Where Strength Meets Control

Introducing the **New Tischler Vaginal Speculum** featuring a non-slip height adjustment dial and reinforced yoke.

Fall 2026

QUALITY

Derek says . . .

As we prepare for another fall season, we would like to sincerely thank you for your continued support and trust in Gynex. Your loyalty has allowed us to grow, innovate, and continue developing dependable products that support women's healthcare professionals and their patients. We are truly grateful for the opportunity to serve your practice.

This fall, we are excited to introduce the new Tischler Vaginal Speculum, designed to deliver strength and precision beyond that of a traditional stainless steel speculum. Learn about all the benefits of the **Tischler**

Speculum on page 4-5 of this catalog.

In addition, we are proud to introduce our new **Curved Alligator Grasper** on page 30 and **45° Angled Open-Sided Speculum** on page 6. These additions further expand our growing product line and reflect our continued commitment to providing practical, innovative solutions that meet the evolving needs of women's healthcare professionals.

Thank you again for choosing Gynex and allowing us to be a trusted partner in your practice. We deeply appreciate your continued business, confidence, and loyalty. Your support inspires us to keep improving, innovating, and providing high-quality solutions for women's healthcare.

Warm regards,

A handwritten signature in dark ink that reads "Derek Mancini". The script is fluid and cursive.

Derek Mancini, MBA

Lugol's Strong Iodine Solution

Lugol's Solution is an aqueous iodine and potassium iodide preparation commonly used as a topical diagnostic aid in medical procedures. It enhances visualization of epithelial tissue by temporarily staining glycogen-rich areas, helping clinicians identify abnormal or suspicious regions during examinations.

- Box of 12 Individual - 8ml vials
- 12 rayon-tipped applicator swabs
- Single-Patient-Use ⓘ

Reliable, effective, and easy to apply.

Lugol's Solution is an essential adjunct for accurate tissue assessment in clinical settings.

NOTE: This product may only be purchased and used by individuals with an active DEA registration in accordance with applicable federal regulations.

REF 5056

Box of 12 **\$137⁹⁵**

Monsel's

Ferric Sub sulfate Paste 20-22%

Monsel's is a pre-thickened formulation of the popular hemostatic agent. Apply directly to the surgical site following excision of tissue.

- Box of 12 Individual - 8ml vials
- 12 rayon-tipped applicator swabs
- Single-Patient-Use ②

REF 5055 Box of 12 **\$214⁹⁵**

Controls bleeding after biopsy, LLETZ and laser procedures.

Acetic Acid 5%

- Box of 12 Individual - 12ml vials
- 12 rayon-tipped applicator swabs
- Single-Patient-Use ②

REF AA312 Box of 12 **\$98⁹⁵**

Helps enhance the appearance of abnormal areas.

TISCHLERTM

VAGINAL SPECULUM

Graves / Pederson

New

A New Era In Vaginal Access:

Where Classic Design Meets Cutting-Edge Engineering

NON-SLIP HEIGHT ADJUSTMENT DIAL

Enables smooth, secure, and precise vertical control during procedures.

REINFORCED YOKE

Provides unmatched structural strength and durability under clinical conditions.

ENHANCED VISUALIZATION

Optimized blade geometry improves line of sight for exams and procedures.

