed medical practitioners, physician and medical facilities. In most cases, we do not sell to the general public.

**Warranty:**

All hand-held instruments in this catalog are warranted to be free from defects in materials and workmanship for a period of two (2) years from the date of purchase, unless otherwise specified. LLETZ instruments carry a limited warranty of six (6) months from the date of purchase. Customers who believe an instrument is defective must return it to GYNEX for evaluation. Products determined to be defective will be repaired or replaced with the same or a comparable product at the discretion of GYNEX Customer Service. This warranty is void if any instrument has been repaired, modified, or sharpened by anyone other than GYNEX. All GYNEX biopsy punches in this catalog will be sharpened free of charge for one (1) year from the date of purchase, provided sufficient material remains on the tip to allow sharpening. This warranty does not cover normal maintenance, cleaning, or sharpening resulting from regular use, except as noted above for biopsy punches. Damage caused by misuse, improper handling, inadequate care, exposure to chemicals, loss, or theft is not covered. Shipping charges are not included under the free sharpening warranty or any extended equipment warranty.

**Return Policy:**

All hand-held instruments in this catalog are warranted to be free of defects in manufacturing materials and workmanship for two (2) years from date of purchase. LLETZ instruments featuring a non-conductive coating are warranted against defects specifically related to coating integrity for a period of six (6) months from the original date of purchase. Customers who feel an instrument is defective must return it to GYNEX for evaluation. Products found to be defective will either be repaired or replaced with the same or comparable product, at the discretion of GYNEX Customer Service. Warranty on any hand-held GYNEX instrument is voided if instrument is repaired or sharpened by anyone other than GYNEX. All GYNEX biopsy punches

in this catalog will be sharpened free of charge for one year from date of purchase (if enough metal is remaining on tip to allow sharpening). Warranties do not cover general maintenance, cleaning or sharpening needs that result from normal use, except as noted above regarding biopsy punch sharpening. Damages caused by normal wear and abrasion, mechanical abuse, impacts, misuse, improper care, cleaning, chemicals, or loss and theft are not covered by this warranty. Shipping charges are not covered for free sharpening warranty nor extended equipment warranty.

**The following items may be returned:**

- Product with RMA number
- All returns must be made within 30 days of the item receipt (except for warranty).
- Product with unbroken seals, with labels intact, in original container and packaging
- Unused instruments which have not been cleaned or sterilized
- Single-Use<sup>®</sup> product (sterile) in original, unopened package
- Product damaged in shipment\*
- Product that has at least 12 months remaining shelf life as determined by the expiration date
- Instruments damaged, broken or not working properly due to defects in material or workmanship

*\*Note: Product returned due to error or damage in shipping must be reported to customer service within 72 hours of receipt. Damaged product must be accompanied by a written explanation noting damage.*

**The following items may not be returned:**

- Product without RMA number
- Product that has been improperly handled or stored
- Product that is marked, coded, dated, damaged, soiled or adulterated in any way (except standard cleaning and sterilization procedures for reusable instruments)
- Product damaged by or exposed to heat, fire, smoke, high humidity or water (except standard cleaning and sterilization procedures for reusable instruments)

**Restocking Charge:**

A 15% restocking charge applies to all returned product, unless the return is due to error in shipment, product damaged in shipment, or product returned for repair or replacement due to defect in material or workmanship.

**Disclaimer:**

All prices in this catalog are subject to change without notice. All sizes indicated may vary slightly, due to differences between manufacturers. In order to carry sufficient inventory, it is necessary for GYNEX to purchase from different manufacturers. As a result, final products may not be the exact sizes as shown in charts, drawings or photos. The advertisements and information in this catalog may contain typographical errors or inaccuracies and may not be complete or current. GYNEX therefore reserves the right to correct any errors, inaccuracies, or omissions and change or update information at any time without prior notice. Please note that such errors, inaccuracies, or omissions may relate to pricing or availability. We reserve the right to refuse to honor offers or terms, which contain error or inaccuracies.

**Force Majeure:**

Neither party shall be liable for any failure or delay in delivery of goods, or in otherwise fulfilling its obligations with respect to the sale of goods to the other which results from any cause beyond its reasonable control, including disruption or delays in a common carrier's transportation schedule, compliance with any regulations, orders, acts, instructions, or priority requests of any national, state or municipal government, or any department or agency thereof, or any civil or military authority, or from acts of God, fires, or other casualty of accidents, strikes, lockouts, factory shutdowns, embargoes, riots, or other disorders, delays or shortages in transportation, or inability to obtain in sufficient quantity fuel, power, labor, manufacturing facilities or materials or other supplies from the usual sources of GYNEX. Not with standing the foregoing, in the event a party is unable to perform as a result of such force majeure event for a period exceeding sixty (60) days, the other party may, at its option, terminate its purchase order or commitment to sell the goods and neither party shall have any further liability hereunder other than for past services rendered and goods sold.

## Shipping from:

6631 Browning Drive,  
North Richland Hills, TX 76180

**5% Discount**  
on Prepaid Orders  
by Check or ACH Payment  
(offer excludes microscopes, colposcopes and/or extended warranties).

WE ACCEPT

**Toll Free: (888) 486-4644**  
(8:00AM-5:30PM CDT)

**Fax: (425) 895-0115**

**E-mail: [service@gynex.com](mailto:service@gynex.com)**

**Web: [www.gynex.com](http://www.gynex.com)**

**Terms:** Net 30 Days on open approved accounts. 1.0% finance charge per month shall apply on all past due accounts. International accounts require prepayment. New accounts may require prepayment with first order.

**Shipping:** FOB North Richland Hills, Texas. Normal shipping via UPS or FedEx Ground, and charges for shipping and handling are added to the order total. Expedited delivery (Next Day, 2nd Day, 3rd Day) available for additional charge.

**Note:** Pre-paid shipping charges of \$17.50, do not apply to Alaska, Hawaii, Puerto Rico, the Virgin Islands and other U.S. Islands, international orders or orders including colposcopes and medical exam lights. An additional custom fee may apply for the Virgin Islands and other U.S. Islands, and international orders. A handling fee will apply to orders that use customer's own shipping account.

**Partial Shipments:** We reserve the right to make partial shipments against orders and the amounts for such partial shipments will become due and payable upon receipt unless otherwise agreed to in writing by GYNEX.

**5% Discounts:** Customers may deduct an additional 5% off their total order when payment is made by check or ACH at the time of purchase. Credit card payments and COD orders do not qualify for this discount. This discount does not apply to Microscopes, Colposcopes and/or extended warranties and some specials where products are already discounted. This discount cannot be combined with other discounts.

**Warranties Returns and Disclaimers:** All information concerning these GYNEX policies are detailed on page 94 of this catalog.

**Missing Merchandise Policy:** GYNEX personnel have taken great care to pack your order. Each LOT number indicated in the first column on the Packing List corresponds with and was scanned from the product packed in this box. Quantities were verified in this manner. Back orders are clearly marked, and do not have a LOT number indicated. If anything is missing from your package, the customer is responsible for notifying GYNEX within 24 hours of the customer's receipt of package.