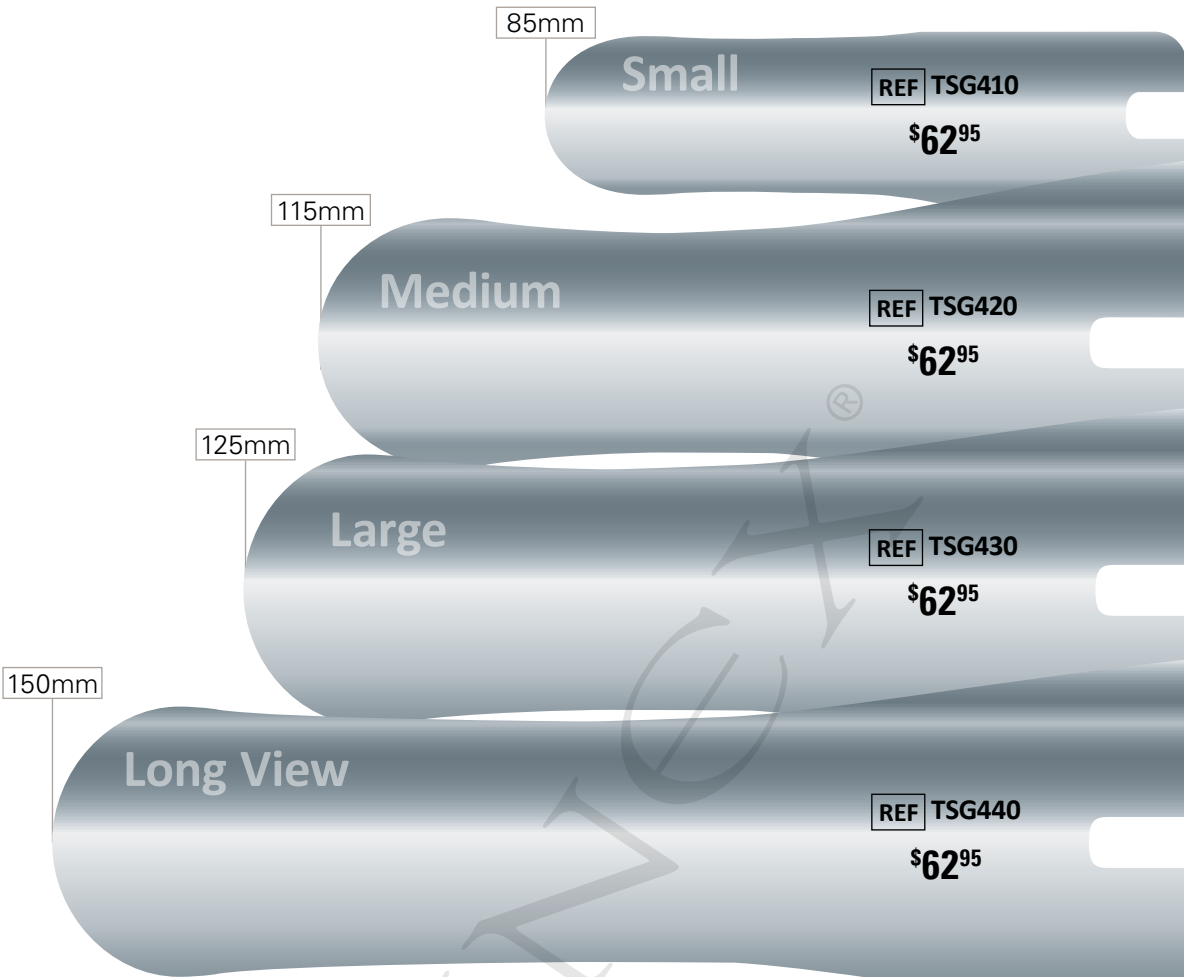

DESIGNED FOR CLINICAL PRECISION

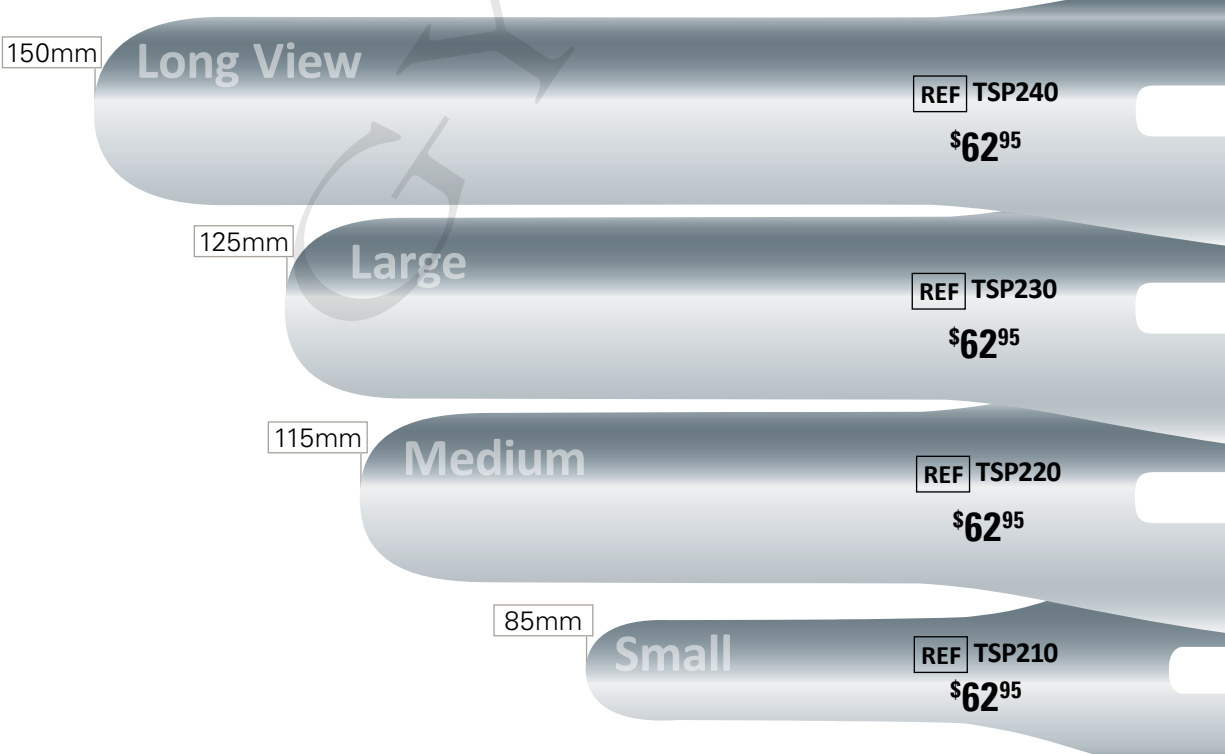

Every element, from grip to adjustment mechanism, is shaped by feedback from OB/ GYN professionals to deliver performance that feels intuitive, secure, and dependable.

Graves

Pederson

4-Way Expander Vaginal Speculum

New

The 4-Way Expander Vaginal Speculum provides a superior view with one instrument as compared to a standard speculum and lateral retractor. The built-in side blades are erected to enhance the view of the cervix as needed.

LARGE

REF S4LEX 125mm **\$114⁹⁵**

MEDIUM

REF S4MEX 115mm **\$109⁹⁵**

Features

- Built-in lateral retractor blades
- Side blades lock firmly into place
- Pederson size blades

45° Angled Open-Sided Speculum

New

Designed to provide enhanced visualization and access during gynecological examinations and procedures. The 45° angled configuration offers an alternative approach when positioning or anatomy makes a traditional straight speculum less convenient, while the open-sided right design provides additional working access.

PEDERSON

CERAMIX™ Biopsy Punches

Our sharpest, longest lasting biopsy punch

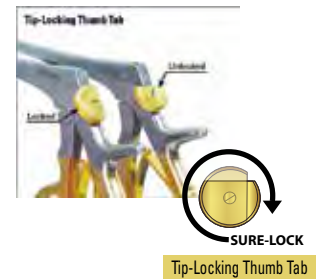

CERAMIX™ coated biopsy punches offer increased resistance to corrosion and resilience against impact and low friction coefficient results on the market. **Sharper up to 10 times longer** than ordinary stainless steel with incomparable cutting-edge hardness.

See Hardness Comparison Chart below.

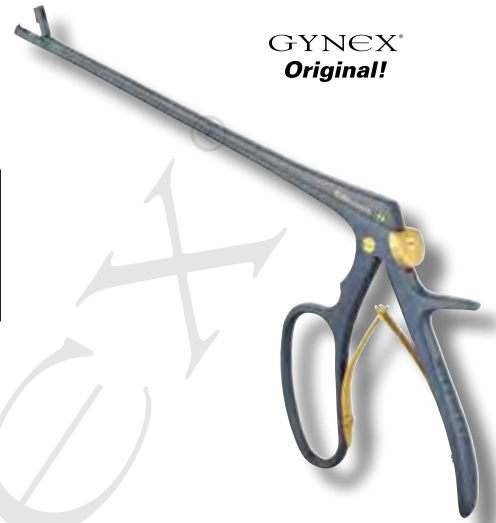

Hardness Comparison Chart

METAL	(HV 0.05)	COATED METAL	(HV 0.05)
Stainless Steel	550	Titanium Nitride	2900
Tungsten Carbide	650	CERAMIX Coating	4500

Vickers Hardness Test - HV/0.05 meaning a 50g load was used.

RotoTIP™ Biopsy Punch, STAINLESS

RotoTIP™ rotating biopsy punches offers the added convenience of changing the biopsy tip size and shape without the expense of having additional complete biopsy punches. With a single handle, you can have several tips available. Although the Standard Tip Tischler and the Mini-Tischler are the most popular, this design provides you a cost savings option to add angled tips. These tips easily rotate, allowing you to gain better positioning for a biopsy sample.

Features

- Shaft/tip can be rotated 360°
- Shaft/tip assembly is interchangeable
- Lower cost alternative to individual biopsy punches

Lickrish Spiral Currettes

Dilator • Curette

The innovative Endocervical Lickrish Spiral Dual-Purpose Curette was developed by Dr. Gordon M Lickrish, former director of the colposcopy unit at University Health Network in Toronto. The spiral design is ideal for addressing cases of severe cervical stenosis and narrow endocervical canals, allowing for gentle insertion, dilation, and precise tissue sampling when standard curettes are inadequate. The tip can be gently guided through the Os while simultaneously advancing and rotating.

Word Bartholin Catheter Kit

STERILE EO Single-Use

Not made with natural rubber latex.

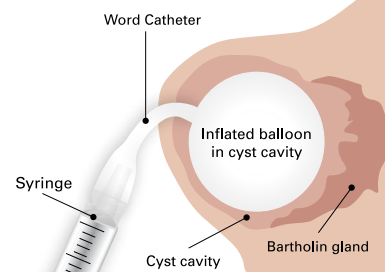

The Word Bartholin Catheter Kit contains everything you need for an effective office treatment of Bartholin gland abscesses and cysts providing patients with immediate relief.

Each Kit Contains:

- (1) Silicone inflatable catheter
- (1) Scalpel
- (1) 3cc Syringe w/24 GA Needle

REF 10-200 Box of 2 kits \$69⁹⁵

Outpatient Treatment for Bartholin gland cysts and abscesses.

Insertion of an inflatable balloon is a non-surgical procedure that can be performed as an outpatient using a local anaesthetic injection to numb the area. It involves making a passage from the cyst or abscess through which the pus can drain over 4 weeks.

New

Corson Myoma Polyp Grasping Forceps

Experience precision and reliability with our Polyp Grasping Forceps, designed for superior performance in polyp removal procedures. Engineered with high-quality stainless steel, these forceps ensure exceptional durability and longevity.

Key Features:

- Precision Grip: Fine-tipped design for secure and accurate grasping of polyps.
- Ergonomic Handle: Comfortable, non-slip grip reduces hand fatigue during extended use.
- Enhanced Control: Smooth operation for seamless maneuverability in delicate procedures.

Precise Grasping, Retrieval & Controlled Manipulation

The Gynex® Alligator Grasper is designed for precise grasping, retrieval, and manipulation of tissue or foreign material during gynecological procedures, including IUD string retrieval and intrauterine manipulation. Serrated alligator-style jaws provide a firm, controlled grip while minimizing tissue trauma. Crafted from surgical-grade stainless steel for durability and reliable performance, the grasper features smooth jaw alignment and a slender shaft for controlled access and enhanced maneuverability within the cervical canal and uterine cavity. Designed for accuracy and ease of use, it provides clinicians with precise, controlled handling during diagnostic and operative procedures.

Hormonal Implant Dissecting Forceps

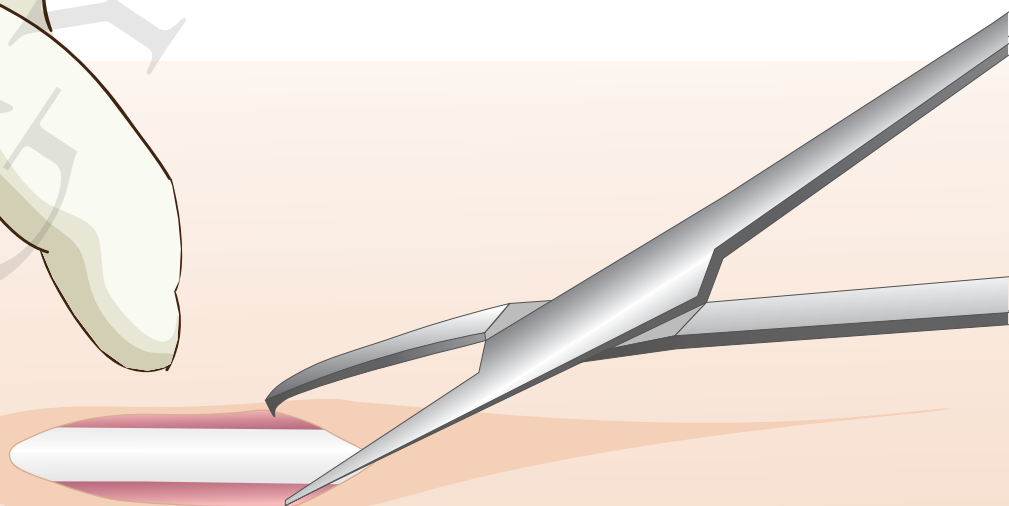

The Villa™ Hormonal Implant Dissecting Forceps and Implant Remover make the perfect pair in the event that an implant is not visible upon incision. After making an incision, some implants remain difficult or impossible to view. If this is the case, the dissecting forceps, with pointed tip, can be opened and closed to separate the tissue encapsulating the implant. This will allow the remover to grasp, hold, and retract the implant.

Uterine Sounds

ACCU-SOUND® Uterine Sound, Single-Use

STERILE EO Single-Use ®

Not made with natural rubber latex.

The ACCU-SOUND® Uterine Sound features a simple yet innovative design that eliminates the guesswork associated with traditional uterine sounds. During insertion, the adjustable ring rests against the external cervical Os. Upon withdrawal, the ring remains in place to clearly indicate uterine depth for accurate measurement.

Length: 24cm

Shaft Diameter: 3mm

REF 4950 Box of 25 **\$82⁹⁵**

ACCU-SOUND®
uterine sound w/measure ring

Not Shown at Actual Size

No more guesswork!

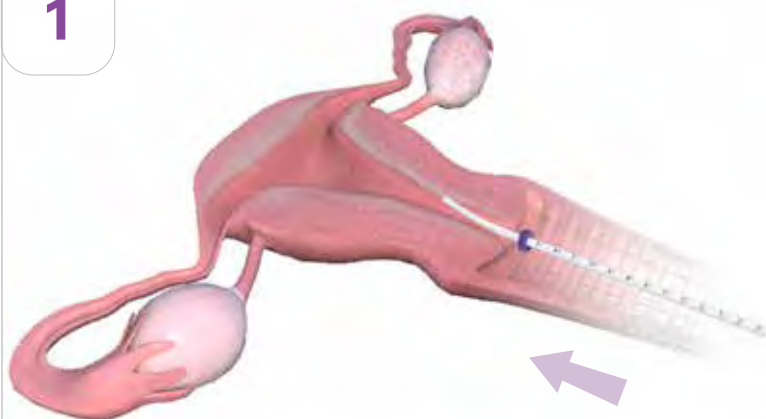

An accurate measurement is indicated by the location of the ring on the ACCU-SOUND® Uterine Sound.

Indicated for use in both surgical and non-surgical procedures, including:

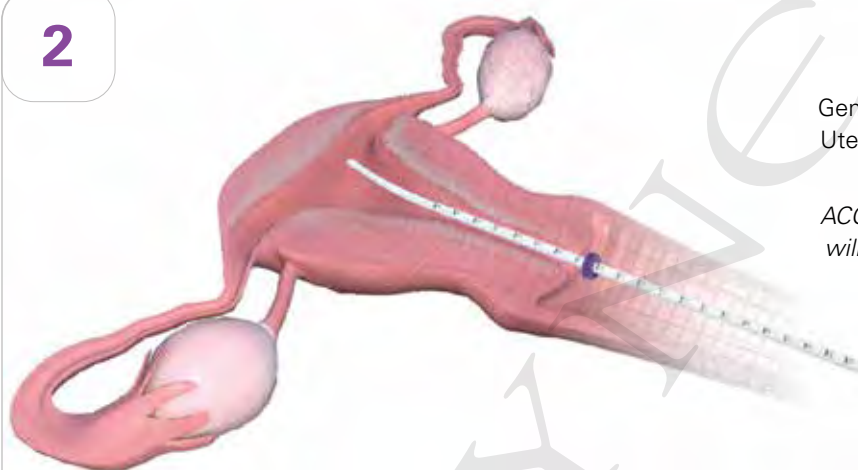

- Assessment of uterine position (anteflexed, retroflexed, or mid-position)
- Laparoscopic tubal occlusion
- Dilatation and curettage (D&C)
- Tubal patency studies
- IUD insertion

1

Gently insert ACCU-SOUND®
uterine sound's dilating tip into
the cervical Os.

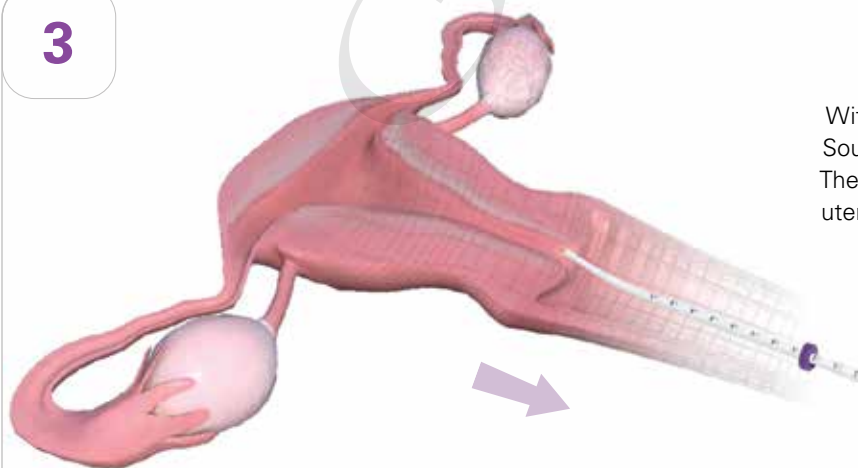

2

Gently advance the ACCU-SOUND®
Uterine Sound until the back of the
uterus is felt.

*ACCU-SOUND® Uterine Sound ring
will rest against the outside of the
cervical Os.*

3

Withdraw ACCU-SOUND® Uterine
Sound from the uterus and vagina.
The ring will remain in place on the
uterine sound indicating the uterus
measurement.

TWIST AND LOCK PLUNGER

The twist-and-lock plunger on the syringe allows the provider to maintain a constant vacuum pressure while collecting the specimen

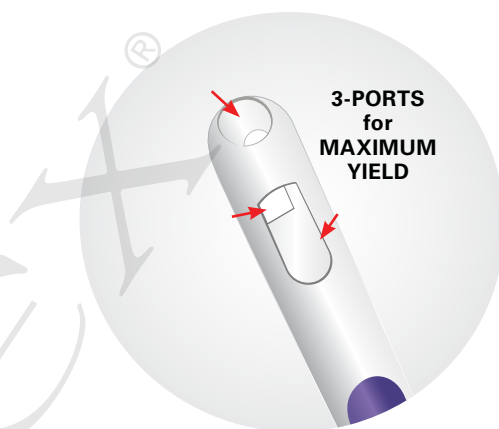

The endometrial sampler with a proven track record!

suresample® Endometrial Sampler

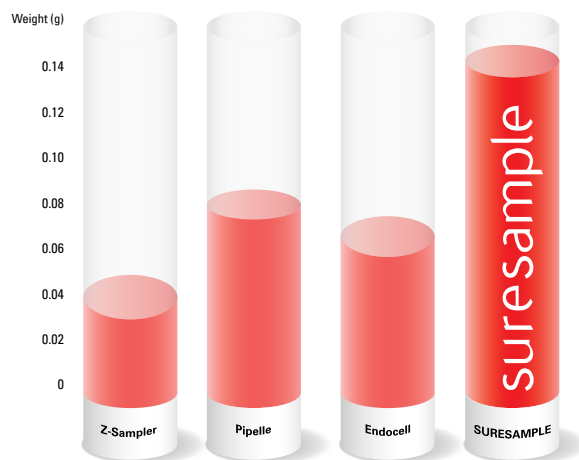

The Suresample® Endometrial Sampler has been trusted by doctors for over 25 years

Our **patented 3-port sampling system** **doubles the harvested samples of tested competitors** and allows **easy retrieval** with **reduced cell damage**. A much **greater histological adequacy and integrity** than any other samplers. 12 to 1 ratio of histological adequacy and 8 to 3 for histological integrity, Suresample® is the finest endometrial sampler.

Suresample® formable shaft memory allows the physicians to **pre-shape shaft** to meet each patient's unique physical requirements. Its tensile strength and rigidity make it malleable enough to conform to the direction of the cervix and lower segment, strong enough to access a tight canal. The formable 3mm shaft diameter enhances ease of use and minimizes patient discomfort.

AMOUNT OF BIOPSY TISSUE

Better performance than other brands

Suresample® Endometrial Sampler retrieves more than twice the harvest of its competition!

sure@sample®

Endometrial Sampler

STERILE EO Single-Use ®
Not made with natural rubber latex.

Features and Benefits

- **3-Port Sampling System** - one port on each side of the distal end of the shaft and one on the tip end.
- **Grip retraction** creates a strong internal vacuum.
- **Two phase action** between the ports and grip produce a higher yield of tissue sample in an amazingly controlled manner.
- **Formable memory shaft** allows physician to shape the sampler to meet each patient's physical requirements.
- **Tensile strength and rigidity** allow conformity but also provide enough strength to access through a smaller canal.
- **No cutting or splitting of tip** (a tedious process required by other widely used samplers that leads to damaged specimen).
- **Quick retrieval process** - simply push the SURESAMPLE® Endometrial Sampler grip back, forcing the specimen out of the open sampler tip and sides.

Galileo® Colposcope Series

Precision. Access. Performance.

Reimagining Colposcopy with Direct-Access™ Ergonomics

The Galileo® Colposcope line is built around a patented **Direct-Access™ offset center post**, providing clinicians with unobstructed access to the examination site. Each model integrates German-engineered apochromatic optics, advanced LED illumination, and a sleek cable-free design, delivering exceptional clarity, comfort, and workflow efficiency.

KEY OPTICAL & PERFORMANCE FEATURES

Apochromatic German Optics

- Multi-coated, hand-polished lenses
- High resolution with wide field of view
- Excellent contrast & 3-D image reproduction
- Corrects chromatic aberration and secondary color

LED Illumination System

- Accurate, natural color balance
- Cool to the touch
- Long-life LED source
- Light intensity up to >30,000 LUX

Integrated Power System

- Low-voltage DC-no fuse replacement
- Fully enclosed cabling for a clean, modern appearance

Clinical Visualization Enhancements

- Integrated green filter
- Individual eye-shields
- Observation measurement rings
- Fine & gross height adjustment
- Fine focus and diopter controls

Mobility & Base Options

360° Tilt Base

- Smooth, effortless maneuverability
- Ideal for dynamic clinical positioning

5-Wheel Rolling Base

- Locking wheels for stability
- Portable, industry-standard mobility

Specifications

- Focal Length: ± 300 mm
- Magnification: 3.75X, 7.5X, 15X

200DA: 7.5X Only

- Field of View: 39 mm
- Depth of Field: 1.13 mm
- Working Height: 975–1135 mm
- Power: 100–240V
- Warranty: 1-year parts & labor

CO Series Colposcope Series

CO4100 • CO3100 • CO1100

Designed to facilitate comprehensive cervical examination with precision, clarity, and ease of use. All CO Series colposcopes feature advanced optics, integrated LED illumination, and a clean, streamlined design for modern clinical environments.

STANDARD FEATURES (ALL CO SERIES MODELS)

- Multi-Coated, Hand-Polished Apochromatic Lens
(Minimizes secondary color and corrects chromatic aberration)
- Integrated Power Source and Cables
(Enclosed in base and post for a clean, clutter-free design)
- Low Voltage DC Power
(Eliminates the need to replace fuses)
- LED Illumination System
(Accurate color balance, cool to the touch, long bulb life)
- Optical Measurement Rings
- Individual Eye-Shields
- Integrated Green Filter

MODEL-SPECIFIC FEATURES

CO4100:

- Three-Step Magnification
- 45° Inclined Optical Viewing Angle

CO3100:

- Three-Step Magnification

CO1100:

- Single Magnification (9X)

SPECIFICATIONS (CO SERIES)

Focal Length (All Models): ± 316 mm

Light Intensity (All Models): >25,000 LUX

Galileo® Medical Exam Light

Experience the ultimate convenience and functionality of the Galileo® Medical Exam Light. Its **flexible neck** and adjustable design allow you to position the light exactly where you need it, providing optimal sharp illumination. Its **durable and aesthetically pleasing** design makes it a smart investment for any medical facility.

With **energy-efficient** LED bulb, the Galileo® Medical Exam Light is not only cost-effective but also long-lasting.

Ideal for hospitals, clinics, and private practices, the Galileo® Medical Exam Light is the perfect addition to any medical setting.

Brighter and Cost Effective

- Features 1 white 3W LED for precise, high-output lighting
- Boasts a long lifetime of up to 50,000 hours and provides high illuminance of 70,000 Lux at a 200mm working distance
- Consumes less energy than traditional lighting options
- Eliminate the need for frequent bulb replacement

True-to-Life Color Reproduction

- The lighting is easy on the eyes, providing a comfortable visual experience
- Delivers exceptional color rendering capabilities, ensuring that the illuminated area looks natural and highly contrasted

Adjustable Spot Size

- Offers adjustable spot size with a diameter ranging from 15mm to 220mm, making it suitable for a wide range of situations and working distances, from 200mm to 1000mm
- Easy to clean, ensuring hassle-free maintenance

Flexible Goose Neck

- An extremely flexible goose neck can be securely fixed in any position
- Features a two-segment design that allows for bending at any angle and any directions

GYNEX LLETZ ELECTRODES

STERILE EO Single-Use
Not made with natural rubber latex.

Why Clinics Choose Gynex LLETZ Electrodes

Secure Molded Handles

Provide a comfortable, stable grip for improved control.

Precision Loop Wires

0.20 mm thick loop wire to help reduce backward drag and support smooth, controlled excision.

HexLoc™ Anti-Rotation System

Prevents handle rotation during procedure.

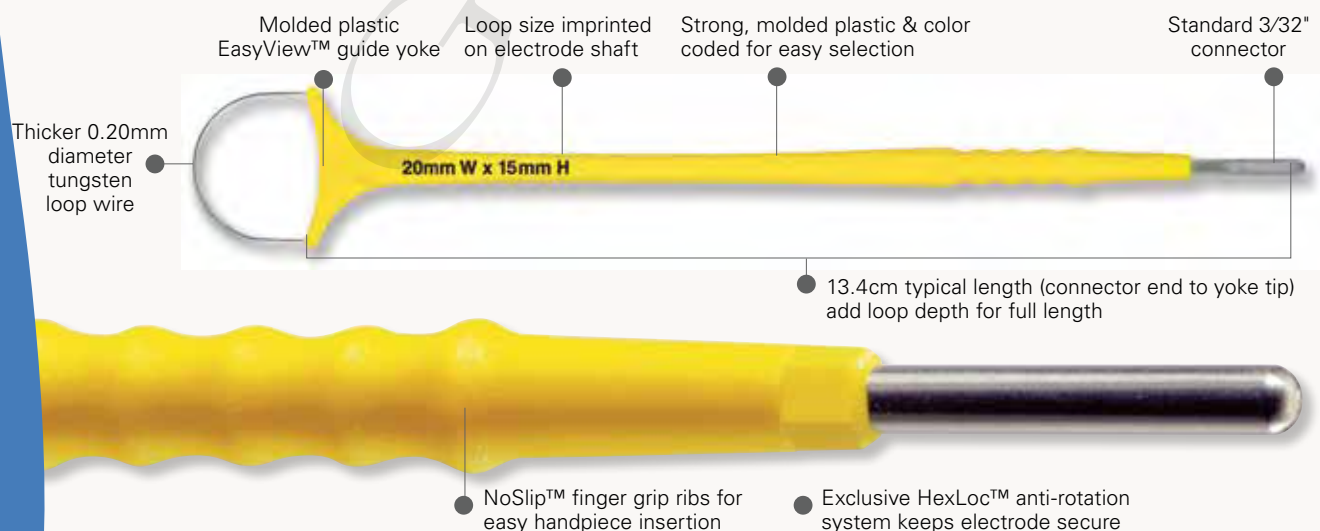

Protective Packaging

Molded blister tray that maintains the loop's true shape and protects the tip from damage or breakage.

System Compatibility

Designed to be compatible with commonly used electrosurgical systems.

Designed for consistent performance and compatibility with common used electrosurgical systems.

Radius Loop Electrodes

The Cone Electrode is a LLETZ excisor for precise cone biopsy specimens

Cone biopsy electrodes allow for smooth rotation, facilitating the removal of precise, cone-shaped specimens. The tungsten linear wires are 0.20mm thick to help reduce backward drag. Molded shaft and stop arm are completely insulated to protect the endocervical canal and underlying vaginal structures.

Each electrode is packaged in a molded blister tray which keeps the tip true to shape and protects from breakage.

Vaginal Speculum, LLETZ COATED

4-Way Expander Vaginal Speculum

The 4-Way Expander Vaginal Speculum is designed for LLETZ procedures with Gynex's lavender non-conductive coating. It provides a superior view with one instrument as compared to a standard speculum and lateral retractor. The built-in side blades are erected to enhance the view of the cervix as needed.

Features

- Built-in smoke evacuation tube holder
- Built-in lateral retractor blades
- Side blades lock firmly into place
- Pederson size blades

Lateral Vaginal Retractor

Enhance cervical access and effectively control lateral vaginal wall collapse with the GYNEX® Stainless Lateral Vaginal Retractor. Designed for ease of use and available in a range of practical sizes, it delivers reliable performance during gynecological procedures.

Features & Benefits

- Compatible with GYNEX® Wide-View™ and FullView™ Specula
- Fits securely within the speculum to improve visualization
- Provides greater access to the cervix
- Durable stainless steel construction for long-lasting use

Stainless Steel

Blade Reference Chart: Shown Actual Size, Scale 1:1

Auvard Weighted Speculum

The Auvard Weighted Speculum is a single-ended vaginal instrument designed for use during procedures such as hysterectomy and dilation and curettage with the patient in the lithotomy position. Its integrated weight maintains stable retraction, allowing for a consistently open surgical field without the need for manual support.

Features & Specifications

- Single-ended design for optimal surgical access
- Weighted construction ensures hands-free retraction
- Provides a clear, unobstructed view of the operative field
- Fixed weight: 1.4 kg
- Size: 105 mm (L) x 38 mm (W)

REF SA2200 \$299.95

Guttman Speculum with Special Blades

An indispensable instrument designed to provide complete visualization of the cervix and vaginal canal. The Guttman Speculum features a unique blade configuration without upper blades, allowing for unobstructed access and enhanced visibility during examination and procedures.

Features & Benefits

- Innovative design without upper blades for full visualization
- Provides clear access to the cervix and vaginal walls
- Dual separators assist in opening and stabilizing the vaginal canal
- Ideal for enhanced control and precision during procedures

Medium

REF 2310 Top Separator: 82mm **\$72⁹⁵**

Large

REF 2312 Top Separator: 92mm..... **\$72⁹⁵**

Greenberg Hysteroscopy Speculum

The Greenberg Hysteroscopy Speculum is a modified, open-sided Graves-style speculum designed to enhance efficiency during hysteroscopic procedures. Its shorter blades and open-side design allow instruments to be removed while still within the vaginal canal, minimizing disruption during use.

Engineered to bring the cervix closer to the provider, this speculum reduces the length of unsupported hysteroscope shaft entering the cervical canal, improving control and procedural precision.

Features & Benefits

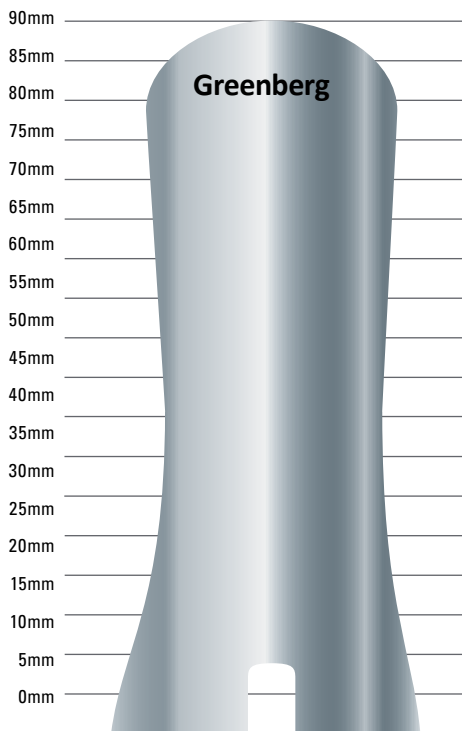

- Modified open-sided Graves design for improved access
- Shorter blades for enhanced maneuverability
- Allows instrument removal without full withdrawal
- Positions the cervix closer to the provider
- Improves stability and control of the hysteroscope

REF 2801 **\$62⁹⁵**

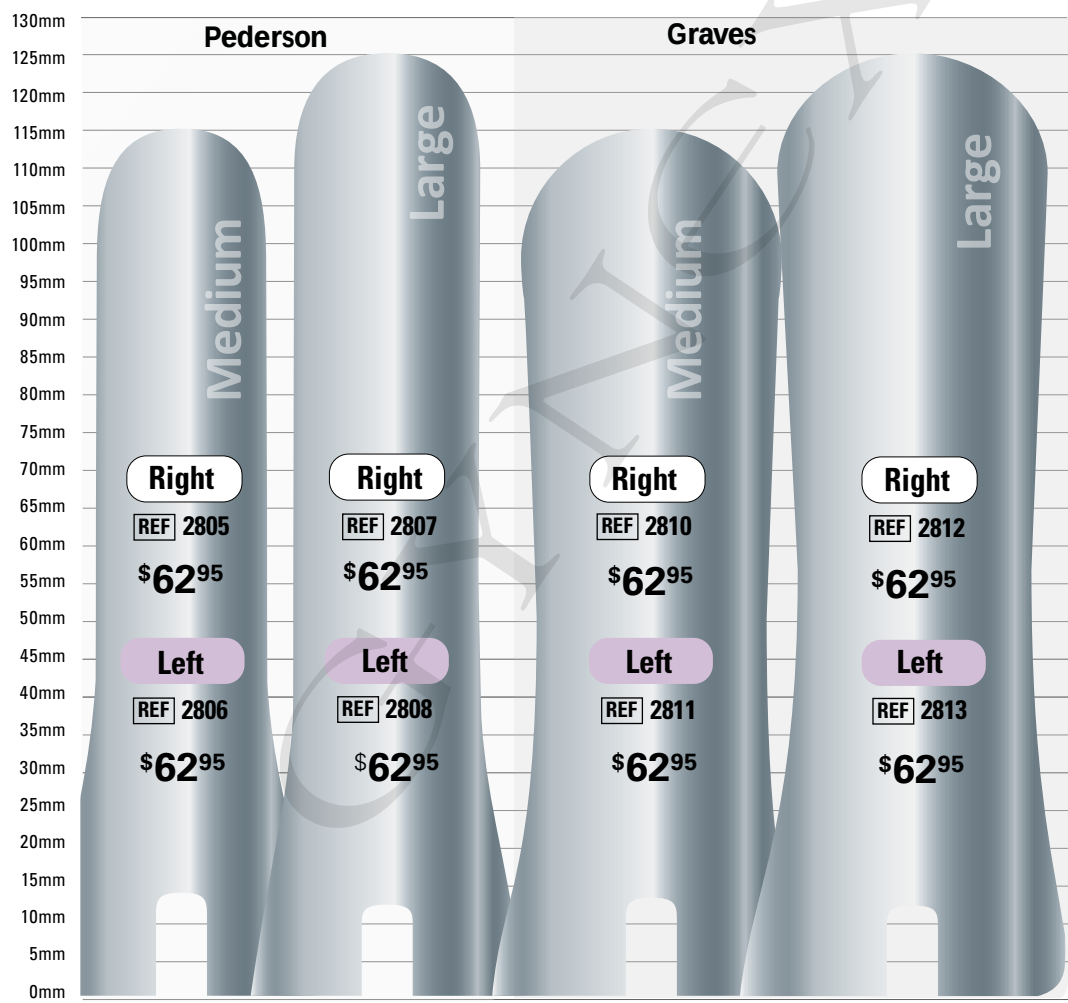

"The shorter blades bring the external os about 30% closer to the introitus and make access to the cervix dramatically easier in almost every facet of surgical cases in which a speculum is used."

James Greenberg, MD, - Boston, MA

Open-Sided Stainless Steel Speculum

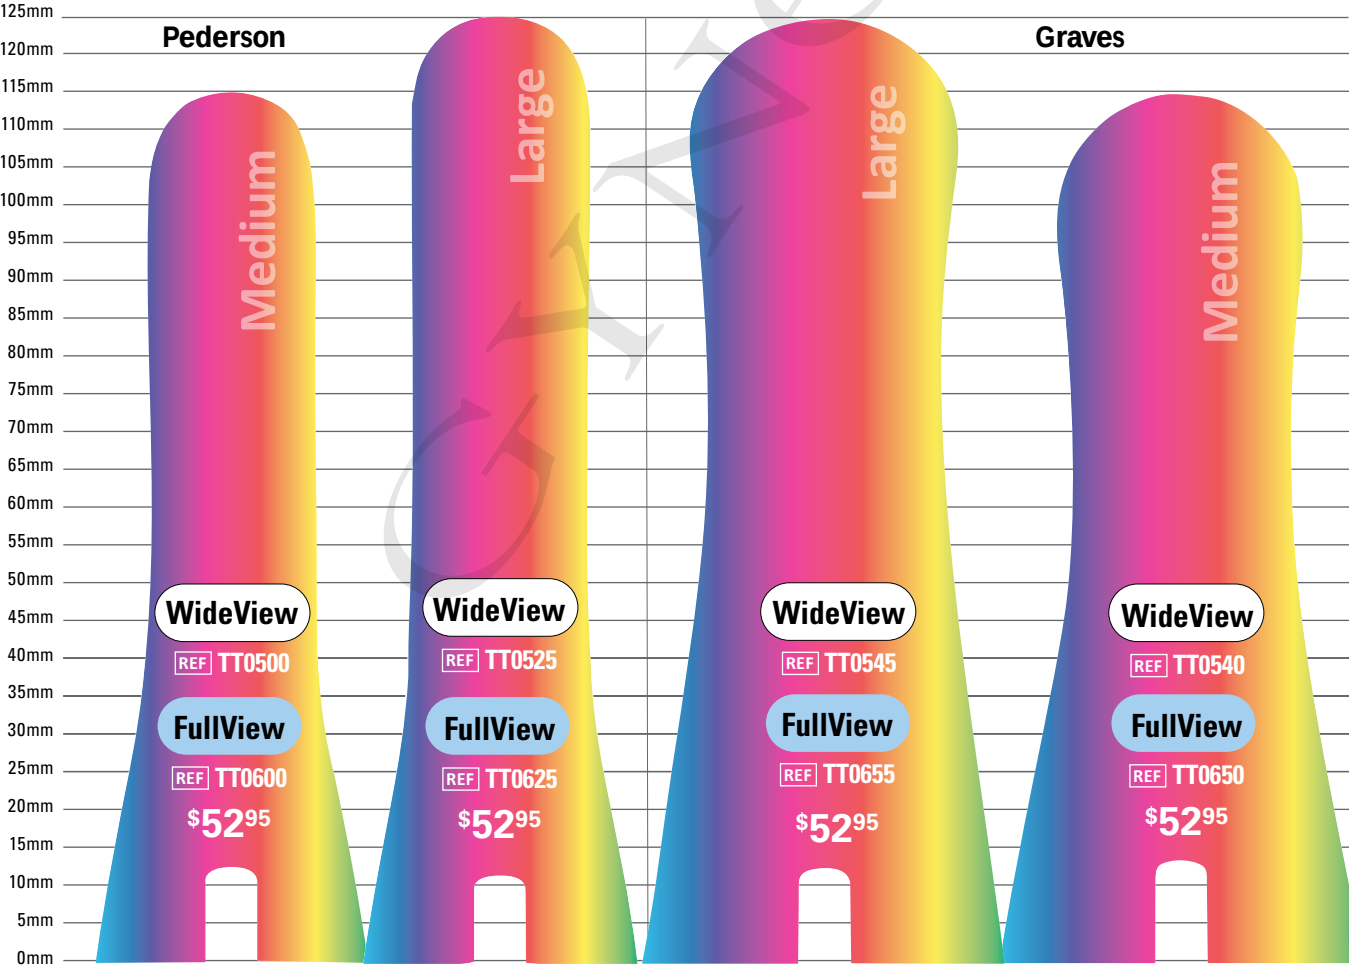

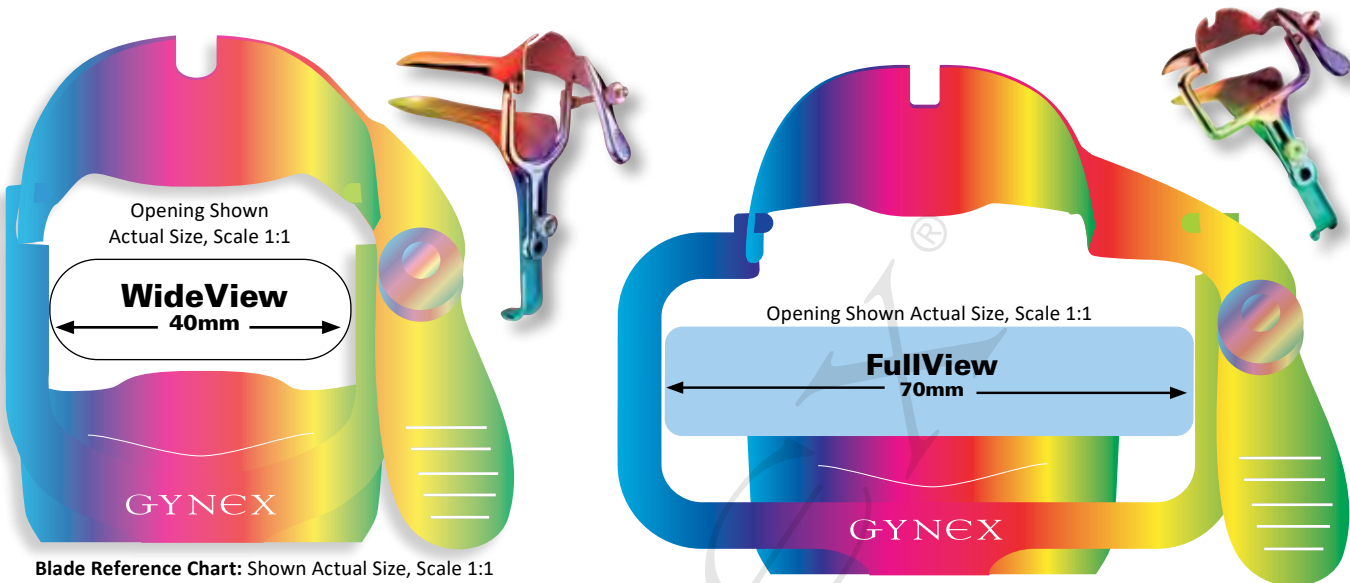

Left and Right Opening

Note: Blade length is measured from top center of back of blade to end of distal tip. In most cases, the bottom speculum blade will protrude and appear to be longer. Mechanical assembly of a speculum simply places the bottom blade in a more forward position. Although the two blades are normally similar in length, they may vary a few millimeters from lot to lot.

Titanium Rainbow™ Speculum

Exclusive Titanium Rainbow™ coating extends the life of instruments over traditional stainless-steel. The titanium coated speculum offers increased resistance to corrosion, resilience against impact and low friction coefficient. Titanium Rainbow™ is available in two viewing widths for Pederson and Graves.

5% Discount on Prepaid Orders by Check or ACH payment (offer excludes microscopes, colposcopes and/or extended warranties).

ULTRASONIC FETAL DOPPLER

Fetal Doppler Model D2500

- Highly sensitive ultrasound
- Detects heart rates of fetus as early as the 12th week
- Automatic shutdown after 1 minute without operation
- Built-in loudspeaker
- Rechargeable battery, 1180 mah lithium
- Colorful display
- 2.5MHz Ultrasound Frequency
- FHR value, FHR waveform volume
- Includes battery charger and earphones

Dimension: 215mm x 200mm x 66mm

REF D2500 **\$349⁹⁵**

Add this excellent Fetal Doppler to your practice!

Thermasonic Gel Warmer

- Maintains constant temperature
- Low electrical demand
- Heat indicator lamp
- Adjustable thermostat

REF D82-01 **\$314⁹⁵**

Doppler Gel

- Acoustically correct for the broad range of frequencies used
- Completely aqueous, will not stain clothing or damage transducers
- 250ml bottle

REF D-GEL Box of 6 ... **\$42⁹⁵**

pHem-Alert® Vaginal pH Test

NON-STERILE Single-Use

Not made with natural rubber latex

pHem-Alert® test measures vaginal pH, and is intended for use by women who have any of the following vaginal symptoms: Itching, Burning, Unpleasant Odor, Unusual Discharge

KEY ADVANTAGES

- Each test securely packed in a procedure blister tray
- Convenient, unique, patented applicator “key” with attached pH paper
- Easy to read pH chart included with every test set

REF pH-99 Box of 12 **\$72⁹⁵**

*The Original Vaginal pH Test Designed for
Accurate & Comprehensive Results!*

pH 4.5

- Normal pH
- Predominant lactobacilli
- Possible yeast overgrowth
- Normal serum estradiol

pH 5.0

- Low grade bacterial vaginitis
- Borderline serum estradiol

pH 5.5

- Bacterial vaginitis
- Low serum estradiol

pH 6.0

- Bacterial vaginitis
- Low serum estradiol

pH 6.5

- Bacterial vaginitis
- Very low serum estradiol

pH 7.0

- Low to no serum estradiol

pH 7.5

- Low to no serum estradiol

Instrument Care and Cleaning

Touch-Guard® Hot Beads

Sterilization Beads

- Touch-Guard® Hot Beads provide a safe, effective and convenient way to sterilize surgical instruments.
- No need for potentially dangerous gases, flames, or chemicals to achieve sterilization.
- The specially cast "no-lead" glass beads transmit heat properly and remain intact at high temperatures.
- Simply plunge metal instruments into the hot glass beads for instant sterilization.
- Touch-Guard® Hot Beads are free of pathogens and microbial contaminants.
- Pre-measured containers make it easy to use the right amount of beads for each sterilization cycle.

Touch-Guard® Stain-Ex™

Biological & Chemical Stain Remover

- Touch-Guard® Stain-Ex™ is a fast and effective biological and chemical stain remover.
- It removes a variety of stains, including Iodine-based stains, Lugol's stain, and medical/histological stains.
- It can be used on a range of surfaces, including hands, glassware, stainless steel, plastic, counters, floors, lab coats, laboratory equipment, and hospital linen.
- Touch-Guard® Stain-Ex™ works great on LLETZ-coated instruments.
- Application is easy, and stains are removed quickly (in a matter of seconds).

REF SS10 1 Gallon **\$97⁹⁵**

Touch-Guard® Low Suds

Liquid Instrument Detergent Concentrate

Touch-Guard® Low Suds Liquid Instrument Detergent Concentrate is used for effectively and safely cleaning all surgical instruments, plastic, glassware, and rubber tubing. Formulated for use in automatic washers, ultrasonics, washer-sterilizers, and manual cleaning.

- Neutral pH detergent with powerful sequestering and emulsifying agents
- Fast wetting, odorless, non-sudsing, maintains high detergency
- Removes protein, blood, tissue, fat and any organic soils
- No residue - no pyrogens; leaves a surgically clean surface
- Exceptional cleaning in hard, soft, cold or hot water
- Biodegradable; contains no phosphates or NTA
- Free rinsing, non-enzymatic formulation
- Safe for ophthalmic cleaning

REF TG-200 1 Gallon **\$37⁹⁵**

Touch-Guard® Lubricant

Instrument Lubricant and Rust Inhibitor

Touch-Guard® Instrument Lubricant and Rust Inhibitor protects and extends the life of all your surgical instruments. Clinically tested to be thoroughly steam penetrable, steam sterilizable and ETO sterilizable. When used daily as a rinse after cleaning, it will keep your instruments moving parts operating smoothly and remain effective even after autoclaving, without any oily residue.

- Reduces repair and replacement cost
- Prevents rust, spots, stains and corrosion
- Restores articulation to sticky box-locks and joints
- Withstands high temperatures ad autoclaving
- Steam penetrable, sterizable and ETO sterilizable
- Non-oily, non sticky, non-toxic, water-soluable and silicone free

Instrument Repair and Sharpening

Gynex® allows you to extend the life of your instruments, deliver optimal performance and better manage your surgical asset investment. All sharpening and repairs also include rust/stain removal, cleaning, minor polishing and lubrication.

Gynex® sharpens and repairs most medical instruments. If the instrument that you would like to have sharpened or repaired is not listed here, or you have any questions, please contact us for more information.

Please note that due to metal, age and condition, some instruments may not be repairable or sharpened.

Pricing is as follows:

Gynex® Biopsy Punch	\$70 ⁰⁰
Other Brand Biopsy Punch	\$80 ⁰⁰
Gynex® Curette	\$45 ⁰⁰
Other Brand Curette	\$55 ⁰⁰

Toll Free: (888) 486-4644
(8:00AM–5:30PM CDT)

Selling Notice:

All products are limited to purchase by licensed medical practitioners, physician and medical facilities. In most cases, we do not sell to the general public.

Warranty:

All hand-held instruments in this catalog are warranted to be free from defects in materials and workmanship for a period of two (2) years from the date of purchase, unless otherwise specified. LLETZ instruments carry a limited warranty of six (6) months from the date of purchase. Customers who believe an instrument is defective must return it to GYNEX for evaluation. Products determined to be defective will be repaired or replaced with the same or a comparable product at the discretion of GYNEX Customer Service. This warranty is void if any instrument has been repaired, modified, or sharpened by anyone other than GYNEX. All GYNEX biopsy punches in this catalog will be sharpened free of charge for one (1) year from the date of purchase, provided sufficient material remains on the tip to allow sharpening. This warranty does not cover normal maintenance, cleaning, or sharpening resulting from regular use, except as noted above for biopsy punches. Damage caused by misuse, improper handling, inadequate care, exposure to chemicals, loss, or theft is not covered. Shipping charges are not included under the free sharpening warranty or any extended equipment warranty.

Return Policy:

All hand-held instruments in this catalog are warranted to be free of defects in manufacturing materials and workmanship for two (2) years from date of purchase. LLETZ instruments featuring a non-conductive coating are warranted against defects specifically related to coating integrity for a period of six (6) months from the original date of purchase. Customers who feel an instrument is defective must return it to GYNEX for evaluation. Products found to be defective will either be repaired or replaced with the same or comparable product, at the discretion of GYNEX Customer Service. Warranty on any hand-held GYNEX instrument is voided if instrument is repaired or sharpened by anyone other than GYNEX. All GYNEX biopsy punches

in this catalog will be sharpened free of charge for one year from date of purchase (if enough metal is remaining on tip to allow sharpening). Warranties do not cover general maintenance, cleaning or sharpening needs that result from normal use, except as noted above regarding biopsy punch sharpening. Damages caused by normal wear and abrasion, mechanical abuse, impacts, misuse, improper care, cleaning, chemicals, or loss and theft are not covered by this warranty. Shipping charges are not covered for free sharpening warranty nor extended equipment warranty.

The following items may be returned:

- Product with RMA number
- All returns must be made within 30 days of the item receipt (except for warranty).
- Product with unbroken seals, with labels intact, in original container and packaging
- Unused instruments which have not been cleaned or sterilized
- Single-Use[®] product (sterile) in original, unopened package
- Product damaged in shipment*
- Product that has at least 12 months remaining shelf life as determined by the expiration date
- Instruments damaged, broken or not working properly due to defects in material or workmanship

**Note: Product returned due to error or damage in shipping must be reported to customer service within 72 hours of receipt. Damaged product must be accompanied by a written explanation noting damage.*

The following items may not be returned:

- Product without RMA number
- Product that has been improperly handled or stored
- Product that is marked, coded, dated, damaged, soiled or adulterated in any way (except standard cleaning and sterilization procedures for reusable instruments)
- Product damaged by or exposed to heat, fire, smoke, high humidity or water (except standard cleaning and sterilization procedures for reusable instruments)

Restocking Charge:

A 15% restocking charge applies to all returned product, unless the return is due to error in shipment, product damaged in shipment, or product returned for repair or replacement due to defect in material or workmanship.

Disclaimer:

All prices in this catalog are subject to change without notice. All sizes indicated may vary slightly, due to differences between manufacturers. In order to carry sufficient inventory, it is necessary for GYNEX to purchase from different manufacturers. As a result, final products may not be the exact sizes as shown in charts, drawings or photos. The advertisements and information in this catalog may contain typographical errors or inaccuracies and may not be complete or current. GYNEX therefore reserves the right to correct any errors, inaccuracies, or omissions and change or update information at any time without prior notice. Please note that such errors, inaccuracies, or omissions may relate to pricing or availability. We reserve the right to refuse to honor offers or terms, which contain error or inaccuracies.

Force Majeure:

Neither party shall be liable for any failure or delay in delivery of goods, or in otherwise fulfilling its obligations with respect to the sale of goods to the other which results from any cause beyond its reasonable control, including disruption or delays in a common carrier's transportation schedule, compliance with any regulations, orders, acts, instructions, or priority requests of any national, state or municipal government, or any department or agency thereof, or any civil or military authority, or from acts of God, fires, or other casualty of accidents, strikes, lockouts, factory shutdowns, embargoes, riots, or other disorders, delays or shortages in transportation, or inability to obtain in sufficient quantity fuel, power, labor, manufacturing facilities or materials or other supplies from the usual sources of GYNEX. Notwithstanding the foregoing, in the event a party is unable to perform as a result of such force majeure event for a period exceeding sixty (60) days, the other party may, at its option, terminate its purchase order or commitment to sell the goods and neither party shall have any further liability hereunder other than for past services rendered and goods sold.
